

### HARDING PAYS HONOR TO MADAME CURIE

#### Gram of Radium Presented to French Scientist.

#### PHIAL WORTH \$100,000

#### American Women Purchase Element as Courtesy to Distinguished French Visitor.

WASHINGTON, D. C., May 20.—Madame Curie, eminent French scientist, received from the hand of President Harding today the gram of radium purchased for her by American women in the interest of humanitarian research.

At the presentation ceremonies in the east room of the White House, at 4 o'clock this afternoon standard eastern time, a notable group of American and diplomatic officials and leaders of science and philanthropy were present. Jules Jusserand, French ambassador, formally introduced Madame Curie, and she responded to the president's presentation address with a little speech of thanks delivered in broken English.

In handing over the little phial with its precious contents, Mr. Harding declared it represented in small part the gratitude of this nation for the discovery of radium.

**Ambassador Thanks America.**

Giving thanks for the gift in the name of his government, ambassador Jusserand said the occasion was one of many manifestations of the generosity of a people who always are watching for an opportunity to do good.

Mme. Curie's speech of thanks consisted of only a few sentences telling of her gratitude and her regard for America.

The radium, purchased at a cost of \$100,000, was locked in a little ribbon draped cabinet. After the ceremony the guests were tendered a reception in the blue room by the president, Mrs. Harding and Mme. Curie.

**Harding Pays Tribute.**

President Harding paid tribute to the personal attainments of the distinguished visitor, to the spirit of womanhood typified by her, and to the national traditions which he behind her native Poland and her adopted country, the French republic.

"We greet you as foremost among scientists in the age of science, as leader among women in the generation which sees woman come tardily into her own," said the president.

"We greet you as an exemplar of liberty's victories in the generation wherein liberty has won her crown of glory. In doing honor to you, we testify anew our pride in the ancient friendships which have bound us to both the country of your adoption and that of your nativity."

"It has been my fortune, Mme. Curie, to accomplish an immortal work for humanity. We bring to you the medal of honor which is due to pre-eminence in science, scholarship, research and humanitarianism."

**Unselfish Love Offered.**

"But with it all we bring something more. We lay at your feet the testimony of that love which all the generations of men have been wont to bestow upon the noble woman, the unselfish wife, the devoted mother."

"A number of years ago in the quiet of one of your earlier works on radioactive substances noted the observation that there was much divergence of opinion as to whether the energy of radio-active substances is created within those substances themselves or is gathered from them from outside sources and then directed. The question suggested an answer which is doubtless hopelessly unscientific."

**Analogy Is Drawn.**

"I have liked to believe in analogy between the spiritual and physical world. I have been very sure that that which I have called the radio-active soul or spirit, or intellect—all it what you choose—must first gather to itself, from its surroundings, the power that it afterwards radiates in beneficence to those near it. I believe it is the sum of many inspirations, borne in on great souls, which enable them to warm, to illuminate, to radiate, to illumine and serve those about them."

### LEGION CHARTER REVOKED

**Flogging of Editor Followed by Expulsion of Entire Post.**

SANTA BARBARA, Cal., May 20.—The charter of Howard Shaw Russell post No. 62, American Legion, at Carpinteria, 15 miles east of here, in whose hall Arthur M. Clark, editor of the Carpinteria Herald and over-seas veteran, was flogged with a rawhide quilt by fire legion members, last Monday night, was revoked today by Burno R. Pitts, department commander of the American Legion.

"I feel safe in saying," he said, "that none of the five members of the Carpinteria post who took part in this display of lawless violence ever again will be admitted to membership in the legion. I can say the same thing of Mr. Clark. The men by their actions and Mr. Clark by his editorials, showed they were not in sympathy with the ideals of the legion."

### CLAM DIGGERS LOSE OUT

**Right to Extend Season Denied by Washington Director.**

SOUTH BEND, Wash., May 20.—(Special)—A. E. Seaborg, director of fisheries for the state, while here Thursday blasted the clam diggers who had hoped to get a 25-day extension of time in which to dig clams. The season by law closes May 30. He declared that he has absolutely no authority to extend the time.

He was on his way to Ilwaco to confirm the report that the Oregon trawlers were fishing under a temporary injunction granted by an Astoria judge enjoining the enforcement of the Oregon regulation forbidding trawling at this time. He said that if it were true the Washington fishermen should not be discriminated against.

### CLERKS ARE ACCUSED

and then proposing legislation, necessary only on the assumption that his opinion had correctly interpreted the law.

**Home Brew Declared Bad.**

"If Palmer was wrong," he said, turning to republican members, "why don't you go to your own attorney-

### MINING BATTLE AREA UNDER MARTIAL LAW

#### West Virginia Governor Issues Proclamation.

#### STRIKE EXCEEDS YEAR

#### 'Lockout-Strike' in Progress in Properties of Mingo County Is of Long Duration.

CHARLESTON, W. Va., May 20.—Governor Morgan today issued a proclamation declaring martial law in Mingo county, the scene of industrial strife for more than a year.

What has been termed a "lockout strike," has been in progress in the coal mines of the Mingo field for almost a year and, according to the governor's proclamation, a "state of war, insurrection and riot is and has been for some time in existence."

Soon after the governor's proclamation appeared, Charles F. Keeney, president of district 17, United Mine Workers of America, in a signed statement called upon all non-union miners in the Mingo field to strike and promised their union benefits while they were idle.

**Enforcement Is Opposed.**

"Prohibition ought not to be forced on people who don't want it," he said. Wayne B. Wheeler, general counsel for the Anti-Saloon league, declared beer as a medicine was friendless and said hundreds of thousands of gallons of liquor had been withdrawn from distilleries on forged permits and circumstances, showing that persons in the offices of the district prohibition directors' offices had been in collusion.

**Prescription Limit May Go.**

New regulations have been prepared which will enable physicians prescribing whisky for medical purposes to write as many prescriptions as they consider necessary, prohibition officials said tonight. Under existing regulations, physicians are limited to 100 whisky prescriptions over a period of 90 days.

The new regulations officials said, were ready for consideration by the new commissioner of internal revenue. The nomination of David S. Blair of Winston-Salem, N. C., as commissioner, is awaiting confirmation by the senate.

Removal of the limit from the number of prescriptions for whisky, it was explained, was made necessary by Palmer's opinion that the only limitation on the use of whisky for medical purpose was that not more than one pint could be prescribed for any one person within ten days.

### RUMOR STARTS BANK RUN

#### Savings Accounts at Tacoma Are Quickly Withdrawn.

TACOMA, Wash., May 20.—Following a run on the local branch of the Bank of California, Chief of Police Smith announced today that special squads of police, armed with shotguns, will patrol the residence districts at night. He also said that anyone seen on the streets after midnight would be regarded with suspicion.

"The run, in my opinion, was started by rumors circulated by persons who know that burglarized can be made more profitable if the people here are frightened into withdrawing their savings from the banks," the chief said.

The run on the bank began yesterday afternoon, following mysterious telephone calls. A thousand dollars has been offered for the arrest of the person or persons who started the rumors.

Today the flurry was subsiding, but a large number of depositors, mostly foreign-born, crowded the bank. The usual 30-day notice on savings accounts was waived by the bank and "all nervous people" were publicly invited to withdraw their accounts.

Clarence Shere, manager of the Seattle branch of the 12th district federal reserve bank, issued a statement today that the Bank of California is absolutely reliable and that those responsible for malicious statements to the contrary should be jailed.

**Bids Asked for Road Bonds.**

HOQUIAM, Wash., May 20.—(Special)—Grays Harbor port commission is asking for bids on an issue of \$200,000 worth of authorized \$500 issue of bonds, to be opened June 1. It will be the first sale of the issue. Bonds will run 20 years and bear interest at the rate of 6 per cent, payable annually.

S. M. Moore, assistant superintendent of operation in the air mail service for this district, and Paul L. Dumas, local field manager, were the day's chief witnesses.

At the inquiry into the La Crosse accident, according to the transcript of his testimony, presented to the board today, Alexander absolved inspectors at the local field from all guilt in connection with the death of the flyers, pronouncing the plane in satisfactory condition when it left the field. His testimony given to the board a few days ago, however, the witnesses pointed out, supported the

contention of C. C. Eversole, discharged pilot, to the effect that the plane was defective.

The board of inquiry into the La Crosse accident was called by the postmaster-general, and consisted of Major McChord, in charge of the army air mail service at Fort Sheridan; Randolph Page, chief test pilot, and John Jordan, superintendent of construction for the air mail service at Washington.

The introduction of these transcripts was one of the "trump cards" in the hands of those defending the conduct of the air mail service against the charges of inefficiency and graft, which brought about the present inquiry.

### FEDERAL PROBERS SCORE

#### TRUMP CARD PLAYED IN AIR MAIL INVESTIGATION.

#### Local Mechanic Who Testified Regarding Fatal Mishap Held to Contradict Himself.

CHICAGO, May 20.—Evidence intended to show that testimony of James B. Alexander, local air mail field mechanic, before a special board investigating the government air mail service, contradicted testimony he had given at previous investigations of accidents in the service, was presented to the board today.

A transcript of Alexander's testimony at an inquiry into the death of three pilots in a fall at La Crosse, Wis., was presented, and his recent testimony before the board was cited as being contradictory.

St. M. Moore, assistant superintendent of operation in the air mail service for this district, and Paul L. Dumas, local field manager, were the day's chief witnesses.

### CASCADE LOCKS PLANT IS SHUT

#### HOOD RIVER, Or., May 20.—(Special)—The Wind River Lumber company's plant at Cascade Locks, now owned by the Bridal Veil Lumbering company, shut down yesterday for an indefinite period. The camps had not resumed work this season. The company employed about 400 men. The Bridal Veil company, it was said, will continue to operate. The inactivity of the Cascade Locks mill will be chiefly offset by the opening on Monday of the Dece mill and West Fork logging camps of the Oregon Lumber company.

### HOQUIAM, Wash., May 20.—(Special)—Grays Harbor port commission is asking for bids on an issue of \$200,000 worth of authorized \$500 issue of bonds, to be opened June 1. It will be the first sale of the issue. Bonds will run 20 years and bear interest at the rate of 6 per cent, payable annually.
