

DAVES TO ENLIST BUDGET EXPERTS

Staff Provided by Congress Declared Inadequate.

BUSINESS MEN TO HELP

Patriotic Service Deemed Necessary to Place Nation's Finances on Basis of Economy.

WASHINGTON, D. C., June 23.—Charles G. Dawes of Chicago, chosen by President Harding to head the new government budget system, announced today after a conference with the president, that he would call on a number of experienced business men to serve in the budget bureau without pay, because he considered the staff provided by Congress wholly inadequate.

Mr. Dawes declared in a statement that if the budget system was to be a success reliance must be placed on "something else than the pitiful machinery provided by law."

"One might as well be handed a toothpick," added the statement, "with which to tunnel the 'Peak.'" Experts to Be Drafted.

General Dawes declared he would ask that Brigadier-General George Van Moseley, former assistant chief of staff in General Pershing's headquarters in France, and Colonel H. E. Smith, former assistant chief of staff in the service of supply, be assigned to the bureau.

Mr. Dawes in his statement said: "We all know the desperate condition of the business of the country at present—industrial, agricultural and commercial—and that it is still being kept under a tremendous burden of taxation from which it must be relieved if it is to revive properly."

Colossal Task Faced. For the budget work, which he termed with the name of "Peak," said congress had appropriated \$250,000, but that it was provided that the director, assistants in each department, should be appointed from the cabinet head and that the director was allowed to select four employees at not more than \$4000 each.

Patriotic service similar to that offered by government officials and citizens during the world war, was necessary to make the budget work and its economical purposes a success.

Business Men to Aid. "On or before August 1 I shall ask the president to invite a number of leading American business men to come to Washington to serve without compensation in an advisory capacity to the budget bureau," he said.

"As soon as possible, pending the organization of my office and before August 1, I will call together en masse all the bureau chiefs of the departments, and explain to them in Washington and explain my purposes for the accomplishment of this work by December 1."

"No penalty can be too severe or too inexorably pressed," he added, "should opposition develop among bureau chiefs or others."

Mr. Dawes expressed his "expectation" to retire from the directorship in December after the first budget had been presented to congress.

HEARST IS ATTACKED

(Continued from First Page.) employees in all departments on all railroads was urged by the convention.

A motion that the adjournment date of the convention be fixed for Saturday, June 25, was overwhelmingly defeated.

President Gompers ruled today that the election of officers could not be held, under the laws of the federation, until the last day. The action of the convention last year in holding the election the day before the day of adjournment was unconstitutional, he said.

The convention overwhelmingly defeated a resolution giving the executive council power to "arrange and decide economic programmes and policies" for the organized workers of North America.

Strike Insurance Beaten.

The resolution was introduced at the behest of John F. Leheney of Casper, Wyo., who urged that such action was necessary to insure concerted effort of organized labor against the "open shop."

Establishment of a strike insurance department proposed in a resolution was defeated. On motion of Matthew Wolf of Chicago the delegates authorized an investigation into the employers' insurance for the federation's information.

The federation pledged itself to try "all in its power to obtain a retrial or pardon" for Thomas Moore and Warren K. Billings, convicted in connection with the San Francisco preparedness boom explosion and now serving prison sentences.

Ohio Workmen's Law Liked.

The Ohio state workmen's compensation law was endorsed and all state federations were urged to take steps to secure similar legislation in their states.

A resolution directing an inquiry into the use of savings and funds held by banks and insurance companies was adopted, with instructions to the executive council to take action for protection of the rights of the workers.

The convention voted to ask congress for a tariff on importations of Mexican oil, charging that large importations from Mexico have flooded the American market, cheapened the American product and prevented a decent living wage for workers in the oil industries.

Open-Shop Probe Planned. Investigation of the "open-shop" movement in Springfield, Ill., was authorized.

The state also contained 35,762 negroes, 17,260 Indians, 25,312 Chinese and 5292 other races in that year, in addition to its 3,284,711 whites.

San Francisco Leads. Census statistics gave San Francisco a 1920 foreign-born white population of 149,009, including 35,524 Italians, 18,513 Germans, 18,237 Irish, 10,107 English, 6908 French and 7083 Canadians.

In Oakland were 5094 Italians, 4561 Germans, 4523 English, 4381 Portuguese, 3735 Canadians and 3656 Irish. In Los Angeles there were 23,508 Mexicans, 10,185 Canadians, 11,478 English, 10,563 Germans, 9691 Russians, and 7920 Italians.

Denver Has Large Quota. In Denver, Colo., there were 5322 Russians, while other peoples were: Germans, 4664; Swedish, 3953; English, 3586; Irish, 3221; Italians, 2871; Canadians, 2192; Mexicans, 1390, and Austrians, 1296.

In Des Moines, Ia., the figures were: Swedish, 1853; Russians, 359; English, 1265; Italians, 1177, and Germans, 1104.

In Utah the ratio of males to females went from 111.5 to 100 in 1910 to 106.5 to 100 in 1920, while the negro population increased by 25.4 per cent during the decade, as against 20.5 per cent for the whites.

ALIEN POPULATION DECREASES.

The foreign-born white population went down to 12.9 per cent of the total, as against 17 per cent in 1910. There were 2711 Indians, 242 Chinese and 2356 Japanese in the state in 1920.

In New Mexico the foreign-born white population was 8.1 per cent of the total, as against 6.9 per cent in 1910, while the ratio of males to females was 112.1 to 100 in 1920, compared with 115.3 to 100 in 1910. Nevada's ratio of males to females last year was 145.4 to 100, while a decade before had reached the high mark of 179.3 to 100.

Nevada Shows Subsidence. The state's foreign-born white population constituted 19.1 per cent of the total, which was 2.9 per cent below the percentage given for 1910.

In addition to the white population, the statistics showed Nevada to have 490 Indians, 346 negroes, 529 Chinese and 754 Japanese, and 12 members of other races. During the ten years between the census records the state's white population decreased 4.8 per cent and the negro population 22.6 per cent.

The secretary would be authorized, with the approval of the president, "from time to time to refund or convert and to extend the time of payment of the principal or the interest, or both, of any obligation of the foreign government hereafter received by the United States (including obligations held by the United States 'Grain Corporation') arising out of the European war, into bonds or other obligations of such or of any other foreign government, and to receive bonds and obligations of any foreign government in substitution for those now or hereafter held by the United States, in such form and of such terms, conditions, date or dates of maturity, or rates of interest and with such security, if any, as shall be deemed for the best interest of the United States."

Authority Held Lacking. "I am advised," continued Mr. Mellon, "that, except as to the advances made out of the proceeds of liberty loan bonds, this department is without authority to consent to extension of the time for payment of the principal or of the interest of these obligations or to proceed with the refunding. As to the advances made out of the proceeds of liberty loan bonds, the existing authority contains such diverse provisions as to interest rates, the maturity and other terms of the refunding bonds that may be accepted by the department as makes it difficult to formulate a plan whereby the interests of this government may be as well protected and the bonds to be received by in as desirable form as would be the case if the entire debt of such a country could be dealt with as a whole and free from such restrictions."

Other Debts Considered. "In some cases the debtor nations owe large amounts to other countries well as to the United States, and it may be advisable, and in some cases necessary to consider comprehensively the entire debt of such countries, its financial condition and

TACOMA, Wash., June 23.—Suit was filed in federal court here late yesterday by the estate of the late James A. Murray, Montana millionaire, to James E. The Eastern's Remodeling Sale

"Every Article Reduced" "Every Thing That Men and Women Wear"

Right at the start we want our regular customers and the buying public in general to thoroughly understand these two important facts.

First—We positively guarantee there is not a single article in this great \$100,000 stock of merchandise that was purchased for "sales" purposes. The Eastern does not handle inferior merchandise or "seconds" or "job lots" generally bought for such purposes. The Eastern is not a 'sales' store.

Second—We did not prepare for this sale. It was forced upon us. It is absolutely necessary for us to remodel the store at this time. This means the floor will be in more or less disorder. People will not trade where carpenters are working, unless the merchandise makes it MORE THAN WORTH THEIR WHILE.

Furthermore, it costs considerable money to pack goods, store them and then repress them and get them back on the shelves. In addition, to withdraw them from sale now would spell extremely heavy losses because WE HAVE NOTHING EXCEPT NEW, SEASONABLE STOCK.

Therefore—We will tomorrow place on sale, at staggering reductions, EVERY ARTICLE IN OUR STORE. This means that men and women of Portland have at their disposal hundreds upon hundreds of various articles of wearing apparel at undreamed-of prices. Nothing is withheld. Every article is on sale.
