Embassy at Washington Says That Investigators Were Prejudiced Against Crown Forces

WASHINGTON, D. C., March 31 .-General conclusions of the unofficial amission of the committee of 100 commission of the committee of low investigating conditions in Ireland placing moral responsibility for dis-orders there on the British govern-ment are characterized as "biased and wholly misleading," in a state-ment issued today by the British em-basey in answer to the commission's

The commission was composed of L. Hollingsworth Wood, a New York L. Hollingsworth Wood, a New York Quaker lawyer, as chairman; Fred-erick C. Howe, ex-commissioner of immigration at New York, vice-chair-man; Jane Addams of Hull House, Chicago; James H. Maurer, president of the American Federation of Labor of Pennsylvania; Major Cliver P. New-man president of the board of comman, president of the board of com missioners of the District of Colum-bia; George W. Norris, United States senator from Nebraska; Rev. Norman Thomas, a New York Presbyterian clergyman, and David I. Walsh, United States senator from Massachusetts.

British Held Responsible. Moral responsibility for the present disorders in Ireland was placed upon the British government by the com-mission investigating the Irish ques-tion in a 30,000-word report made public today and covering the exam-ination of witnesses at public hear-ings held in Washington last November, December and January.

principle of self-determination to
Ireland." The Uister unionist viewpoint and that of the British authorlites in Ireland, the report said, were
the represented among the witnesses. not represented among the witnesses.

Summing up its conclucions after bearing all the testimony, the commission found "that the Irish people are deprived of the protection of British law, to which they would be entitled as subjects of the British king. They are likewise deprived of moral protection granted by interna tional law, to which they would be entitled as belligerents.

2. The imperial British forces in Ireland have indiscriminately killed innocent men, women and children; have tortured and shot prisoners while in custody.

3. House burning and wanton destruction of villages and cities by imperial British forces under Imperial British officers have been countenanced and ordered by efficials of the British government.

officials of the British government.

Property is Destroyed.

4. A campaign for the destruction of the means of existence of the Irish people has been conducted by the burning of factories, creameries, crops and farm implements and the shooting of farm animals.

5. Acting under a series of proclamations issued by the competent military authorities of the imperial British forces, hostages are carried by forces exposed to the fire of the republican army; fines are levied upon towns and villages as punishment for alleged offenses of individuals; private property is destroyed in reprisals for acts with which the owners have so connection.

for acts with which the owners have so connection.

6. This "terror" has failed to re-establish imperial British civil government in Ireland. Throughout the greater part of Ireland British courts have ceased to function; local, county and city governments refuse to recognize British authority; and British civil officials fulfill no function of service to the Irish people.

7. In spite of the British "terror" the majority of the Irish people have sanctioned by ballot the Irish republic, give their allegiance to it; pay taxes to it and respect the decinions of its courts and of its civil officials.

TRISECTING ARC SOLVED

FOUTH, 18, MASTERS AGE-OLD GEOMETRICAL PROBLEM.

Professors Who Have Examined Young Student's Work Find No Flaws in It.

LYNN, Mass., March 31.—(Special.)
—Arthur Rogers, a senior at Lynn
Classic high school, 18 years old, has
solved the problem of trisecting an
arc or angle, using only a straightedge and compass, professors at the school announce. The feat of Rogers has never before been accomplished

except with measuring instruments, and those who examined the youngster's work could find no flaw in it.

Although he has proved his work arithmetically, no proof has yet been discovered geometrically, and the mathematics teachers at the school will help Rogers to solve this.

Edwin Hoadley, teacher, believes the key will be found in the theorem:

"In view of all these conditions and circumstances," he said, "I believe we have made remarkable progress. We still have much work to do and will have for years to come. You can't turn the current of history over night. Anything that has fastened itself upon political, economic and personal history of our country as has the liquor traffic cannot be removed in a day or a year."

Mr. Kramer said that the Volstead law was sound, that he was not ad- a personal inquiry into the flight of vocating any radical revision of the law and that enforcement problems March 22, the day it left Pensacola, largely were administrative.

Declaring that the commission was mathematics teachers at the school are being alcoholic preparations raised and the disadvantage of lacking the official British side of the case sexept as it was gathered from documents presented to it, the report declared that "the imperial British army in Ireland has been guilty of proved excesses, not incomparable in dagree and kind with those alleged by the Bryce report on Belgium at the limperial German army." The Bryce commission, it was pointed out, was similarly handicapped.

Thirty-eight witnesses of alleged attoricties, including 18 Irish, 18 American and two English citizens, testified before the commission. The commission admitted that its report was ex parte in spite of its efforts to hear all sides. Search of Private Homes Without Warrant to Be Barred.

SEATTLE, Wash., March 31.—(Special.)—After next June 10, all officers in Seattle engaged in the enforcement of prohibition, whether federal, state or municipal, will be restrained from entering any private dwelling place or other place of legal residence to search for liquor without a search warrant for the specific case.

State and municipal officers will be so restrained by an act of the last legislature which will become effective.

Try Musterole. See How Quickly It Relieves You just rub Musterole in briskly, and usually the pain is gone—a delicious, soothing comfort comes to take its place. Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not blister.

Many doctors and nurses use Muster-ole and recommend it to their patients. They will gladly tell you what relief It gives from sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lum-bago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet, colds of the chest. It's Easy-If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to fee oung-to do this you must watch your liver and bowels—there's no need of having a sallow complexion—dark rings under your eyes—pimples—a bilious look in your face—dull-eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver. Dr. Edwards, a well-known physician in Ohio, perfected a vegetable com-pound mixed will olive oil to act on

the liver and bowels, which he gave to his patients for years. Dr. Edwards' Olive Tablets, the sub-

stitute for calomel, are gentle in their action yet always effective. They bring about that natural buoyancy with all about that natural buoyancy w should enjoy by toning up the liver and clearing the system of impurities. Dr. Edwards Olive Tablets are known

by their olive color. 15c and 30c.
