

WASTE IN CLOTHING INDUSTRY DEPLETED

Annual Saving of \$240,000,000 Held Possible.

EXCESS VARIETY CHARGED

Reform in Policy of Manufacturers Demanded in Report of Engineering Council Committee.

NEW YORK, Oct. 15.—(Special.)—Annual savings of 40 per cent, or about \$240,000,000 could be made in the men's ready-made clothing industry, with its yearly output of \$600,000,000, according to a report by the American engineering council's committee on elimination of waste in industry. The report, based on a national investigation of the industry, asserted that management and labor alike were responsible for the enormous waste.

Change in System Urged

What seems to be needed, asserted the committee, is that each manufacturer limit the number of models and cloth styles, bridge the gaps between by manufacturing for stock, and adopt vigorous, positive selling methods, backed up by effective, national advertising.

Trade Association Needed

Woolen mills were charged with a widespread tendency to trade even to gamble in cloth, the whole process of purchase and delivery of wools being described as "conducted on a basis which many other industries abandoned long ago."

Thousands owe skin health to Postlam. Thousands upon thousands could tell you how Postlam could irritate the tenderest skin and soothe the most inflamed skin. A little Postlam goes a very long way. About Colds. Just because you have had many colds and always recovered from them, you should not presume that colds are not dangerous. It is not the cold itself but the serious diseases that it leads to that are to be guarded against. Pneumonia often follows a bad cold because the cold prepares the system for the reception and development of the pneumonia germ, which otherwise would not have found lodgment. It is the same with many other germ diseases. You are most likely to contract them when you have a cold. Children who have colds should be kept out of school until they recover. Get rid of every cold as quickly as possible. In other words take Chamberlain's Cough Remedy. It can be depended upon.—Adv. Phone Your Want Ads to THE OREGONIAN Main 7070 Automatic 560-95
