

BELFAST RIOTING STILL UNCHECKED

15 to Date Killed and 100 Wounded.

CITY TERRIFIED BY GUNMEN

Snipers Busy From Early Morning Till Night.

TRAMWAY SERVICE HALTS

Many Workers Unable to Reach Places of Employment—Factories Compelled to Close.

BELFAST, Aug. 31.—(By the Associated Press.)—Although the truce between the discordant factions is being observed throughout the remainder of Ireland, Belfast again today experienced another period of terror from gunmen and snipers. As a result the death toll was augmented by six, while 30 persons were injured, many seriously.

Today's casualties bring the total death toll for the three days' rioting to 15. There probably have been 100 persons more or less seriously injured, of whom numbers were non-combatants. With some quiet intervals, resulting from the police putting snipers to flight, shooting persisted in some sections of the city from early morning until late this evening. Sometimes it became so dangerous as to necessitate suspension of the tramway service.

Factories Are Closed.
Many workers could not reach their places of employment and returned home, while shopkeepers did not dare to open their stores. In some districts districts factories were compelled to close.

Early today Sir William Coates, the lord mayor, made strong representations to General Carter Campbell, commanding the British troops in Ulster, and Chief of Police Gatson concerning the need for protection of citizens.

The streets in the hospitals have been strained to the utmost caring for those wounded in last night's rioting.

The rioting and outpouring yesterday culminated at 9 P. M. in the appearance of a party of men armed with rifles, who entered Stanhope street, took positions on the ground and opened a hot fire. Pedestrians stampeded from the fusillade. Many who were near enough to see the men doing the shooting declared the rifles they carried were new. It was the most audacious incident of the fighting since it broke out Monday.

Extensive Area Affected.
The exchange of shots between the contending parties began early in the morning and gradually spread over an extensive area with increasing intensity.

Outside of detachments in armored cars, the military forces of the government have not interfered in the rioting. Victoria barracks, where the troops are housed, was within the range of yesterday's disorders and the walls of the buildings were hit frequently by bullets.

Tram cars raced through the riot district of Queen's street and Old Lodge road, with passengers lying flat to escape the bullets. An Englishman on his honeymoon was severely wounded.

Snipers began last night's chief fighting with an attack on Crook street at Royal avenue. A party of Sinn Feiners fired from a crowd, which started to run along Royal avenue in wild stampede. Many were trampled down.

Later Sinn Feiners fired from Stanhope street into Lime street and Old Lodge road. Armored cars quelled the disturbances, although throughout the night occasional shots were heard and the night was declared to be the worst in the city's history.

RELIGION FACTOR IN CLASH

British Press Much Concerned

LONDON, Aug. 31.—(By the Associated Press.)—The grave disturbances in Belfast, which have come in the midst of the delicate peace negotiations with Ireland, were occupying the attention of the entire English press today.

Some correspondents of London newspapers in Belfast declare the present trouble is purely religious, and it is certain that this element enters into the conflict more or less, as always has been the case in Ulster politics.

The Belfast correspondent of the Westminster Gazette, in describing last night's riots, says: "With the approach of dusk, Royal avenue and other parts of the center of the city were the scene of disgraceful attacks on Catholic pedestrians. During the night any Catholics who chanced to be passing down Royal avenue were savagely maltreated.

"In some cases men were struck down and kicked. Encouraged by their success, the mobs fired up Castle street upon assembled passengers waiting for trams."

EXPLOSION IN MINE CAUSE OF 11 DEATHS

BLACK DAMP BELIEVED TO HAVE KILLED WORKERS.

About 440 Men Said to Have Made Escape, Although 7 Were Gassed Seriously.

HARRISBURG, Ill., Aug. 31.—Eleven bodies of miners entombed late today in the Harco mine following a dynamite explosion were brought to the surface tonight they were found from 440 to 1000 feet below the mouth of the mine.

The men were entombed when a dynamite charge in a new coal bed penetrated an old walled room, loosening black damp, which was believed to have caused their death.

A special train bearing a United States mine bureau car was dispatched to the mine within an hour after the accident.

Seven men who escaped the explosion and were suffering from the effect of black damp, were taken to local hospitals. It was believed they will recover. The mine will be sealed tomorrow by state authorities, who will issue a permit after an investigation authorizing continuance of operations.

Volunteer rescue teams were organized by miners, but their efforts were futile, as the black damp drove them back.

GERMAN ARMY CHIEF DIES

Count von Buelow, Whose Trial Was Demanded by Treaty, Passes.

BERLIN, Aug. 31.—Field Marshal Count Karl von Buelow, who was commander-in-chief of the German second army during the war, died here today.

Marshal von Buelow, who was 76, was one of Germany's leading commanders during the war. He was made a field marshal January 27, 1916, on the 56th anniversary of the Kaiser's birth.

Marshal von Buelow's name was among the Germans whose surrender for trial was demanded by the treaty of Versailles. After his name was published he declared publicly that the Germans whose names were on the list "those whose extradition was demanded by the allies 'only did their duty to the fatherland,'" and that extradition was an ignominy to which "no German would voluntarily submit."

MORE ZR-2 BODIES FOUND

Chief Machinist's Mate Is Identified in Wreckage.

HULL, Aug. 31.—The body of George Welsh, chief machinist's mate, of 2115, was identified as that of the ZR-2, which lost his life in the air disaster here last week, was recovered from the wreckage today.

Two more bodies later were found. One was that of Flight Sergeant Wilson of the royal aviation force, which was discovered in the Humber near Brough, where the other, which has not been identified, was washed up in the Holderness district.

Three more bodies were recovered from the wreckage late today, making a total of 22 recovered. One of the three was identified as that of V. H. Wickes, flying officer. The body which was washed ashore today was later identified as that of Sergeant J. W. Mason of the royal air force.

BRUMFIELD HEARS CHARGE UNMOVED

Dentist Smiles on Entering Courtroom.

NO ANXIETY IS MANIFESTED

Crowd Witnesses Arraignment of Alleged Slayer.

PLEA TO BE MADE TODAY

Indictment Result of Testimony of Nearly 50 Witnesses—Grand Jury's Deliberation Brief.

ROSEBURG, Or., Aug. 31.—(Special.)—Dr. Richard M. Brumfield, indicted by the Douglas county grand jury here at noon today on the charge of first-degree murder in connection with the slaying of Dennis Russell, appeared in the circuit court here at 2 o'clock this afternoon for arraignment. Brumfield will enter his formal plea before Judge Hamilton tomorrow afternoon.

The scene attending the arraignment was all that could have been expected. Busy clerks in the county offices deserted their desks temporarily, business and professional men forsook their routine duties, and when the prisoner was brought up the long, winding stairway to a position before the bar the room was filled with a crowd of people eager to get a glimpse of the alleged murderer.

Little Concern Manifested

The doctor was attired in a natty suit of gray material and light fedora hat, wearing a white shirt and dark face stool stood prominently in contrast to his immaculate linen. Apparently Dr. Brumfield was the least interested person in the entire group and he gave no outward evidence that he entertained a spark of worry over the pending trial which may send him to the gallows.

ARSON-MURDER ADMITTED

Woman Confesses Firing Barn and Burning Children.

MEDFORD, Wis., Aug. 31.—Charged with setting fire to the barn at her farm house near Dublin in which her child and two stepchildren were burned to death, Mrs. John Kosciely entered a plea of guilty when arraigned here today at a preliminary hearing.

Mrs. Kosciely testified that she wanted to get revenge on her husband for alleged brutal treatment.

239 HOUSE PERMITS GRANTED IN AUGUST

BUILDING CAMPAIGN REPORTED IN EVERY PART OF CITY.

Value of All Structures Legalized During Month Is Announced as \$1,398,602.

A big building campaign in all sections of the city, the outstanding factor of which was residence construction, combined with an encouraging improvement in lumbering and other manufacturing and mercantile business featured conditions in Portland during the past month. Reports from various industries showed an optimistic trend.

The report of the city building department showed that building permits issued during the month totaled 239, valued at \$1,398,602, compared with but 1635 permits valued at \$1,023,115 for the same month last year. This was an increase of approximately 26 per cent.

Building permits for the month just closed included a total of 239 residences for an aggregate of \$864,075, as compared with a total of 119 residences permits valued at \$318,255 for the same month of last year. This was a gain of 100 per cent in number and of more than 170 per cent in value.

The figures for the past month also show a corresponding decrease over those for the month of July of this year in respect to building permits issued. During July total permits amounted to 119 for an aggregate of \$1,446,324. Of this number 219 were for residences of an aggregate value of \$761,010.

Girl's Body Discovered

Only Mark of Identification Name "Oregon" on Handkerchief.

SHERIDAN, Wyo., Aug. 31.—The body of a girl between 3 and 4 years old, found buried in a gravel pit 20 miles northwest of here yesterday, remained unidentified today, and Coroner Stevenson expressed the opinion that the child was buried more than a year ago, probably by relatives who lacked the means to afford a proper burial.

Woman Hurt in Auto Crash

SALEM, Or., Aug. 31.—(Special.)—Mrs. H. T. Mitchell, 50 years old, a resident of route 9, Salem, received bruises and a sprained ankle when the automobile in which she and her husband were riding crashed into the rear of a lightless truck on the Pacific highway near here last night. Mr. Mitchell escaped injury.

SHERIFF SEES CIRCUS; 2 PRISONERS ESCAPE

BREAK MADE WHILE OFFICER WATCHES PARADE.

Alleged Robbers Unlock Doors and Escape From Baker, Baffle Way of Elevator Shaft.

BAKER, Or., Aug. 31.—(Special.)—While the sheriff's force and all the employees at the court house watched a circus parade in front of the building two prisoners unlocked the main door of the county jail, on the third floor of the court house, climbed down the elevator shaft to the second floor and escaped down the first flight of stairs and the main exit to the stairs late this forenoon.

The prisoners, Jack Ryan and Lassalle Upton, held on a charge of assault and robbery, one of the victims being a policeman, were prevented from making a jail delivery Sunday afternoon after they had cut through several bars when they were discovered in their attempt by Deputies Patterson and Anderson. At that time a file, hacksaw and several improvised saws made from silver knives were found by the deputies.

Ryan and Upton were caught about three weeks ago at Haines after a sheriff's posse had scoured the country for a day and a night. Along with another man, still a fugitive, the jailbreakers held up a party of hobos in a box car, relieved them of their valuables and, when they were encountered in Baker by Policeman Hempe, held him up, relieved him of his valuables and his gun and escaped to the hills.

Doings of Highway Commission

Awarded \$157,663 road contracts and \$35,212 bridge contracts.

Commission to Ask for Spring Bids Soon

Practically all of the road work which the state highway commission intends getting under way next year will be advertised this fall or in early winter. This plan will enable contractors to assemble material and equipment on the jobs during winter months and be prepared for the spring drive. Such is the programme announced by R. A. Booth, chairman of the commission, yesterday.

Lake Road to Be Improved

The unanimous opinion of the commission that the Crater lake road should be improved with all dispatch.

The Jackson county court asked that some of its bond money be applied to hard-surfacing a section off from Medford. The commissioners, however, pointed out that they believe it is better to build the road on suitable grade as far as Prospect, at the park boundary, rather than have a few miles of pavement and a lot of bad road thereafter.

The highway commission wants to take another big bite out of the road beyond Trail. All three of the commissioners predicted that some day the lake road will be hard-surfaced, but at present the main thing is to make a good road rather than a finished one.

Nothing of a concrete nature developed from the discussion of providing parking space along the state highways. A committee appeared, but offered no definite plan. The commission, on its own initiative, has been working on this scheme for some time but is open to suggestion.

The \$2,500,000 bonds offered for sale by the commission are still undisposed of. The syndicate making the best offer has been informed by the commission that if it will give the same figure as that received for the block sold a month ago, the syndicate can have all, but otherwise the commission will sell \$1,250,000, and if the syndicate does not like this proposal, negotiations will be canceled this morning and the bonds will be readvertised later.

Ordered advertised for next meeting the two miles between the Ochoco forest reserve and Mitchell, while later the 11 miles from McNees grade to Tilley's will be advertised. The engineer was directed to prepare for advertising 3000 feet of pavement approaching the west end of the new bridge across the Willamette at Oregon City, when the county gives assurances that a ferry will be operated to accommodate traffic while the new bridge is under construction.

To avoid the prospective rezoning (Continued on Page 2, Column 3.)

1922 ROAD JOBS TO BE LET EARLY

Commission to Ask for Spring Bids Soon.

MATERIAL TO BE ASSEMBLED

\$200,000 Road and Bridge Contracts Awarded.

SALE OF BONDS PENDING

Completion of Grade on Crater Lake Highway Preferred to Paving Few Miles at End.

Practically all of the road work which the state highway commission intends getting under way next year will be advertised this fall or in early winter. This plan will enable contractors to assemble material and equipment on the jobs during winter months and be prepared for the spring drive. Such is the programme announced by R. A. Booth, chairman of the commission, yesterday.

SEAPLANES TO HUNT CANADIAN IMPORTER

HYDRO-AIRCRAFT WILL SCOUT PACIFIC FOR DERELICT.

Canadian Farmer and Canadian Rover to Convey Aquatic Fliers to Mystery Area.

VANCOUVER, B. C., Aug. 31.—(Special.)—Seaplanes will leave San Pedro tomorrow morning on the Canadian government merchant marine steamer Canadian Farmer for the scene of the last position given by the waterlogged steamer Canadian Importer and will cruise the waters, using the Canadian Farmer as the parent boat.

Arrangements also are being made by B. C. Keeley, local manager of the Canadian government merchant marine, to have the Canadian government's big seaplane at Jericho beach go south on the Canadian government steamer Canadian Rover, now loading at Ocean Falls. It is the intention of the local manager to bring the Canadian Rover from Ocean Falls down the inside passage and load the big plane on the forward deck here, the ship's winches being used to lift the plane. The boat then will proceed south as rapidly as possible and when two days out will lift the plane and start it on its tour around the Pacific in the neighborhood of the wreck.

The planes, on arrival at the position of the Canadian Winner, will come under direction of Captain Wingate of that steamer and will cooperate with the rescue boats in trying to locate the derelict.

LUMBER LOADER DROWNED

John Hammer, 19, Hurler Off Scow at St. Helens Dock.

ST. HELENS, Or., Aug. 31.—(Special.)—John Hammer, 19 years old, and student of Pacific university, Forest Grove, lost his life this morning loading lumber on a scow near the lock of the Columbia County lumber company. As he was picking up one piece of lumber, another came down the shoot onto the scow, striking the piece he was handling. Hammer was hurled into the river. His body was recovered at 5 o'clock this afternoon by John Bethman.

MILLIONS DECLARED DUE

Government Probes Appraisal of Cattle King's Property.

SAN FRANCISCO, Aug. 31.—Testimony regarding the valuation of various pieces of Santa Clara valley property owned by Miller & Lux, Inc., was given today before Harry M. Wright, special master in chancery, in the inheritance tax appraisal proceedings brought by the government to obtain \$6,000,000 in taxes, interest and penalties.

The government values the properties of the cattle king at \$25,000,000, while Miller's heirs set \$22,000,000 as the correct figure.

Uncle Joe Still in Ring

WASHINGTON, D. C., Aug. 31.—"Uncle Joe" Cannon today repudiated a statement attributed to him that he would not seek re-election to congress next year from Illinois.

BAR IS ALARMED AT LAW DERISION

Leaders Sound Tocsin at National Convention.

WORLD HELD PLEASURE MAD

Jazz—Everything Jazz and No Work, It Is Said.

PROHI SCOFFERS REBUKED

Jibes at Existing Order of Things Declared to Be Sowing Dragon's Teeth of Anarchy.

CINCINNATI, Aug. 31.—Theories of political philosophy "now advanced by those who either violate law or sympathize with law violators" in industrial conflicts, agitated to upset American forms of government, and against enforcement of prohibition statutes, are the greatest forces at work in the United States to undermine respect for the law, Attorney-General Daugherty today told the American and Ohio bar associations.

Arguing equally against sentiment that regards a convicted L. W. W. as a "hero of conscience," and a "political prisoner" that holds a bootlegger an exponent of "personal liberty," and sets the slogan of "human rights against property rights," in employment disputes, Mr. Daugherty asserted fallacy and danger lay in all.

Plan is Suggested.
The attorney-general suggested a method of improving public opinion by semi-governmental means to obviate industrial conflicts, but advocated complete disregard for the theories advanced in the two other fields. He declared that the demand for "personal liberty" in prohibition enforcement "had been advanced in the past by every champion of lawlessness who has sought excuse for unlawful conduct."

"Supremacy of the law is not determined by the ordinary criminal, who commits murder, robbery, larceny," he said, "to the contrary every occurrence of crime of this sort tends to impress on society the profound importance of law and its vigorous enforcement. The supremacy of the law is and has been challenged mainly in that class of legislation where there exists a difference of opinion as to governmental policy in enacting laws in situations in which it is present among the forces undermining respect for the law. . . are the doctrines of so-called political offenses, erroneous conceptions of personal liberty and false doctrines as to the rights of individuals and minorities."

Rebuke scoffers secured.
Resemblance of large corporations of "persons and capital" against "interference of laws regulating them," he said, involving a "mistaken attitude" for "law and order is the shield of business and its only security."

Commercial and social leaders who are aiding anarchy and promoting more violence are urged in a warning issued to the people by the judicial section of the American Bar association.

"The people have undertaken to suppress the age-long evil of the liquor traffic," the statement said. "When for the gratification of their appetites, lawyers, bankers, merchants and manufacturers and social chautauqs and sportsmen, who stand at this law, or any other law, they are aiding the cause of anarchy and promoting mob violence, robbery and homicide."

"They are sowing dragon's teeth, and they need not be surprised when they find that no judicial or police authority can save our country or humanity from reaping the harvest."

Taft for Reducing Court Delay.
The statement was issued after a large audience had heard Chief Justice Taft urge measures to reduce delay in the courts. He recommended appointment of 18 new judges, two for each federal district, to aid in clearing the docket.

Introduction of the legal education section in the section's afternoon session, aroused considerable controversy over the requirements for admission to the bar.

After a turbulent session the report that was adopted and will be presented to the association tomorrow. It recommends two years of college and three years' law schooling to admit to the bar in schools maintaining certain standards.

More Judges Urged.
Appointment of 18 new federal judges, two for each circuit in the United States, was urged by the chief justice. Mr. Taft. A bill for their appointment has been recommended to the president and congress by Attorney-General Daugherty, he said.

The new judges would be appointed for life and would be assigned to any district where they were needed to clear up the docket, Chief Justice Taft said.
An important feature of the bill, he said, was provision for an annual meeting of the chief justice, the senior circuit judges and the attorney-general, to consider required reports with a view to disposing of business in dis- (Continued on Page 4, Column 3.)
