Notice the kind of people who buy

Oriental rugs

THEY ARE NOT always wealthy, but they seem to get ahead. The reason is fundamental. The person who looks ahead is usually willing to pay enough in the first cost of an article to insure long service and high quality. He thus eliminates the high cost of constant repairs and speedy depreciation. In the end he is way ahead of the shorter-sighted person who pinches pennies at the expense of future dollars.

We unqualifiedly recommend our importations as your most economical rug buy.

Annie K. Hamilton, wife of Boyd M. Hamilton, manager of the Mosler Safe company, sought a divorce, custody of their two children, Marguery, aged 8, and Boyd K., aged 3, and money of \$250 a month in a suit filed in the circuit court yesterday.

The Hamiltons were married in Portland April 11, 1910.

Mr. Hamilton asserted that her husband has accused her of having numerous affairs and of clandestine meetings with other men, accusations which he branded as false.

Last August, she declared, he upbraided and cursed her in public. He would open her mail and spy on her, she said.

Other divorce suits filed were Grace B. against J. E. Berg, Georgia against William Ely, Zella M. against George J. Browning, Rose E. against Gordon W. Foster, and Lydia G. against Charles A. Gordon.

Divinit force decrees awarded by Presiding Circuit Judge Kavanaugh were: Pauline from George Harold Lewis, E. L. from Olga Rowland, Eva from L. Roberts, Gladys A. from George S. Clark, Alice G. from Harry G. Hester, Eva from Albert A. Martin, Lulu C. from C. B. Van de Hellen, Emil G. from Emma M. Schmitt, from Clifton Anderson, H. R. from Jennie M. Prentice, and Mary A. from Arthur G. Shirey.

A person might as well try to make a 1921 model automobile out of one made in 1908 by putting something in the gasoline as to try and make a new man out of an old one by the insertion of goat glands, according to the declaration of Dr. Calvin S. White, who gave an address on the need of health conservation at the luncheon of the Ad club at the Benson hotel yesterday.

Dr. White urged the need of exercise and recreation. He declared the greatest crime of the age to be the way in which the ordinary business men neglect exercise. He expressed the belief that the establishment of the municipal golf links was the best investment the city of Portland ever made.

The club created a "business trouble" committee on motion of Charles F. Berg. This committee, it was announced, will be available for all members who have business troubles and feel the need of advice.

The new president of the club, W. S. Kirkpatrick, took charge yesterday.

Publicity Fund Favored. EUGENE, Or., Jan. 19.—(Special)—The Eugene Chamber of Commerce has been asked by the Medford chamber to take action favoring the appropriation by the present legislature of the sum of \$25,000 to be expended by the Northwest Tourist association in attracting tourists and settlers to this state. The letter stated that a record of inquiries regarding that city and surrounding country since April 1 of last year showed that 45 per cent are directly traceable to the publicity of the Northwest Tourist association.

Link River Is High. KLAMATH FALLS, Or., Jan. 19.—(Special)—Water in Link river is higher at present than it has been at the corresponding period for many years. The California-Oregon Power company's engineers estimated the flow at 3248 second feet at the last reading, the highest January marking shown since they began keeping record. legion post favors bonus. LEBANON, Or., Jan. 19.—(Special)—The American Legion post of Lebanon has gone on record as favoring the bonus measure for world-war soldiers. At the meeting of Leo Sturtevant post No. 51 of this city, the members voted to lend every support to the bill introduced by Adjutant Ivers. The post also announced its disapproval of the action of the committee of ten who recently circulated a letter endeavoring to influence the posts of the state to withhold their support from the bonus bill.
