FOR SALE—AUTOMOBILES.

AT THE COVEY MOTOR CAR

COMPANY PLANT.

It takes two sales to make one profit nowadays in the automobile industry, and because of this the used cars taken in exchange must be disposed of with the least pessible resistance. To the buyer the autraceive feature of the used car is price, condition and responsibility of seller. Without sarrificing one little bit of our legitimate new-car profit we insist that the used car taken in trade must be offered at a very low price. The man who traded it in to us stands for that. Also the car must be rebuilt and refinished so as to present the highest possible value. Again the man who traded it in to us has to stand for that.

Our reputation for responsibility, the third point in the attractive features of a good used car has been made saster to obtain because of our determination to rebuild, refinish and guarantee each motor car was sell. These better-quality used cars, priced at such low figures, can be sold with ease and our profit and our problem solves liself.

Because of this you will find our gain to be mutual, if we meet, but we both lose if we don't.

HUDSON AND ESSEX.

Automobiles that have been rebuilt or renewed are in the best of mechanical condition—they are also warranted the same as factories warranted the same as factories warrant new cars. In addition, we give 90 days' free mechanical service.

This is not new on Rudson automobiles. We have rebuilt and sold them with a warranty since 1916. You buy a fine quality car with the same safety as when you purchase a new automobiles. Buy a car you can depend upon and at a largain price.

Other makes of used automobiles thoroughly overhauled, put in first-class condition and sold with a 10 days' free trial, subject to being returned and full credit given on any other car of equal price that customer may select.

This gives ample time for every purchaser to try out the car he buys, gives him time to have it inspected, as we want only satisfied customers.
