CROWDS PAY TRIBUTE

General Pershing Is First to Shake Hand of Visitor—Other Notables Also on Hand.

NEW YORK, Oct. 28.—Marshal Foch of France came to America today. He captured New York and then sped away to conquer the rest of the country.

General Pershing was first to welcome his old comrade to these shores. The marshal's welcome began 100 miles out at sea. There the liner Paris, bearing him to the new world, was joined by 12 American destroyers.

The Paris passed the George Washington which had raced into port with General Pershing in order that he might be first to grasp the marshal's hand as he stepped on American soil.

At quarantine came another welcome. Transferred to the navy cutter Vigilant, the soldier of France clasped hands with Ambassador Jusserand, Assistant Secretary of the Navy Roosevelt and many other notables.

But the series of receptions had hardly begun. The next came off Fort Jay, when guns thundered a general salute.

People Massed on Streets. The wide stretch of open ground had been converted into a great stadium, the walls of which were sky-scrapers, stretching stories high.

Indeed, it seemed as if all the little girls in New York were there with bouquets which they wished to press into the marshal's hands.

Cap Worn at Rakish Angle. Forward stepped the marshal, his scarlet cap at a rakish angle. There was nothing of the morose warrior in his smiling face or keen, kindly eyes, as marching straight ahead, he advanced with hands outstretched to greet America's military leader.

Orders Taken Good-Naturedly. There they were, a gallant platoon—soldiers of the French artillery and infantry, blue devils and birdmen, some with empty sleeves, all with decorations.

STORM LOSS \$5,000,000. Most of Citrus Crop in Tampico District Stripped From Trees.

TAMPA, Fla., Oct. 28.—Definite reports from all portions of the Florida peninsula swept by the tropical storm of Tuesday put the total losses at approximately \$5,000,000, of which \$2,000,000 is in personal property and \$3,000,000 represents the loss in citrus fruit.

Parade of Triumph Begun. Then started the parade of triumph. As the line of motor cars moved under the elevated tracks, motemen forgo to move their trains. They just opened their whistles and kept them open.

MARSHAL WILL NOT TOUCH LIQUOR HERE

FOCH, WHILE IN AMERICA, WILL OBSERVE LAW.

No Beverages Carried in French Soldier's Luggage, Says Dr. Andre, Personal Physician.

ON BOARD MARSHAL FOCH'S SPECIAL TRAIN, Philadelphia, Oct. 28.—(By the Associated Press.)—Marshal Foch will observe the letter and spirit of the prohibition law while in the United States. In his diplomatic precedent would permit him to bring wine and liquor into the country for his personal use, Dr. Paul Andre, his personal physician, declared tonight that the marshal intended to follow the American custom of taking only water with his meals.

Dr. Andre, who is a professor of medicine in the University of Nancy, France, has been with Marshal Foch since the war. From the day that conflict broke out in 1914 until the armistice, the marshal, he said, has not had one sick day, not even being bothered by a cold.

Convicted Slayer Is Regaining His Strength Rapidly.

This morning he told his guards that he was feeling much stronger and asked their assistance in getting from his cot, where he has been since he attempted to end his life by cutting deep gashes on each side of his neck.

SACRAMENTO, Cal., Oct. 28.—Folk and other forms of dancing, even though included in the curriculum as part of the regular course in physical education or gymnasium exercises, cannot legally be forced upon children attending the public schools of California, against the objections and conscientious scruples of their parents. Neither does refusal to take part in such exercises afford sufficient ground for the expulsion of pupils by boards of school trustees.

Plans to Go Ahead, Say Carrier Presidents.

UNIONS' STAND IS IGNORED

Rate Drop After Second Reduction Promised.

NOTICES TO BE POSTED

Appeal to Be Made to Labor Board if Employers Refuse to Agree. Strike Recall Messages Out.

CHICAGO, Oct. 28.—Railroad heads tonight declared the nation's carriers would go right ahead with plans to seek new wage cuts through railroad labor board hearings, despite the announcement from the unions that their action in calling off the strike scheduled for October 30 had been influenced by the board's announcement that pay reduction petitions for any class would not be considered until working conditions for that class had been settled.

The calling off of the strike will have no effect on the plans announced by the carriers October 14 to seek immediate wage reductions, so that rates could be reduced," said Samuel Patton, president of the Chicago Great Western and chairman of the Association of Western Railroad Executives.

More Than \$65,000 Are Fake or Stolen in City. White Men of Standing Are Believed Responsible. NEGROES ARE VENDORS. Net of Evidence Being Woven Expected to Lead to Arrest of Gang of Persons.

BOND RING SOUGHT; SECURITIES QUEER

More Than \$65,000 Are Fake or Stolen in City.

ISSUE THIRD LIBERTY LOAN

White Men of Standing Are Believed Responsible.

NEGROES ARE VENDORS

Net of Evidence Being Woven Expected to Lead to Arrest of Gang of Persons.

More than \$65,000 worth of stolen or counterfeit liberty bonds have been sold in Portland during the last few weeks, and government officers are weaving a net of evidence which will probably bring under arrest shortly a ring of men responsible for the distribution of the bonds.

Behind a number of negro vendors of the bonds are several white men of considerable standing in the city, according to the theory of federal officers. Both the white suspects and their negro agents have been questioned by the officers, but not sufficient evidence has so far been gathered as to warrant their arrest.

BONDS OF THIRD ISSUE

The bonds are of the third liberty loan issue and are in denominations of \$50 and \$100. Those that have been recovered show that the interest has not been drawn on the bonds for a period of 18 months. This fact dispelled a theory that was held for some time that they might have been stolen by Roy Gardner, the notorious prison breaker, when he robbed a mail truck in Sacramento. Serial numbers on the bonds also did not correspond with the numbers of those taken by Gardner.

A check of the numbers on the bonds stolen in Los Angeles in a robbery more than a year ago, had indicated that the bonds being distributed here were not of the same issue.

COUNTERFEITING IS SUSPECTED

Yesterday afternoon postoffice authorities were informed by telegraph that the Federal Reserve bank of San Francisco, after conducting an exhaustive search, had been unable to find any record of the theft of the liberty bonds of the same serial numbers as those in Portland. This led some to believe that there was a possibility that counterfeiters were at work printing fake bonds to like those in the original issue, but it was impossible for even a banker to establish a difference.

Federal authorities became aware that stolen bonds were being distributed through the city when they were informed through confidential sources that \$50 bonds of the third liberty loan issue had been sold here for \$12 and that \$100 bonds had been sold for \$20.

WHITE MEN INVOLVED

Their investigation led them to the offices of several professional men of the city and to the district below the customhouse where resides the negro population.

How the bonds came into Portland has not been established. This, however, the officers say they have learned. The bonds were first in the hands of a man in the city whose name is in question. The negro agents said about to sell the bonds, not only to men and women of their race but to others as well. One agent approached a business man who invests his money in bonds. He was offered \$12 for a \$50 bond. He asked the price that were desired he was informed that "the price of \$50 is \$12 and that of \$100 is \$20."

BOND SOLD TO BANK

A short time later a negro who had purchased one of the \$50 bonds for \$12 sold it to a local bank at market value. He was identified later by one of the bank clerks and informed the officers the source from whence the bond came.

Authorities think that if the bonds are not counterfeiters they came from the east, where a number of liberty bond thefts running into millions of dollars have been made during the last two years.

In the robbery of the mail truck in Toledo, O., February 17 of this year, when \$5,000,000 worth of bonds were stolen, there were few bonds of the third liberty loan issue in denominations of \$50 and \$100.

THOUSANDS OF BONDS STOLEN

In a robbery in Cincinnati a few weeks later, under practically identical circumstances as in Toledo, many of the bonds were of the third liberty loan issue, but were in much larger denominations than those distributed here.

Thousands of dollars' worth of bonds were stolen in the train robbery at Council Bluffs, Ia., November 18, 1920, but they were also in large denominations and of the first and fourth issues. The same is true (Continued on Page 2, Column 1.)
