ANTIQUE ANCHOR FOUND Port of Portland Dredge Picks Up Curio in Willamette. A small iron anchor of many years ago was picked up recently by the Port of Portland dredge Columbia at the mouth of the Willamette river.

POLICE CHIEF GOES EAST Jenkins to Attend Conference of National Crime Bureau. Police Chief Jenkins will leave today for New York, where he will attend a conference of the national police bureau.

The plan of the national bureau calls for a general system of reports and co-operation between the police bureaus of all the larger cities of the country. Chief Jenkins has been appointed Oregon manager of the national organization, and during his trip east will visit a number of the more important cities for the purpose of studying police methods. Before returning to Portland the chief will attend a convention of the International Traffic Officers' association to be held at Oakland, Cal. later in October. N. D. Hansen, 325 East Ankeny street, complained that prowlers had entered his apartment and stolen several articles of jewelry. It was believed a pass key was used in entering the apartment. Mrs. F. GRASS, WEEDS MENACE

54 Fire Alarms Out of 150 Caused by Grass Fires. Statistics gathered in the fire bureau by Chief Commissioner Bigelow show that during the month of August 36 per cent of the alarms turned in resulted from grass fires and 47 per cent of the calls from September 1 to September 19 resulted from the same cause.

In addition, August one man was sent from various fire houses to quench grass fires 98 different times and up to the present time in this month the fire department has been required to send one man out to put grass fires under control 118 times.

"These figures show that the grass-cutting campaign that is now being waged has greater purpose than beautifying the city," said Commissioner Bigelow. "Weeds and tall grass are a fire menace, and when we find that 54 fire alarms out of a total of 150 in one month were turned in because of grass fires, the public will easily understand that we are trying to protect public property when we insist that the high grass and weeds be removed."

Officer Sued for Arrest. G. M. Hoffman declared that he was arrested without cause on a speeding charge in Columbia county by I. L. Abbott last August, in a \$10,000 damage suit filed in the circuit court against the arresting officer.

FOR THE HOUSEWIFE: The luxuries of yesterday have become the necessities of today. We have only to think of gas, telephones, electric lights and street cars to appreciate this, and to wonder how people ever lived without them.

Thanks to our public utilities, the most efficient form of co-operative business, these services have become commonplace things of daily life. Gas service, for instance, is at our command so easily that we accept and use it as a matter of course, without a thought of how it got here.

The story of its origin, growth and place in the life of the nation is romance made reality. It shows the result of labor, investment and directing genius, all uniting to render a service so indispensable as to deserve the good-will of every community, fortunate enough to obtain it.
