

EXPEDITION UP EVEREST
Climb Will Be Deferred Until Summer.

HIGH GALES FORCE HALT
Particles Almost Suffocate Men
Attempting Dash to Peak
of Himalayas.

By COLONEL HOWARD BURY,
Leader of the Mount Everest Expedition.

On September 23, leaving Harold Raeburn at the 20,000 feet camp, we started off at 4 A. M. ascending Lhakpa (Wang-nam). This 20 coolies with us were divided into four parties. With them we quickly descended onto the glacier, Everest, with its snow ridges looking superbly in the bright moonlight. From there Everest looks best, as it stands up alone as a great peak, not dominated by the lofty snow jutting northwest and southeast.

Footprints of Man Found.
We gradually ascended a part of the conical snowpeak which Mr. Hillary climbed first, from Kama valley. After climbing through an icefall, offering few difficulties, we followed the long and occasionally steep ascent with the snow rather soft, to the top of the pass. Even at these heights there were curious tracks in the snow. We distinguished bare and foot tracks, but one mark, like that of a human foot, was most puzzling. The coolies assured us it was the track of a wild animal, and that these men occasionally are to be found in the wildest and most inaccessible mountains.

Col Is Objective.
Immediately opposite was a col about 24,000 feet. John W. Cochran, Everest with the north peak of the mountain. To reach this col was the object of the climbers, as from the col, though steep, slope leading to the summit of the mountain.

Camp Pitched in Snow.
We found a small sheltered hollow in the snow a few feet below the crest of the pass and at a height of 23,000 feet. The wind was pitched. The wind howled above us, but the sun shone brightly and helped us to keep warm. The wind, however, was too strong to allow us to remain until sunset, when we managed to warm a little tea and soup, and then retired into our tents.

Morning Is Beautiful.
The morning was most beautiful and the views from the camp superb. The northwestern gale continued above. Mallory Bullock and Wheeler, with half the coolies, descended the glacier, and came to the foot of the north col, where they were intending to discover whether this route up Everest was practicable. The traffic officer, myself were not sorry to return to the 20,000-foot camp, which appeared homelike to us.

WATCH SOLVES BURGLARY
Attempt to Sell Timepiece Lands
Rollins Cosgrove in Jail.

When Rollins Cosgrove, 23 years old, attempted to sell a stolen watch at Solomon's jewelry store, 233 Morrison street, yesterday, he made the fatal error which landed him in the clink on a charge of burglary.

Coolies Lowered by Rope.
The following day the gale continued to the lower camp (no further attempt to explore the route to the summit being possible), while Wollaston, Wheeler and myself, with 15 coolies, crossed over the 20,000-foot snow pass just opposite and leading to the head of Kama valley. It was a steep, rocky descent to the far side

METHOD OF ESCAPE
