

FISHING INDUSTRY CLOSED TO ALIENS

Attorney - General Upholds Legislative Inhibition.

CANNERIES ARE AFFECTED

Opinion Handed Down Says Law Does Not Contemplate Licenses to Include Foreign Labor.

The fishing industry of the state has been placed on a citizenship basis by an opinion just written by Attorney-General Van Winkle of Oregon, upholding the legislature in prohibiting aliens from fishing for profit in any waters of the state.

The attorney-general's opinion was received yesterday by Carl D. Shoemaker, master fish warden, who had asked for a ruling on the status of aliens in regard to receiving licenses. "This is a very important decision," said Mr. Shoemaker. "It gives the fish commission footing to back up the provisions of the law that no alien may obtain a license nor may fish for profit for anyone else."

The question of the correct interpretation of the law was raised by one of the canneries at the mouth of the Columbia river.

Previous Law Modified.
"The law provides that every applicant for a license to operate any of certain prescribed gear must be a citizen of the United States and a resident of the state of Oregon for one year preceding his application for the license," said Mr. Shoemaker. "The enactment of the 1921 legislature follows the enactment of 1919, which gave applicants two years in which to complete their citizenship."

"The question has been raised by one of the canneries at the mouth of the Columbia river as to whether the canneries, which is a corporation and which has the right to make application and receive licenses, can, in effect, permit persons not citizens of this country to fish with the gear for which a license was issued by the master fish warden to the canneries."

"Probably 150 or 200 of the persons who fish at the mouth of the Columbia river and deliver their fish to this cannery have not completed their citizenship and probably will not. These men in the past obtained their license to fish on their declaration to become a citizen. The cannery wants to take out the license in its name and permit the gear to be operated by these aliens."

Statute Restricts Canneries.
The attorney-general, in replying to direct questions asked concerning this situation by Mr. Shoemaker, stated that—

"1. Under the law the cannery is not permitted to take out as many gill-net and trolling licenses as it desires covering gill-net and trolling gear, and the cannery is not permitted to have aliens operate the same."

"2. The cannery, which owns the net or the outfit, cannot take out the license in its name and permit an alien to operate it."

"3. In case the alien actually owns the gear, the cannery is not permitted to take out the license and permit the alien to operate the same."

Aliens Barred From Industry.
"It evidently was the intention of the legislature to prohibit aliens from fishing for profit in any of the waters of the state," said the attorney-general. "There is no doubt but that the state has the right to regulate fishing in any manner it may choose."

Cases to prove this statement are then quoted in the opinion. "It is my opinion that no alien may be employed by any corporation to fish for that corporation," said the attorney-general. "It is my opinion that no alien person may fish. Certainly he cannot fish for himself, since it is required that he be a citizen to obtain a license."

SCREENS WILL SAVE FISH

IRRIGATION DITCHES SOURCE OF WANTON WASTE.

State Commission Starts Campaign to Conserve Flurry Stocks at All Water Projects.

More fish are lost in an irrigation ditch of average size than are properly screened than 200 fishermen would catch in the course of a year, according to A. E. Burghdoff, state game warden.

The game commission is starting in on a campaign to force the screening of all irrigation and power ditches. The members of the commission consider it a waste of money to propagate fish and then place them in streams where there is a certainty that many of them will be lost. The commission has gone on record against planting any fish in streams in which the irrigation ditches are not properly screened.

The recent session of the legislature made changes in the law affecting the screening of irrigation ditches which make it compulsory upon ditch owners to properly screen ditches.

Mr. Burghdoff left yesterday for Medford to enter into an agreement for the construction and installation of the screens in that district.

CROWDS ATTEND SERVICE

Pre-Easter Sermons by Dr. Bowman Prove Popular.

The pre-Easter nightly services at the First Presbyterian Church have been so largely attended that the main auditorium has been used, the chapel having been filled to overflowing Monday night.

The sermon by Dr. Harold Leonard Bowman, the pastor, was on "The Triumph of a Stainless Character," in which he likened the temple of Jerusalem to the temple of the soul. Mrs. Pauline Miller Chapman sang "Open the Gates."

Last night the sermon topic was "The Triumph of a Godly Mind." Otto Wedemeyer sang Dvorak's "Turn Thou to Me."

Tonight Dr. Bowman will speak on "The Victory of Patience," and Mrs. Mittlemeier Praker Stiles will sing "Oh, Rest in the Lord," from "Elijah."
