TO WHOM IT MAY CONCERN

Over 25 years ago I suffered greatly from a very severe case of Plies. I could scarcely walk or sit down. After trying different remedies with no satisfaction, I consulted a physician, who told me that the only sure cure was an operation. I would not submit to the embarrassment of such a treatment, so I tried RECTALINE and used it night and morning for a short time. Relief was felt right from the start, and one night the tumor completely passed from me and I have never had a touch of PILES or any inflammation of the rectal region since.

No doubt you can have the same experience as
Mrs. Little. We are so confident that you will get
desired results after using Rectaline as directed
that, in case you do NOT, we will cheerfully refund your money.
