

**GOVERNOR VEToes  
5 PROPOSED LAWS**

Bill Providing for Livestock Commission Gets Ax.

**FOUR MEASURES SIGNED**

Executive Passes Upon Remaining Work Done by Recent Session of Legislature.

SALEM, Or., March 1.—(Special.)—That the appointment of a so-called commissioner, whose duty it would be to investigate the livestock shipping conditions in Oregon, would entail an unwarranted expense to the producers without obtaining corresponding benefits, was the substance of a message prepared by Governor Oletot in connection with the veto of senate bill No. 239, favored by Senator Upton and approved at the recent session of the legislature.

Short titles of five measures vetoed by the executive today follow:

S. B. 228, by Upton—Providing for the appointment of a commissioner for the cooperative marketing of meats.

S. B. 219, by committee on Judiciary—Providing for an additional judge for the 10th judicial district, fixing salary, and providing for the appointment.

S. B. 207, by committee on Judiciary—To regulate the practice of law, and to regulate the sale of stocks and bonds.

S. B. 258, by committee on Revision of Laws—Regulating dealers in the buying and selling of stocks and bonds.

H. B. 400, by Fletcher and Powell—Relating to salary of district attorney of Polk county.

**Bill's Effect Doubtful.**

"Senate bill No. 239 provides for a commissioner whose duty it would be to investigate the livestock shipping conditions for the purpose of gathering information in regard thereto," said the governor's message. "The expense and salary of the commissioner would be paid out of a fund derived from fees imposed on livestock shipments. The bill itself provides that its purpose is to co-ordinate the livestock growers to the end that the speculator and profiteer between the grower and consumer may be eliminated."

"A bill relating to livestock scarcely could have had a more laudable purpose than this and the author of the bill has sincerely endeavored to bring about some results toward that end. But it is doubtful if the bill would reach the end sought. Its main result probably would be to place an unnecessary expense upon livestock men in the form of fees, which expense would be borne by the ultimate consumer."

"Rather than to enhance profits for livestock growers and reduce the cost to the consumer, apparently the bill might have a directly opposite effect. The measure seems to be opposed by a great majority of the stock men in all sections of the state."

Veto messages of the governor, as they affect other measures approved by the legislature, follow:

**Veto is Explained.**

Senate bill No. 238—

"This bill relates to the salaries of officers in Harney county. Its practical effect is to limit the traveling expenses of the sheriff of that county to \$100 a month. Harney county contains an area largely in the borders of his own county, and at great expense. The bill in its present form would be very apt to cripple severely the public service."

SEATTLE, Wash., March 1.—(Special.)—A 90-mile double-honeymoon trip on a tractor through the wilds of Alaska with the thermometer 20 or more degrees below zero, will be the novel experience of James E. Barrack and George Ralph Keyes, who with their brides, were passengers for Seward this morning on the Alameda.

Barrack, who is connected with the Sampson Hardware company of Fairbanks, was confronted with the problem of taking a tractor and about two tons of hardware into Fairbanks before the opening of navigation, and his bride, Ruth Y. Wilson, famous as the woman who climbed the second highest peak on Mount McKinley, suggested the use of the tractor for the honeymoon trip. Keyes, also a new benedict, who is going in with Barrack, decided to take his wife, a young woman formerly of Tacoma, and make it a double honeymoon.

The trip from Seward will be made on the government railroad to the end of steel, where the tractor will be put into service. The distance to be covered by the tractor is 91 miles, of which 45 of which is being used at present by two caterpillar tractors hauling freight. The rest of the distance, however, is only open to horse and dog teams and the tractor will have to break its own trail on the road.

Barrack expects the trip between the ends of steel to take three or four days. From Healy river the rest of the trip to Fairbanks will be by railroad.

**State House Occupants Move Back.**

SALEM, Or., March 1.—(Special.)—The state highway department, state veterinarian and several other branches of the state government, which were compelled to vacate quarters in the state house during the recent session of the legislature, today moved back into the capitol building. In most instances these departments occupied rooms in downtown office buildings during the legislative session.

**Cowditz Assessing Begins.**

KELSO, Wash., March 1.—(Special.)—Assessment of Cowditz property for 1921 was begun today by the field deputies under the direction of County Assessor McCoy. The deputies are Mr. and Mrs. George Kerr, Kelso; J. E. Martin, Castle Rock; George Driver, Toule; Lester Patchen, Silver Lake and Ostrander, Elmer Jarrah, Kelso west; J. L. Mackey, Shinghu; E. C. Swart, Woodland; R. H. Mitchell, Kalama. Arthur Tobill, Kelso, will assess the mercantile stocks of the county and George C. Dufur of Woodland will assess logging and mill equipment.

**School Superintendent Engaged.**

NORTH BEND, Or., March 1.—(Special.)—Superintendent G. A. Ruring of the city schools has been engaged for the school year commencing next September. The school board has authorized Superintendent Ruring to submit a tentative schedule of salaries he believes should be paid teachers for 1922.

**Aberdeen Quint Returns From Trip.**

ABERDEEN, Wash., March 1.—(Special.)—The Aberdeen high school basketball team returned Sunday after a week's trip, during which they suffered three defeats and won two victories. The Aberdeen victims were Eatonville and Elma. Those who won from them were Kent, Puyallup and St. Martin.

**"Your Pretty Teeth—**  
**What have you done to them?"**

There is a new way of teeth cleaning—a way which fights film. To millions of people it has brought whiter, prettier teeth. Also safer teeth and cleaner.

You see the results in every circle—see them in glistening teeth.

This is to urge that you try this method. Ask for a ten-day test. Then mark the change which you see and your friends see.

**It combats the film**

Most teeth are clouded more or less by film. The film is viscous. You can feel it with your tongue. But it clings to teeth, enters crevices and stays. And it often forms the basis of fixed coats.

The ordinary tooth paste does not end film. The tooth brush has left much of it intact. The film absorbs stains, making the teeth look dingy. Thus millions of teeth have lost their natural luster.

**How film ruins teeth**

Film does more than mar the beauty. It is now regarded as the cause of most tooth troubles.

Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth to cause decay.

Millions of germs breed in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

These troubles have been constantly increasing. So dental science has long been seeking ways to fight that film.

**A daily combatant**

Two effective methods have now been found to daily combat that film. Able authorities have amply proved them. Millions now employ them. And leading dentists everywhere are helping to spread their use.

The methods are combined in Pepsodent, a new-day dentifrice. The results are quickly seen and felt, so they cannot be disputed. That is the tooth paste we urge you to try. And we send a test tube free.

**Also aids Nature**

Nature places in the mouth great teeth-protecting agents. But with modern diet, rich in starch, those forces need constant stimulation. Pepsodent supplies that stimulation. This is in keeping with the views of dental authorities.

It multiplies the salivary flow. It multiplies the starch digester in the saliva. That is there to digest starch deposits which may otherwise cling and form acids.

It multiplies the alkalinity of the saliva. That is Nature's agent for neutralizing acids which cause tooth decay.

Each use of Pepsodent increases these forces, and the excess remains for some time. These effects alone, in dental opinion, mean a new era in tooth protection.

**No soap—no chalk**

Soap and chalk are omitted from Pepsodent, to accord with modern dental requirements. No tooth paste which contains them can bring Pepsodent effects.

Pepsodent is the scientific tooth paste—the new-day method of teeth cleaning. Authorities say that it should supplant the methods which are wrong.

The reasons are told in a book we send. The 10-Day Tube reveals the effects. You will know what is best in a week.

**Pepsodent**

The New-Day Dentifrice

The scientific film combatant, approved by modern authorities and now advised by leading dentists everywhere. Each use brings five desired effects. All druggists supply the large tubes.

club, \$3.25; Omega Upsilon, \$3.20; Sigma Alpha Epsilon, \$2.57; Sigma Nu, \$2.44; Kappa Sigma, \$2.05; Alpha Sigma Delta, \$1.32; Wabkeena club, \$1.17.

Car Caught by Rising Tide.

ABERDEEN, Wash., March 1.—

(Special.)—Mr. and Mrs. Charles Randall and son, Mr. and Mrs. J. E. Fraser and Sevard Rouse were caught in the Copalis river Sunday by a rising tide and their car was saved only by prompt action of an Aberdeen Motorcycle club squad which was in the vicinity at the time, the members of which waded into the water and

pushed the car to safety. The car was a heavy one, and at the time was submerged almost to the spotlight. The party lost their way returning from the beach and ran into the river.

School Board Officers Named.

ABERDEEN, Wash., March 1.—

(Special.)—Nominations for officers on the town school board were made at Elma Friday night, as follows: Michael Woods, one-year term; A. L. Callow, two-year term, and W. L. Cox, three-year term. J. W. Strubel was chairman and Frank Jacobs secretary of the caucus.

**No money accepted**

The 10-Day Tube of Pepsodent is free. We even pay the postage. This is simply to urge that you test it. See for yourself what it does. Decide by the clear results.

Just send the coupon, then watch the benefits you get.

**Men see the results very quickly**

Smokers' teeth are often particularly discolored. The film absorbs the stains. The results of film removal are usually quick and conspicuous.

Most children suffer from these film attacks. Few reach the age of 15 with sound teeth. Dentists advise that Pepsodent be used twice daily from the time the first tooth appears. No ordinary tooth paste offers anywhere near such protection.

**Ten days will tell**

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

Judge by what you see and feel. You can easily decide then between the old ways and the new. Cut out the coupon now.
