The car that never wears outthat Is the automobile that is
known as the Hudson; it does not
vibrate, therefore does not damage the material; the worn parts
can be replaced and the automobile continues to run like new.
For a long time the Hudson has
had the reputation as the car that
never wears out. Used Hudsons are
better than new cars at the same
price. Ask the Hudson water.
These used Hudsons are known
for being the best used car values
on the market.
