

MAYOR BAKER CALLS MEETING OVER ARMS

International Problem Is to Be Discussed.

U. S. PERMISSION GRANTED

Secretary Hughes Declares That Studious and Intelligent Consideration Is Desired.

At the request of members of the Portland council of churches, Mayor Baker has called a conference of representative citizens for tonight in the city council chambers to discuss the issues involved in the international armament conference to be held in Washington beginning November 11.

Before calling the conference Mayor Baker communicated with Secretary of State Hughes, asking if such a conference would in any way embarrass the government. In answer Secretary Hughes said he favored all proper steps to develop sound opinion, based upon a careful and intelligent study of the facts surrounding the problem.

Mayor Baker will preside at the conference tonight. It is possible that a permanent organization will be formed, after which the subject of limitation of armament will be discussed freely.

Mayor Baker yesterday invited Governor Olcott and Lieutenant-Governor White to attend the conference. Other organizations and individuals, also invited, include: Presidents' Council, Maritime Club, W. S. Kirkpatrick Civic League, A. C. Newell, Rotary Club, A. J. Bale; Realty Board, C. A. McKenna; Kiwanis Club, H. Hankin; Progressive Business Men's Club, Wm. F. Fleibig; Chamber of Commerce, John T. Dougan; Press Club, Ben H. Lampman; Hotel Men's Association, Percy Smith; Musicians' Club, James A. Finley; City Club, L. D. Bosley; Credit Men, A. C. Longshore; East Side Business Men, U. D. Maxon; American Legion, Thomas H. Boyd; American Association of Engineers, O. Laurgard; Oregon Technical Council, D. C. Henny; Retail Credit Men, J. S. Brooks; the city commissioners; the county commissioners; the newspapers; W. C. T. U., Mrs. Mary L. Mallett; Jewish Women's Council, Mrs. Julius Louissen; Daughters of American Revolution, Mrs. John Pearson; A. A. U. W., Mrs. Norman E. Coleman; Parent-Teachers, Mrs. W. H. Bingham; City Federation of Women's Clubs, Mrs. Alexander Thompson; Women's Club, Mrs. Charles E. Hunyan; McDowell Club, Mrs. Warren Thomas; Women's Club, Miss Catherine Coffield; League of Women Voters, Mrs. Dallas Bach; Business Women's Club, Miss Adella Fritchard; grade teachers, Mrs. E. Douglas; Station of Labor, Otto Hartwig, W. E. Kinney, Ralph Williamson, Dave Ellis and George H. Howell, public schools, C. Newell and Dr. J. G. Baughman, churches, Father George Thompson, Rabbi Jonah B. Wise, Amedee M. Smith, Howard O. Sisson, James B. Kerr, Dr. Harold L. Bowman, Ralph C. McAfee, Y. M. C. A., Harry W. Stone, Y. W. C. A., Mrs. Norman C. Christie, Knights of Columbus, general secretary, J. C. English, C. C. Colt, B. S. Josselyn, W. B. Ayre.

Members of masonic orders to attend will include: Surin, A. L. Tins; Blue Lodge, J. J. Baillie; Grotto, Dr. S. W. Stryker; Chapter, C. E. Tipton; Eastern Star, Nellie McKinley; Scottish Rite, Lewis U. Clazger; Knights Templar, Judge J. B. Cleland.

At the theaters. Pantages. LITTLE CARUSO is the modest billing for a very fine tenor who sings in the headline act on Pantages' new bill. Little Caruso has a well-trained voice of warmth and color, and he sings easily selections from grand opera and other favorites.

But Little Caruso is not the entire act, although the others are simply billed as "and company." One of the "and company" is an excellent tenor and he sings "Mother Machree" beautifully, playing his own accompaniment on a stringed instrument. He has a likeable personality and his voice has an appealing sympathetic quality that stirs the audience.

Two interesting items with good voices sing also in the company, and a ballet dancer adds two vivacious and spirited dances. The scene, a veritable glimpse of the moonlit harbor and twinkling village lights is exceptionally pretty, and the singers in costume add further to the picture.

All of their selections are well-chosen and beautifully rendered, and the act won much applause. A round comedian of merry moods and a sense of comedy in proportion to his size is one of the team of Herbert and North. The Frenchman is a fat, fat one who breaks it. That's how the fun starts, and it keeps getting

funnier at every moment, until it ends in a climactic moment of dance which leaves the fat man apoplectic but still the hero. Applause rang out constantly during the Herbert-North turn. They are an original, clever pair.

Walton and Miss Brant have a capital comedy turn. Walton gets exasperated at the apparent dull witlessness of his pretty partner, firing an avalanche of questions at her and getting wrong answers, which set the house in uproar. Then he takes the nobody-home girl to a ball game and her literal acceptance of all he says proves a riot before the act ends.

One of the trio in the Joe Kane, Joe Morey and Frank Moore act is a wonder in holding a pole balanced on his forehead while another of the trio goes through a series of poses high in the air, suspended to the other end of the pole by his feet. They add other adventures in hand-stands and originalities in balancing, which thrill and interest.

Coleman and pretty Miss Ray return with their wonderful walking dolls and entertain delightfully. They have a cleverly arranged ventriloquist act called "In Details," filled with novelty and new material. Coleman is a very fine artist in this line of work and performs a myriad of original features.

O'Hara and Neely are a pair of Irish maids with sweet high voices which blend charmingly. One plays the piano and together and in solo they sing delightful selections.

Opening the bill is a boneless wizard, Bekema, in an astonishing display of equilibrium act which is full of new ideas and daring features.

The film feature preceding the bill is one of Larry Semple's best, "The Rent Collector."

Soda and Hydrochloric Acid Removes Walnut Stains.

Water Spots on Silks Disappear Under Careful Treatment.

TO REMOVE walnut stains dissolve one-half ounce of sulphite of soda in one quart of water, to which has been added one-quarter ounce of hydrochloric acid, or oxalic, if the other is not available. Spot the stain repeatedly the same treatment is also used on photographic stains unless they have been washed with nitrate of silver, which isn't usual nowadays.

When white materials turn gray or yellow in gasoline or benzine, it is sure proof that they are moist or that there is water in the gasoline.

Water Spots. These spots will come out only when the garment is washed in soapy water, as taking them out is likely to leave a ring. Use soft or distilled water, moisten a tampon slightly with benzine, rub the spot out; then dry rapidly with a piece of buckskin to avoid rings. Colored silks are liable to bleed, so use light gray and tan wools be careful to dry quickly to avoid rings.

Waterproof Goods. Wear destroys their rain resisting powers, but with a little care the fabric may be treated and be as good as new. The re-waxing of the threads where the wax has taken place and where the garment was waterproof again. Warm some benzine in a hot water bath and melt it in as much paraffin as it will take up. Let it cool and then rub the wax into the fabric. On light gray and tan wools be careful to dry quickly to avoid rings.

HERE'S one of your best winter friends: —a new Overcoat!

—warm, woolly and well-made; fabrics that repel cold while they keep you glowingly warm; models that add to good appearance; garments of true dignity, priced at an extremely low margin above makers' price.

Oregon-Made Overcoats Special \$18

BEN SELLING Leading Clothier Morrison at Fourth

among the recommendations make by a special investigation committee of the Kiwanis club today, after two months of investigation of Spokane's transportation problems.

Adequate motor bus service to displace the present street car systems would be too expensive to be practical in Spokane, the report said. Under present conditions, it was said, bus service could not be furnished at a profit for less than an 8-cent fare and it was possible that a 10-cent fare would be required.

A warning was issued that the present system of jitney competition would ultimately result in the elimination of the street car systems.

Appointment of a commission with power to summon witnesses and take testimony under oath to continue the investigation was recommended.

WARRANT OUT FOR BYRON WITNESSES IN TIMBER FRAUD TRIAL CALLED.

\$5000 Bail Forfeited by Man Jointly Accused, With John W. Todd, of Using Mail to Defraud.

A bench warrant has been issued for Byron, recently jointly charged with John W. Todd, with using the United States mails to defraud, and who has disappeared, thereby forfeiting \$5000 bail.

The warrant was issued yesterday by Judge Wolverton after United States Attorney Humphreys had filed a motion in which it was declared that federal authorities had been unable to find any trace of Byron.

Todd and Byron were charged with having used the mails to carry on a swindle in Marion county to obtain large sums of money from prospective settlers on timber claims. Byron is said to have represented himself as having inside information on large tracts, and through he and Todd timber valued at several thousand dollars was to be received by purchasers for \$1000 and commissions.

Attorneys for Todd made an effort to obtain a separate trial for their client, on the grounds that Byron had a previous criminal record and that a jury would be prejudiced against Todd. A motion to this effect was overruled and the date of trial was set for November 15.

More than 30 witnesses are scheduled to appear in the trial of the two men. Should Byron fail to come into the custody of the officers it is probable that the case of Todd again will be sent to the grand jury.

Judge Wolverton has fixed Byron's bail at \$50,000 in case he is arrested on the bench warrant.

Cattleman Hurt by Horse. KLAMATH FALLS, Or., Oct. 24.—(Special.)—When his horse stepped into a hole and fell, James Thrasher, local cattleman, was left lying alone and unconscious on the Sycan marsh, 56 miles north of here. The horse in its struggles struck him in the face with its hoof, inflicting severe lacerations. When Mr. Thrasher regained consciousness he crawled to his cabin, a distinguished guest in the banquet hall of the lodge rooms.

Klamath Jail Is Empty. KLAMATH FALLS, Or., Oct. 24.—(Special.)—For the first time in many months the city and county jail was empty Saturday. At no other time this year, said Jailer Howard, had the cells been untenanted.

KING KLEAGLE INDIGNANT LOCAL KLAN CHIEF MYSTIFIED BY RECENT EVENTS.

Responsibility for Lawless Demonstrations Here and at Salem Emphatically Disavowed.

L. B. Callaway, king kiegale for the district of Oregon and Utah of the Knights of the Ku Klux Klan, expressed himself yesterday as completely mystified by the recent activities of certain individuals who leave entertaining notes behind them signed "K. K. K." and postscripted first or last warning, sometimes the only warning.

The last escapade of robed callers was when two dropped in at the Deaconess hospital in Salem, a Menomonee institution, and after frightening a number of bedfast patients, fled, leaving the following note: "You better turn those girls loose. What the Ku Klux Klan starts it finishes. K. K. K."

Callaway declared there was no Klan organization in Salem and was certain that some of the local members had any interest in Salem affairs. He said he would like to see the culprits apprehended, as well as those who branded the letters "K" on the cheek of Mrs. Phil Reynolds, a negro, last week.

"Robbed manifestations of that kind," he said, "are not in our line at all. We are going about our work in an entirely different and orderly manner and when we have work to do it is done quietly, expeditiously and efficiently. We are not terrorizing bedfast people or attacking innocent negro women. I am extremely desirous of seeing these men who are hiding behind the Klan to adjust personal difficulties hiding behind prison bars."

Farmers Get Many Loans. KLAMATH FALLS, Or., Oct. 24.—(Special.)—Klamath county farmers have received approximately one-third of a million dollars in federal farm loans in the past three years, according to Mrs. L. E. Hargue, secretary of the Klamath Falls Farm Loan association. An appraiser from the federal land bank at Spokane will arrive here in a few days to pass upon applications for \$40,000 in loans filed by farmers.

Like an old Cremona Violin it grows Sweeter with Age

—and for the same reason. For The Cheney is seasoned and shaped with that same regard for musical results which Stradivarius used in fashioning his violin masterpieces.

Suspended free from the walls of The Cheney cabinet, the sensitive wood shell of the violin-shaped resonator vibrates with every note that passes. As it mellows year after year, the full rich quality of Cheney tones continues to grow more beautiful.

The CHENEY THE MASTER INSTRUMENT

Cheney cabinets have been created by master designers drawing inspiration from the finest furniture the world has known. True and graceful in line, they add distinction to the most impressive setting, yet in price The Cheney is within reach of every home.

CHENEY TALKING MACHINE COMPANY, Chicago

The Cheney is sold in Portland by: G. F. JOHNSON PIANO CO.
