NO REASON FOR WORRY.

If congress should pass a re-arrangement bill, giving Oregon four representatives, and if the state should fall now, it would be a congressional district, instead of three.

The present governor comes from Marion, having been nominated in a republican primary as secretary of state (1916) over a prominent citizen of Portland.

WHETHER WE ARE DRIFTING.

The direct primary, at last, is under critical examination. Idaho has done more than analyze; it has virtually abandoned it.

LIBERATING THE ATOM.

So many claims have been made under the general term "liberating the atom" that it is difficult to appraise without further data than are available.

explosive. It is true that a vast proportion of the world's necessary work might have been done if all the energy set free destructively during the recent war had been harnessed and employed for peaceful ends.

There is less objection to that other reported discovery by a German man who is said to have found a way of destroying the mold germ in seeds while at the same time increasing their germinating vitality.

AGRIED ON THE PORT BILLS.

All valid criticism of the group of bills now pending in congress has been met in the final revision, and they will be submitted to the legislature with the united support of the Port of Portland commission, the dock commission, the state committee of fifteen.

Since all the public bodies concerned are united in favor of the bills, they will doubtless have, as they should, the united support of the voters at a special election.

No cause exists for anxiety on the part of particular segments of interest in the port bills, for the port commission as it will be constituted under the bills is pledged to provide harbor and other facilities for all sections of the port district which can develop water-borne trade.

EXPLORING OREGON'S MINERAL WEALTH.

After a period in which mining has had to contend with high cost of production and a fixed price of gold, the mining industry of Oregon should start a new life this year.

THE PHILIPPINES ARE BEING FLOODED WITH PROPOSALS FROM MANUFACTURERS TO SUPPLY PANTS TO THE NATIVES.

The town of Dayton is to get a big run from the war department. Wait until she "Wooten" next fourth of July. "Rah for Old Yamhill! You bet yer life!"

WHAT KIND OF A BIG NAVY?

President-elect Harding's opinion that the United States should have as great a navy as any other nation raises the question: What kind of a navy is that?

OPERATION OF AN ELEVATOR IS THE SIMPLEST MECHANICAL PROPOSITION.

Mr. Young called Police Surgeon Samu'l Goldhammer, who succeeded in quieting Mrs. Young by explaining to her that the postcard was not from an "affinity" of her husband, but was merely the work of a misadvised press agent.

FOR TWO DAYS THE INDIANS HAVE HAD A GREAT GAMBLING BOAT ON NEAL'S PLACE NEAR ANTIERS.

At least a hundred attended, some coming from Klamath Falls, Hermit, Dunsmuir, Copper City and Bald. At least a dozen automobiles were parked around the gambling grounds.

SHADOW ALLEGED BLACK HANDER, MADE SUBMERSIBLE.

Lord Fisher believed that it was practicable, and advised that it might be possible to build a submersible that would be able to operate in the open sea.

leaved the army, it might be possible to build a submersible that would be able to operate in the open sea.

Manhattan's Super-Bluffs Re-Com- Saddy Overworked.

The art of "throwing a bluff" reaches rare heights in this far-flung metropolis. To call on a business man these days and not discover that he is in a "conference" is as futile as hurling a rose leaf into the Grand canyon to hear the echo.

Hotel clerks make a great deal of themselves by being so conscientious.

The hotel business and the theatrical business are much alike after all, said Theodor Morris of Eugene, yesterday at the Multnomah. "I have seen both. Many actors come to hotel work when they want to get away from the footlights or when business is dull."

Science Does Not Admit He Has Been Found in Oregon.

SANTA MONICA, Cal., Jan. 10.—(To the Editor.)—There has been some discussion recently in public print over a "lava bear" in eastern Oregon.

THE OREGONIAN IS THE ONLY PAPER OF THE WEST WITH US.

The Oregonian is the only paper of the west with us, says J. H. Hungerford of Carroll, Ia., who was in Portland yesterday for the first time.

WHAT LITERATURE MIGHT HAVE LOST.

Keats never died well as a chemist. He had little taste for such tasks. As calling up pills for all popular life and boiling prescriptions in flasks.

More Truth Than Poetry.

By James J. Montague. WHAT LITERATURE MIGHT HAVE LOST. Keats never died well as a chemist.
