The cost is estimated at about \$15,000.

The judge held that evidence of Clifford's character, including his conviction for contributing to the delinquency of the girl prior to the time she was taken from her home indicated that she had gone with the consent of her mother and might have returned home at any time she desired.

OREGON MAN HONORED

JAMES L. COKE TO LECTURE ON INVITATION OF JAPAN. Jurist Is Brother of Judge Coke of Marshallfield and Chief Justice of Philippines.

James L. Coke, chief justice of the supreme court of Hawaii a former resident of Oregon and brother of Judge Coke of Marshallfield, is being singularly honored by the Japanese government by an invitation to deliver a series of lectures on the application of occidental jurisprudence generally and particularly on the American jury system in that country. A story to that effect was carried recently in the Honolulu Advertiser, announcing that Justice Coke had accepted the invitation of the Japanese and had left for the orient about September 1. Justice Coke is accompanied by his wife on the trip and they will also make an extended visit in the Philippine islands, where an invitation had been extended to him some time before to give a series of lectures in Manila. It is stated that the invitation to the justice of the supreme court of Hawaii from the Japanese government came as a result of the educational campaign which the government there is inaugurating throughout the country to prepare the great masses of people for the radical change which will take place in the judicial department soon.

BIGGER CLASSES PLANNED

PUBLIC SCHOOL TEACHERS TO GET MORE PUPILS. Shifting of Instructors Possible as Result of Increase in School Attendance.

The growth in attendance in Portland schools this year will be taken care of by assigning more pupils to each teacher, according to D. A. Groat, city superintendent of schools. In the high schools, 25 pupils will be given to each teacher instead of 25, and in the grammar grades each teacher will have 25 students in place of 35 to instruct. It is expected that this plan will easily take care of this year's growth in attendance. Some teachers will be taken from schools where there has been but a slight increase or none at all to schools which have grown rapidly in the last few months. The attendance Thursday did not show a great increase over that of Wednesday, when the total number enrolled was 48,339. Monday and Tuesday will bring the enrollment to 49,000, it was expected.
