MEETING IN LONDON

Sir James Craig Also Turns Down Dublin Conference.

FOUR UNIONISTS ACCEPT

Refusal of Ulster Premier Expected to Detract From Weight of Gathering.

DUBLIN, June 29 .- (By the Assoclated Press)-The proposal of Premier Lloyd George for a conference in London on the Irish question between representatives of southern and northern Ireland and the British government is impossible of accept-ance in its present form.

This declaration was made by Eamonn de Valera, the Irish repub-lican leader, to Sir James Craig, the Ulster premier, in reply to Sir James' notification that he cannot meet Mr De Valera in a preliminary conference

Mr. De Valera's letter was quoted by the Irish bulletin, organ of the Dail Eireann as follows: "I greatly regret that you cannot

come to a conference in Dublin Mon-day.
"Mr. Lloyd George's proposal, because of its implications, is impos-gible of acceptance in its present form. Our political differences ought to be adjusted and can, I believe, be adjusted on Irish soil. But it is obvious that in the negotiation of peace with Great Britain, the Irish delega-tion ought not to be divided, but should act as a unit on some common

All four southern unionists, Earl Middleton, Sir Maurice Dockrell, Sir Robert H. Woods and Andrew Jame-son, have accepted Mr. De Valera's invitation for a conference at Dublin Monday, which will presumably form a presude to a further reply by De Walera to the British prime minister. The refusal of Sir James Craig to attend, however, it is contended, will detract from the importance of the conference and many unionists here regard the invitation to the Ulster premier as "mistaken tactics" on the part of the republican leaders.

Sir Henry Woods Accepts.

Sir Henry Woods has accepted De Valera's invitation.

The answer of Sir James Craig added that he would publish telegrams in order to obviate a misunderstanding in the press between a namesake in the southern Irish parliament and himself. The theory advanced here was that De Valera's invitation to a conference was really sent to Professor Sir James Craig of Dublin, but that De Valera's attention being drawn to the confusion in names, he decided to fly at higher game.

Oklahoma Representative Suggesti Short Speeches in Congress as Stroke for Economy.

THE OREGONIAN NEWS BUREAU Washington, D. C., June 29.—Miss Ailce Robertson, "the lady from Oklahoma," has attracted much attention in the house by her ability to con-dense eloquence and good common sense into a few words. Incidentally, in a speech pleading for the monthly payment of pensions to soldiers of the wars prior to the fight with Germany, she put a new slant on the thought of economy. Her suggestion was that congress

is costing the country more than necessary by the tendency to talk too much. Her speech was in reply to Representative Blanton of Texas wh was bitterly opposing the monthly pension payments.
