To the Members of the Portland Chamber of Commerce:

As you all know, the idea of continuing the vegetable oil industry in Portland after the Palmolive fire of a year ago, originated in the Portland Chamber of Commerce.

Some of the directors and officials of the Chamber have given us considerable support. The membership of the Chamber have not responded with subscriptions as we feel they should and as some of the directors and officers of the Chamber feel they should and as some of the directors and officers of the Chamber feel they should.

We have received two replies from members of the Chamber of Commerce upon this subject and they are both so good that we print them herewith. We mailed letters to 3600 members of the Portland Chamber of Commerce. We have subscriptions from not more than thirty of the membership.

We still have \$40,000 to raise to save this industry to Portland. Will 400 members of the Chamber of Commerce accept the suggestions of Mr. Bliss and Mr. Lutz and immediately subscribe for at least one share each in order to put this matter across, and incidentally prove to the other 300 Portland subscribers that the membership of the Chamber of Commerce are willing to take a financial interest in a Portland enterprise which originated in the Chamber of Commerce and which has the indorsement of the Chamber of Commerce?

Will each member who reads this advertisement please fill out the subscription blank which we mailed him, for some amount and return to us with check for 10% of the subscription?

FIRST LETTER

"In accordance with our conversation of even date I inclose check for \$10 together with stock subscription for one share of stock, and wish I could make it more but feel everyone in Pertland should take one or more shares at least. If every member of the Chamber of Commerce would do this you would not be long in selling the stock. Another suggestion is that someone see every man to whom a blank was sent. Many of us realize the impertance of keeping such a good thing here but are busy and sidetrack the matter, thinking as I did, they would take it up later, but out of sight out of mind, and thus stock not sold. We were largely interested from an insurance standpoint on the old plant and I came in contact with Mr. Painton, and I want to say he knows his business. I am satisfied this is a good investment, but would subscribe if I knew I would never get a dividend. (Signed) W. E. Bilss." FIRST LETTER

SECOND LETTER. "I am herewith inclosing my subscription for one share of capital stock, amounting to \$100, for which I have inclosed my check amounting to 10%, or \$10. I am highly in favor of giving such assistance as possible and there should be at least a thousand or two thousand in Portland who are able to make a subscription of one share of stock in order to bring this enterprise to our city. Radiogram Expresses Gratitude of Continued and Men.

Portland has wen a place in the hearts of the officers and men of the Pactorial Consul Gets Peace Message with a visit last week. This was shown by the message received yesterday in Mayor Baker's office from Captain James D. Willson, commanding the division. The message, sent by radio from Assoria, Or., reads as follows:

"Officers and Men.

Fortland has wen a place in the hearts of the officers and men of the Pactorial Consul Gets Peace Message From His Government.

A. R.
