MOSCOW, Nov. 7 .- (By the Assolated Press.)-Nikolai Lenine, soviet ussian premier, made the fourth ann which he predicts the world chase for gold will result in wars between America and Japan or America and England by 1925 or 1928.

The article is entitled "The Value of Gold Now and After the Victory of Socialism." He says that the soviet covernment has merely retreated in the attack on world capitalism and is trengthening its position.

These attacks, he predicts, will after 20 years or so enable Russian communists to achieve an economic rictory which will make it possible the building of public structures that 11 per cent to the packers. will demonstrate how foolish is was to kill 30,000,000 men in the world war for the sake of gold and how planning wars over gold such as those e predicts.

"Due to the establishment of a firm dictatorship of the proletariat," continues the article, "we are strong enough to retreat without demoralization or disorganization and pre-pare for the economic upbuilding of the government on a socialistic basis. We must save all the gold Russia possesses. We must sell dearer and buy more cheaply. Among wolves one has to be a wolf and kill others.

"Trade is the single economic link between the millions of small agriculturists and the system of supply through the government. The new system does not mean an entire break with the old economic organizations, but that we are trying to revive the trade of small holders and of subcapitalism, with the purpose to Ireland being heeded today and of mitting them to state regulation as we ourselves revive.
