ing is quite above the average.
WHY IS IT?

WHY IS IT?

It is because our business policy radiates friendliness, kindness, service and in each ransaction a mutual benefit.

It is because our merchandising methods call for the rebuilding and refinishing of each used car we own and hold for sale. They must be better than the average and as good as possible. They must be as low in price, if not lower than others quoted on the market.

Our new car sales depend on our used car volume and we look to the new cars for our profit. our profit.
