

EXILED EX-PRINCE STILL BITTER

Another Kaiser in Germany Held Quite Possible.

RETURN HOME UNCERTAIN

Exile Apparently Weary of Life at Wieringen, but Has No Idea When He Can Leave.

By HEINRICH PEMEROEYER.

(Copyright by the New York World, Published by Arrangement.) AMSTERDAM, Sept. 25.—(Special Cable.)—In the last days for Germany, when the question is raised...

The pastor's house, where the former crown prince dwells, was more comfortable and gay than my last visit, as he has needed to get rid of some of his belongings from the imperial palace in Berlin.

I opened the interview by expressing surprise that the crown prince had had patience to stick out in Wieringen. I said I could understand how a man trained to rule in the future had been able to submit obediently to circumstances.

Ex-Prince Still Bitter.

The former crown prince replied: "You confess two ideas being influenced and being ruled. I do not allow myself to be ruled by anybody. It is said that silence is consent, but this is not always true. I have held my peace, although I sometimes thought I would explode. I am not silent from fear, but there is no use of talking. Every time I have said something spontaneously my enemies have jumped on me like tigers and have used my words against me."

Gaily Not Yet Gone.

"As to being influenced by circumstances, I have seen the effect of circumstances upon my life. I am about me. When I have been among them I have not lost my balance."

Why Guess About Monday's Weather? Of course rain and wind play havoc with the wash on the line, starched pieces become limp, clothes are dragged, whipped and frequently torn, soot from your neighbor's and your chimney finds its way into the fabric. Many a sunny mother has become discouraged and disappointed. The weather is uncertain, even on wash day, but the laundry remains reliable always. For a trifling sum the whole trouble of washing at home can be overcome. Through the laundry's "family service" your washing is scientifically and carefully done. Flat pieces, such as bed linen, towels, pillow cases, table cloths, napkins, etc., are ironed. This leaves only the starched wearing apparel besides a few other things for home ironing, as most women find the heavy underwear does not require ironing. Why guess about Monday's weather? Be sure of your washing in every particular by phoning the laundry to call for your bundle. LAUNDRY INDUSTRY See this newspaper two weeks from today for next announcement of this series.

Be Suspicious of Tender Gums

Be suspicious of any tenderness or bleeding of the gums. This is usually the first stage of Pyorrhoea—an insidious disease of the gums that destroys the teeth and undermines bodily health.

Gradually the gums become spongy. They inflame, then shrink, thus exposing the unenameled tooth-base to the ravages of decay. Tiny openings in the gums form gateways for disease germs to enter the system.

Medical science has traced many ills to these infecting germs in the gums weakened by Pyorrhoea.

They are now known to be a frequent cause of indigestion, anaemia, rheumatism and other serious conditions.

So watch carefully for that first tenderness or bleeding of the gums. Try Forhan's immediately. It positively prevents Pyorrhoea (Riggs' Disease) if used in time and used consistently.

And in preventing Pyorrhoea—it guards against other ills.

Forhan's (For the Gums) cleans teeth scientifically as well. Brush your teeth with it. It keeps them white and clean.

If gum shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. 35c and 60c tubes. All druggists.
