BUSINESS OFFORTUNITIES.

A SAND AND GRAVEL PROPOSITION.

In 1909 I bought a little over three agrees of land at Weblits station on the P. R., L. & P. Co.'s electric line to Estacada I bought it on account of its high and sightly view. But when I took my wife and stepdaught it on account of its high and sightly view. But when I took my wife and stepdaughter out to see it they begged me to buy in St. Johns, which I did to please them. It now seems to be more valuable for the sand and gravel that is in it than a house on top of the hill. It fronts 200 feet on the right of way of the ratiroad and runs north over 700 feet. There is a nice place for a residence and a factors. A few years ago the railway company company complished to put in a switch from Bell station to near Wichita station. I gave them the privilege of building across one cerner of my land. The railway company put in a sand and gravel piant and gave old man Shuitz 10 cents a yard royalty for all the sand and gravel piant and gave old man Shuitz 10 cents a yard royalty for all the sand and gravel they got from him. He made a fortune, went up the valley and bought if fine farm. The county judge of Clack, amas county told me last year that the county was paying the Shuitz boys 45 cents a cubic yard for all the sand and gravel the county got of them. These are facts. I am not asking you to believe anything. All I ask of you is to come and let me take you out and show you. Seeing is knowing, and knowing will cause you to think about the great possibilities that blind nature has bleased me with I was 7 till I was 59. I am now 74 years old.
