rival and had no influence on the market.

Bight million pounds of butter were received in July last year. The price is too cleved in July last year. The price is too clover, \$15 per ton; cheat, new, \$14 ton; clover, \$11 per ton; valley timothy, new, \$10\partial 20; eastern Oregon timothy, \$20. butter at present. Centralised was dull early in the week but made a sharp recovery later on account of the firm price on covery later on account of the firm price on futures at Chicago, which were up to 45c pound; prints, parchment wrapped, box on December delivery standards. Production is probably about 3 to 5 per cent under prices: A grade, 36c; B grade 34c, Portland

last year, but there were rains in the butter sections during the past week.

There was no change in the butter prices at San Francisco until the latter part of the week, when 32 score registered an adthe week, when 93 score registered an advance of 4c. Trading until Thursday was only ordinary with no special feature to the tone, although leaders kept floors fairly well cleaned up of all grades. Late in the week increased demand from the south caused some scarcity of the top grades of California butter. This, together with advances in the cast invaried FRUITS — Valencia oranges, \$60.25 per box; lemons, \$11.911.50; grapefruit, \$3.50.010 box; bananas, 10\frac{1}{2}011.50; grapefruit, \$3.50.010 box; bananas, 10\frac{1

Selling by Farmers Slow Since Market Dropped Below Dollar,

Wheat trading in the country has failen off sharply since the price fell below the dollar mark. The advance in ocean freights, which amounts to about 6 cents a bushel, naturally comes out of the farmer's price. Present quotations in the country range from 80 to 85 cents and the farmers are not ready sollers at these figures. It appears as if most of the growers who had to let go have already done so and it looks like a quiet market for some time at least. There were no changes in the wheat or coarse grain bids posted at the Merchants Exchange.

Weather conditions in the middle west,

weather conditions in the middle west, Ohio DRIED FRUITS—Dates, \$4,25@6.85 per DRIED F as wired from Chicago: "Illinois, Ohio, . and Indiana, clear and cool temperatures to 65, all points report rain. Manufacturers Trying to Meet Belated Demand.

The habit of pre-financing of fruit box cals by box manufacturers of the Pacific

The habit of pre-financing of fruit box deals by box manufacturers of the Pacific northwest to growers and dealers will, it seems, this season mean a shortage of apple boxes, says a statement issued by the West Coast Lumbermen's association. For months past manufacturers have urged the advance buying of apple boxes in order more evenly to distribute the manufacture and delivery during the clossing ments of the season, when picking and harvesting of apples in the northwest is at its peak.

Owing to the unusual financial situation this year, most manufacturers were unable to extend credit as has been the rule in former years. Growers and dealers were to a great extent in the same condition, which resulted in horoased efforts to hold manufacturers to their former practice of extending credit: Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Most manufacturers to their former practice of extending credit. Water Mains in Controversy. NORTH BEND, Or., Aug. 2 .- (Spe-NORTH BEND, Or., Aug. 2.—(Special.)—The city is laying a system of concrete work in the center of the city and has requested the Coos Bay C Water company to place six-inch facast-iron water mains in Union avenue. The water company held that a nucleon main would answer the two-inch main would answer the needs of the locality and said the patronage did not warrant a larger main. The city threatened to appeal to the state public service commission, and the company said the matter would be considered further. In the company said the matter would be considered further. In the company said the matter would be considered further. would be considered further. In the meantime the protest to the state body is held in abeyance.

ADVANCES AT CHICAGO ARE NOT WELL MAINTAINED.

Early Rise Due to Prospects of Diminishing Receipts-Slow Exports Handicap Bulls.

CHICAGO, Aug. 2.— Prospects of diminishing receipts had a bullish influence today on the wheat market. Advances in prices, however, were not well maintained, and the close was unsettled at the same as yesterday's finish to % cent higher, with September \$1.25 to \$1.25% and December \$1.25% cents decline to % and % cent higher, and provisions varying from 2½ cents decline to 7½ cents advance.

Scantiness of rural offerings, together with a failing off in receipts here and at other primary centers, gave strength to wheat prices. Besides, car shortage complaints were a handleap to the bears and opinion became general that the crest of the after-the-harvest movement of the winter crop had been witnessed. As the day were on, however, disappointment was shown over the apparent slowness of export demand. The only foreign business announced was 375,000 bushels at the seaboard and 125,000 bushels here. Credit conditions were said to form the stumbling-block in preventing much larger sales to Europe.

Beneficial refins where most needed Hogs Bring Extreme Top—Catstumbling-block in pressure is also to Europe.

Beneficial rasks where most needed made the corn market easy. Oats railled owing to estimates that the domestic yield this season is the smallest since 1911.

Provisions averaged higher with hogs and because of 9,000,000 pounds decrease shown in the Chicago stock of lard.
