A FREAK MARRIAGE BILL.

Among the measures on the special election ballot is one designed prevent the propagation of mentally or physically defective chilsubmit to a physical and mental examination and by providing that. if they fail to pass, they shall not permitted to marry unless one or both shall be rendered sterile.

Whatever may be said of the principle seemingly declared by this in its provisions it is absurd and nd to be ineffectual.

Marriageable mentality is not defined in the act. The test is left to perous argosy. the individual idea of the examining physician. The examining physician must be "competent to examine such applicants," his educational qualifications must be stated in his certificate, and the county clerk must not issue the license unless the examination has been made by a competent physician.

In short the mentality of the applicant is left to the judgment of the it should be explained for the benefit sion of the county clerk.

Presumably if one physician decompetent to marry, the high grade moron will be able to find another physician who will not be so particular. There are all grades of physicians. He or she may then cure a license unless the county clerk, in his superior wisdom, draws the line against physicians who think that high grade morons may safely marry.

Not only is there no test prescribed by the measure, but there is no penalty imposed upon the physician who passes a mentally deficient person. There is not, and probably there could not effectively be, any it may. If, therefore, the legislature provision in the law prohibiting perons denied licenses in this state from going to another state to wed. Moreover, it is sad but true that the feeble minded are generally unmoral sexually. Feeble-minded chilworld, the bill is insufficient, but it imposes upon every normal, healthy man and every normal, healthy woman about to wed--it imposes upon the great mass of the marrying public the indelicacy, the inconvenience and the expense of a physi-

Oregon now has an unfavorable place in divorce statistics. It is an undeserved ignomony caused by an existing so-called eugenics which drives couples about to wed to another state in large numbers. Oregon's number of divorces is consequently greatly out of proportion tracted within the state. This situation is not due to the laxity of divorce laws but to the imposition of the present pre-marriage examina-

cal and mental examination.

Now it is proposed that the physical examination be required of women also, and that both men and women submit to a mental test of of this measure, if adopted, will be to drive still greater numbers to other states to wed, put a still worse light on the normal number of divorces granted and yet have virtually no effect as a prevention of marriages among those who ought not

Eugenic marriage laws can be effective only if nation-wide in scope, plainly definitive of feeblemindedness and physical ineligibility.

HAITIAN PATRIOTS PROTEST.

A delegation from Haiti is circulating in the United States "Memoir on the political, economic and financial conditions existing in the republic of Haiti under the American occupation." If its statements were true, the American diplomatic and naval officers would have outdone the Germans in arbitrary overthrow of an independent government and the American marines would have equalled the barbarities of the German troops. But the charges against the marines have been investigated and disproved, and on the contrary it has been proved that marines have been captured and subjected to barbarous cruelty, including cannibalism, by Haitian bandits. In the interior of the island they have to deal with a relapse to African savagery, and elsewhere they have pacified com-

for a century.

Haitian politicians call for the right of self-determination, which, judging from the past history of the country, seems to mean the right war. The Haitlans are supposed to have had this right for ever a cen- Amazon, the hill woman, make a mockery of the republican illusioned, middle-aged business But it was proposed to establish form of government by continuing chronic civil war. of national interest. Wherever there is discussion of the next great exposition, an exposition in celebration vision? Perhaps the publisher, incapable of escaping the prosaic, and of our national highways, the peered keenly about for Chaplin films and red suspenders and mailorder finery. Doubtless the poetic of 1925 is to be held in Portland. Celt saw none of these, or only of both a navy yard and a naval dimly, and so was taken to the very heart of the South Seas to rest

> AN ANTHOLOGY OF DOG POEMS. Anthologies are apt to become monotonous because there are too many of them. Even in literature we like variety and though an occasional compilation of kindred poems, essays or stories, is not amiss, these gems when assembled do not gleam brightly as when chance so brightly as when chance met. But now and again there is found a joyous exception-such, for instance, as Robert Frothingham's admirable anthology, "Songs of Dogs." It cannot be gainsaid that lovers of dogs never tire of the subject. The stories that others tell of canine sagacity and affection but match their own and confirm the faith that between man and the dog there is a fellowship of the finest. And when one considers that such a relationship is old as the race and that dogs and folks have shared the joy and sorrow of ten thousand years together-a mere hazard at the actual compact - this sense of comrade-

The reader will remark that Mr. to add an emergency clause to any Frothingham's anthology of dog songs is frequently constrained to sign some of the verses "Anonymous." In such instances, there can be no doubt, the gift of versified expression descended upon the writer physician, and the competency of the appli-the physician to judge of the appli-in legislative procedure, is the device gard for dogs. He sang a single song because he sang truly, from the heart ity is the authorship of a poem that sings the yellow dog-that sym-For your true lover of dogs knows that the hue of the hair and the length of the pedigree have nothing at all to do with the spirit and wisdom of his pet.

took a prize. All manners of songs of dogs there calls to the rover in all of us-and in our dog friends as well-is the lilting camaraderie of Dana Burnet's from \$800 to \$850 per year, or to read, as everyone should know, he vagabond in every dog, as there is in every man, and none will have the

"Business in the central part registered with his wife at the Mult-nomah. "Of course, everyone is more or less hopeful, and there seems lit-tle question that business is reviving, although slowly. The east will notice better business first and the wave will sweep to the Pacific coast, for this coast is slower to receive im-pressions than the east. On the other hand, the Pacific coast does not have the depth of commercial slumps that the Atlantic and mid-west portions of the country do."

commissioner, who is here to meet the highway commission.

Everyone in the eastern part of the state knows J. R. Blackaby, who is registered at the Imperial. Years ago he was a school teacher in Jordan Valley. He built up the Blackaby Trading company and then had the bank at Jordan Valley. Later he branched out and now he also has the bank at Ontario and is interested in stock, irrigation and other rein stock, irrigation and other resident and Christian.

has occupied the presidential chair canir counting the following playing of a hand in cribage:

"The gentleman from Malheur," as Can You Answer These Questions! What is meant by a cold-blooded

Answers to Previous Questions. 1. Does sap come from the top of a tree, or the roots? Sap is made in the leaves, in the summer, and stored in the roots dur-ing winter. Sap is the life-blood of trees. It must be renewed by food just as blood must. Leaves do the digesting of plant food by a process that depends directly on the sun. Inautumn, this food, called elaborated sap, passes down through the bark to the roots. In spring it rises, forms

> 3. Kindly send some reasons why sparrows should not be killed.
>
> If English sparrows are meant there is no really good argument why they should not be killed. They are an introduced bird that has thrived here at the expense of more desirable native birds. Anything that can be native birds. Anything that can be said in the sparrow's defense is given in the United States Farmers' Bulle-tin No. 493. They do occasionally fight the army worm and a few other nsect pests, but do more harm than
