TIMBER LANDS

WHEN THE GOVERNMENT of the United States laid out the different forest reserves in this state they took from the state of Oregon a great many thousand acres of land and in lieu of this land the state has a right to select any vacant government land outside of the forcest reserve.

The state of, Oregon will sell these selections in 40-acre tracts or up to as many acres as you want at the price of \$15 per acre and will select for you any land that is vacant fhat you may desire. You will have a deposit to make to the state when you make your application, and when the government patents the land you select to the state, you can pay up in cash and get your deed for the state of the state, you can pay up in cash and get your deed for the sind that you select at the rate of \$15 an acre; or if you desire you can pay for this land so much cash and so much per year for a term of years.

Unless the would-be purchaser bad examined a large quantity of these vacant government lands he could not pick out lands that would pay him to take for he would not be in a position to know what land to select. No one man has this desired information unless he be someone who had a large amount of land cruised and among these lands were vacant government lands, a small portion of which it would pay to take.

If you have the money to invest and desire to know more about this kind of a proposition, it would be pleased to have you cut this notice out of the paper and bring it to my office and I will expisin to you in detail exactly the situation and method the state requires. You understand that the state of Oregon is back of your capt the state to have the lands you may select, the state of Oregon pays you back the money hat you have paid. This is a first-class, clean-out investment for anyone who has a large or small amount of money to invest.

REPUTATION.

Reputation is a tally of our daily deeds. Nothing is harder to gain or easier to lose. A good one requires many years of constant upbuilding and its existence must be daily demonstrated. A poor one can easily be obtained from a single sellish thought or act.

The Covey Motor Car company's reputation for rebuilding and refinishing the used cars it offers for sale, so that they may present the highest possible value for the lowest price, is only a detailed interpretation of its general reputation for fair dealing in every transaction. A used, rebuilt, refinished and guaranteed motor car purchased through this house can only produce one net result—entire satisfaction.
