MR. AND MRS. WYLD BACK .-- An air crip from London to Paris were among the pleasures which E. A. Wyld, vice-president of the First National bank, and Mrs. Wyld enjoyed in a three months' trip to Europe. Mr. and Mrs. Wyld have returned to Portland. A wonderful sea trip was that from Tacoma to Havre through the Panama canal. The trip lasted 40 days. "While we enjoyed ourselves thoroughly we are glad to be back." Mr. Wyld said yesterday. "It takes a trip of the kind we had to make one realize what a wonderful country we

maker, age 6, of 321 Fourth street, was seriously injured yesterday when he was run over by an automobile driven by John Kamna Jr. of Hillsboro. The accident occurred near the corner of Broadway and Jefferson street. The boy was playing on the walk and darted out into the street behind another passing machine. He ran headlong into the machine driven by Kamna before the driver could awerve to avoid him. The injured lad was removed to his home, where physicians said later he is expected to

DR. LOVELAND TO LECTURE. - Dr. Frank L. Loveland, former paster of the First Methodist Episcopal church here, now on a chautauqua lecture tour, will lecture to Masons of the city at the municipal auditorium tocity at the municipal auditorium to-morrow evening at 8 o'clock. The lecture will be under the auspices of the Masters', Wardens' and Past Masters' association and the subject will be: "Is the Soul of Uncle Sam Worth Saving?" Dr. Loveland is on the way to Australia for a lecture

Scottish Rite crippled children's hos pital had been inspected in Atlanta this plan was cast aside and it was determined to carry the hospitals to

estimate the cost of operating the hospitals to be erected in Portland and other points throughout the United States and Canada will amount to approximately \$50,000 yearly. It is possible that extensions will be made to the various hospitals after they have been completed, if the demand for services exceeds the capacity. However, this is a detail that will not be handled until the building programme agreed upon has been carried out.

According to reports read at the meeting held in Atlanta, the board of trustees now has \$350,000 of the first \$1,000,000 in the banks and the second \$1,000,000 in the banks and the second \$1,000,000 of the hospital fund will be due on January 1. The public, incidentally, is not called upon to aid in the hospital movement launched by the Shrine, all costs being defrayed out of a fund derived through a \$2 per capita tax upon all members. This has been approved by the imperial council.

The work of caring for the crippled children throughout North America.

The work of caring for the splant began through an idea launched by the observate and the hospital movement. He obtained the meney from members of the Scottish Rite organization in Atlanta and the hospital was constructed and developed around the work of Dr. Michael Hoke, one of the most prominent orthopedic surgent and the hospital movement of the obtained to move the obtained to make a data.

The work of caring for the cripplied children in and about Atlanta began

by the imperial council.

The central hospital for the crippled children will be located in St.

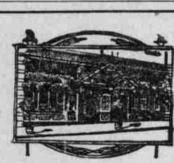

Louis, and its cost is estimated at \$300,000. In addition to the hospital in Portland, the board of trustees has selected Montreal, Canada, St. Paul and Minneapolis, San Francisco and Shreveport, La.

As an example of how the work of transforming little misshapen bodies into healthy, robust children is taking Shreveport, La.

In addition to these six hospitals the board also decided to construct later one hospital in Virginia, one in the New England states, and one in central Pennsylvania.

Into healthy, robust children is taking hold in the Shrine, announcement was made in St. Louis that the members of El Katif temple of Spokane were planning on constructing a crippled children's hospital in that city under the plans approved by the board of planning on constructing a crippled children's hospital in that city under the plans approved by the board of trustees and donating it to the board

Wrong Ideas on Paint Economy

THERE'S one way to save on paint. I That way is to use the best paints. Some think of paint economy as "cost per gallon." That is wrong. Cheap paint doesn't cover as much surface-you need more gallons.

Cheap paint is more difficult to spread, requires more labor, so the best paint costs no more when you've put it on the house than cheap paint does.

More than that, it lasts five or more years longer, if properly applied, while cheap paint on the average begins cracking in twelve months. Good paint is an investment that saves money by preventing deterioration of the house.

"Cheap" paint is the only paint that really costs you anything,

Don't allow surfaces to rot-it costs less to paint them.

We've made paints for western use for 72 years. We use pure PIONEER WHITE LEAD, pure linseed oil, zinc and color, but we mix them in scientific proportions with long-time skill.

Our white lead base must be fine enough to pass through a silk screen with 40,000 meshes to the square inch. That means covering capacity and ease of spreading. We super-purify the lead to make it "whiter" which means clearer-toned colors.

The finished product on the house is a beautiful, elastic, tough protective coating. We call these paints "Fuller's Specification House Paints" because they are the very best made for the purpose.

ARCADIAN GRILL

The Acme of Human Ingenuity! The Gasco Furnace

THERMOSTATICALLY CONTROLLED

In fact, some enthusiasts say: "It's more than human!" Its interior is constructed of the best, most efficient, most durable ma-

terial that money can buy: Cast-iron Vento Radiation. This has an enormous heating surface and retains heat for a long time after the gas is shut off. Prices \$200, \$280, \$400 and up according to size. Our pipeless Gasco (built on the same lines) \$150 up. Our "Bungalow" furnace has Copper Radiation in order to furnish a

cheaper furnace. It heats a little quicker, but cools off quicker. Only \$100.

Our Floor Furnace (like all floor furnaces, intended to heat 1 or 2 rooms, but not an entire house), \$37.50. Prices are "installed." Thermostatic control extra, from \$50 up, according to style. Hot-air pipes and air-intake, if not already in, are estimated according to size. If in, they will be connected at \$5 each.

Business Is Enormous

for nothing succeeds like success and the Gasco Furnace is a 100% success!
