TERMINAL HEARING MAY BE HELD SOON

Early Solution of Problem Is Considered Likely.

FEDERAL BODY CONCERNED

Message From Washington Urging Speedy Adjustment.

Speedy termination of Portland' railroad terminal controversy is urged by the interstate commerce commisn in a message received yesterday by Fred G. Buchtel, chairman of the Oregon public service commission, indicating that the former body is anxlous to conduct a hearing in this city

at the earliest possible date. Forwarded by Commissioner Aitchi son, of the interstate commerce commission, the telegram repeats information previously received, to the effect that both the Union Pacific and the Southern Pacific lines, as members of the Northern Pacific Termina company, have suspended their ouster order against the Great Northern and Spokane, Portland & Seattle roads, which was to have become effective at midnight December 31, and will facilities by these companies pending the decision of the commission. That the commission desires an early hear-ing is indicated by the request;

"Please advise us how soon you can be prepared for a hearing upon the main body of the complaint filed by you, as this concession (suspension of the ouster proceedings) seemingly takes care of the emergency feature of your complication."

Chairman Buchtel, of the Oregon commission, as well as his fellow commissioners, Fred A. Williams and H. H. Corey, is inclined to the belief that preparation of the case will con-sume three or four weeks, and that the hearing to be held in this city cannot possibly take place earlier than 30 days hence, possibly two

The public service commissioners. ng espoused the cause of the city made complaint to the interstate body, are also emphatic in their demand that the city and its special committee stand solidly behind the fight, not only in the preparation of data but in the forceful presentation of Portland's plea for a union terminal befitting the needs and dignity

of the city.
"The commission will at once proceed to marshal facts in support of the petition," said Chairman Buchtel last night, "and will call upon Mayor Baker and City Attorney LaRoche to prepare their contentions for sup-plementary presentation. We have taken up this controversy and through the filing of our complaint have caused the interstate commis-sion to recognize the existing emergency. But while we apprehend that the burden of proof will fall on the Oregon commission, masmuch as we took this action, we will expect the city to step in and shoulder its share."

Complaint Halts Ouster. The complaint which went before the interstate body was drawn and forwarded December 18, and constituted the move that effectually curbed the disposition of the terminal company to oust the two competitive lines-tenants of the union station during and since the regime of the railroad administration. conditions as they appear to the state commission, and maintained that the public would suffer directly if the terminal situation were disturbed.
"The convenience of the situation,"
commented Commissioner Williams. upon receipt of the request for an early hearing, "was so apparent that it demanded a temporary order con-

tinuing present arrangements. This we have secured for Portland, despite the fact that our request to the terminal company-or the dissenting lines -for postponement of the order of eviction was at least denied, if not ignored, by the president of the terminal company. Now we have been requested to expedite the hearing, and this is the main business at hand.'

Vigorous Fight Assured.

City Attorney LaRoche reaffirmed his willingness to co-operate with the state commission in every way pos sible, through the preparation of data and the presentation of the case, and it is anticipated that the special terminal committee, appointed by Mayor Baker, also will contribute materially to the effective broadside with which state and city will fight for metropolitan terminal facilities. Chairman Buchtel will suggest date for the hearing, and forward reply to the interstate commission within the next few days.
