Not one cent was asked for by City Commissioner Bigelow for new pital visit.

Commerce Body To Aid Band.

Commerce Body to Aid Band.—
Chamber invitation to attend the international congress of chambers of commerce at Mexico City. June 20-26, was received yesterday by the Chamber of Commerce from Fernando Leal Novido, president of the confederation of chambers of commerce of Mexico, host to the international meet, at which many countries will be represented. Delegations from the western part of the United States will leave El Paso for the trip to Mexico City by special train over the Mexican railways on June 15. Mr. Novido was the head of the Mexican delegation that visited Portland in February. A tour of principal points of interest in Mexico is a feature of the convention.

Tax of \$10 to Be Opposed.—Chamber of Commerce members sent a geommittee to Oregon City last night.

Gonnerce Body to Aid Band.—Mayor Baker appeared before directors of the Chamber of Commerce yesterday, at the regular weekly meeting, and asked that financial support be given to the Multinomah band, which was said to have rendered valuable assistance in patriotic works during the war, in order to clear up debts standing against the organization. The directors concurred in the mayor's suggestion and a committee will be named to help liquidate outstanding liabilities.

Gaither, son-in-law of ex-Senator Chamber all the Third States national bank, resigning to become national bank examiner, has resigned to become vice-president of the American national bank of San Francisco. Mr. Gaither worked as national bank ex-

FIGHT DEVELOPING ON FIRE BOND PLAN

Taxpayers Resent Increase in Cost That Will Follow.

VOTE NO. IS ADVICE

Fund for Needed Apparatus Should Have Been Included in Budget, Several Declare.

Firm opposition to the city issuing bonds for the purchase of fire equipment, as is proposed in the \$200,000

fire equipment, when the annual mu-nicipal budget of expenditures was prepared last fall. At that time, Commissioner Bigelow explained that there was not sufficient money avail-able for both the conduct of the vari-ous city departments and the pur-

able for both the conduct of the various city departments and the purchase of new fire equipment.

He informed the members of the city council who were considering the budget that he believed that the voters would approve a bond issue, as they had done for the erection of new fire houses, and therefore there was no need of including any re-quests for money derived from gen-

eral taxation. City officials who are familiar with the formulating of municipal bud-gets explain that had Mr. Bigelow appeared with a request for an ap-propriation for new fire equipment, he would have received such money as the council deemed necessary, even if such a grant would have re-quired the council to eliminate other necessary city service.

Bond Plan Opposed. Heads of other departments who made requests received at least some part of the money sought, but the fire bureau received none simply because there was no request made for

J. N. Teal, who in addition to being a heavy taxpayer, has long been identified with the Taxpayers' league, is strongly opposed to the plan of issuing bonds to purchase new fire

"I'm strongly opposed to the bond issue for new fire equipment for several reasons," said Mr. Teal yes-terday. "In my opinion bonds should not be issued for such purposes. Fire equipment should be paid for out of money raised by taxation.

money raised by taxation.
"Since the city charter has been amended so as to provide for an 11-mill levy instead of eight mills, the ity council should keep within this

portant and necessary as to require a Future bond issue, then there should be no difficulty for the council to effect savings in other directions and to put off other expenditures to pay

"The addition of equipment will also require employment of more men and reate more expense, and I don't think

create more expense, and I don't think it is necessary.

"In a word, it is time to call a halt on the issuance of bonds and increasing taxes, and I hope the public at the election next Tuesday will express itself so forcefully on this proposal that it cannot be misunderstood."

L. J. Goldsmith, who is slated as one of the members of the tax conservation and supervision commis-

servation and supervision commis sion to review all proposed expendi-tures by governmental bodies in Multnomah county, is also opposed to the plan of issuing bonds for the pur hase of fire equipment

"I am strongly opposed to it." said Mr. Goldsmith. "The fire bureau should be maintained through the regular tax levy, and it is a mighty poor policy to begin issuing bonds for the purchase of new equipment."

Tweeds and Homespuns

A man's wardrobe is complete only when it includes the right thing for each occasion.

There are times outside business hours when you don't want to look dressed up, but want to look properly dressed—the informal occa-sions out of doors doing the pleasant things that summer brings. That's the time for tweeds and homespuns—clothing materials made popular for all time by the Englishman, who always wears the right thing at the right time.

Our styles for these cloths will please you, and the suits made from them will give you summer com-

Are Shoes Responsible for Marital Unhappiness?

Some wise men and women say that often they are. The nagging effect of a tight, uncomfortable shoe is reflected in the disposition of the peron who suffers from it.

It is so hard to be pleasant and agreeable when the feet are confined to the prison of ill-shaped shoes. The medical director of the Life Extension Institute, Dr. Eugene L. Fisk, was quoted recently in the New

Fork papers as follows: "Pointed toes, metal arches and ex-treme heels result in bad posture, weakened abdominal muscles, fatigue and impaired circulation." Who could love a wife with all

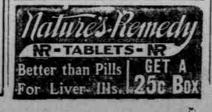

So, sensible shoes are being worn by sensible women, for all outdoor activities and for everything except formal social occasions, when some concession must be made.

Shoes is conforming to the recom-mendations of experts without sac-rifice of good appearance. For Cantillever Shoes are modeled upon the natural and beautiful lines of the foot. They have the right heels to give good posture, the flexible arch which stimulates circulation and gives ease and freedom to the foot. Cantilever Shoes make walking

easier, standing less tiresome. Your feet are so comfortable, your health is so much better, it's no wonder you nave a happy disposition and a happy
