MAKING UP HARDING'S MIND.

No one is privileged to say to President-elect Harding who may or Judge Bean, or Judge Wolverton may not be in his cabinet. But, by should undertake for hire as an avoinference and attitude, not a few persons are saying it. Just what effect the great amount of pulling, hauling and shoving by friends or enemies of various eligibles or pos- would do it. It should be unthinksibilities is having on Mr. Harding is unknown. It may have none at all. But it has been assumed, probably erroneously, that it is having a great

The reporters, who are in close grand-stander. His censure of certouch with the politicians, elect or tain bankers because they did not reject a new cabinet official every pay more than \$90 per month to a It is not a bad guess that the nineteen-year-old youth in a country the candidates reflects their poputhe clerk of blame for his embezzlelarity, or lack of it, with the politimany such instances.

Once they all agreed that Mr. Hoover was a probability, and some thought he was a certainty. Then that a federal judge, or any judge, the Hoover movement sagged, with owes it to the nation or the state the growth of the opposition, until lected Mr. Hoover again, this time in the administration of justice, or for the secretaryship of commerce. It cannot be long now until it in the most suspicious mind.

known what is to be done by Mr. Harding about Hoover. It is by year to help Judge Landis, not base-but fair to assume that the uncer-ball. Because of that fact, he has es not arise out of the condition of Mr. Harding's mind, but of everybody else's.

The peculiar aspect of the Hoover candidacy-if it is to be called a candidacy-is that the decision by reasonable effort has been made in Mr. Harding must be for Mr. Hoover the legislature to find a compromise or against him. It is different with that would satisfy those who would the others. If Mr. Hughes is named restore the Portland school board to for secretary of state, there is no its rightful dignity and control over implication that he did not want, or the schools, and those who would would not have, Mr. Root, Mr. Knox, continue to deprive it of authority Dr. Hill, or any other. If he selects to dismiss teachers who care to reex-Senator Weeks for the war de- sist dismissal. to him and with him for the people. 7 P. M. OB 5 A. M.

Victor Murdock, former representative in congress from Kansas, offers a thought-provoking contribution to the philosophy of getting ahead in the world in an article on "The Hour of Fate." Mr. Murdock discusses the subject from the point of view of the young man between fifteen and twenty-five and concludes P. M. is the "springboard from which most men leap to success or fall off to failure." Varying the metaphor somewhat, he con-cludes that it is also the fork in the

road, one of which leads to char-

and the other to the lack of it. The logic of the Murdock argument is convincing. To a majority of men, he says, the hour of 7 in the evening marks the end of work and THE RETARDED STAR OF EMPIRE, hour when a man makes a choice of United States continues to move the kind of leisure he is going to westward, but at a decreasing rate, see to great distances. MANY ANGLES OF THE TARIFF.

Tariff revision will be found a more complex problem than ever when congress undertakes it. Before the war it was complex enough to make leigslators rack their brains. The old puzzles remain in more involved form, and to them are added

At that time we talked of a tariff American and foreign cost of production. That sounds simple, but there is often as much difference in eign countries as there is between either of them and the United States. Which country's cost should be taken as a guide or should we

It is, therefore, worth the guess they might grow to importance? that the measure now presented in But for Hoover there is no alterthat the measure now presented in that question has been complicated by radical changes in cost ping, war debts and reparation now taking place. Exchange is low, It will not solve the prob- a commission be appointed to inves- many skilled workmen, loss of efficiency through labor's discontent and revolutionary agitation, high taxes-all these have raised costs in Europe. On the other hand, adoption of American machinery and standardized quantity production have lowered costs. The great liberated energy of emancipated peoples like the Czechs and Poles letting loose energy which has been restrained by oppression, may also prove a factor.

We have been awakened by the war to the fact that maintenance at thought to the fact that we were many chemicals, potash, optical the news notes early in the next cen-glass, surgical instruments, photographic paper.
