SEATTLE, Wash., Nov. 20.—(Special.)—Paralleling the extensive commercial activity between Seattle and the orient experienced during the period immediately following the close of the world war, the exports from the orient to Seattle during October of this year more than doubled the oriental commerce of a year ago. Seattle's foreign export trade for October amounted to 87,540 tons, as compared to only 37,496 tons during October, 1920. This port's total domestic and foreign trade during last month was $33,930,651. These encouraging figures were contained in the monthly report issued by Port Warden Lathe yesterday.

According to the report the exports from Seattle to the orient in October amounted to 67,345 tons, or more than 2000 tons daily. Big gains also were shown in the exports to Australia, Belgium, France, Germany and South America. The domestic exports showed an increase of $200,000, as compared to the corresponding month in 1920. The imports from the orient in October were valued at $13,509,-815, while the imports a year ago were only $5,940,957.

With cargo from California ports the Charles Nelson line steamship Henry T. Scott arrived this morning at 3:15 o'clock. She was discharging today at pier 8.

The Pacific Steamship company's liner Admiral Dewey, plying between San Francisco and Seattle, arrived this morning at 8 o'clock and the steamship Admiral Goodrich of the same fleet, sailed this morning at 11 o'clock for California ports.

Carrying a capacity load of lumber, canned goods, flour and grain, the Pacific Steamship company's trans-Pacific freighter Eldridge sailed for far eastern ports this afternoon. She was expected to stop at Point Wells for fuel oil.

Delivery of the steamship Wallingford to the operations division of the shipping board was made yesterday. The vessel for the past year had been plying in the trade between Seattle and the west coast of South America under the house flag of the General Steamship corporation.

Late this evening the Yamashita Kisen Kaisha steamship Kenkon Maru No. 8 was scheduled to dock here. She is from the orient with a light cargo. On the scund she will take a full load of lumber and general freight for Yokohama and Kobe. This is her first trip to Seattle.

The steamer Kinderdijk, in the joint service of the Holland-American line and the Royal Mail Steam Packet company, which carrier was scheduled to arrive here from Europe today, has been delayed and will not reach Seatle until next Friday. At this port she will take 2900 tons of freight.

During the first ten months of this year the Nettleton Lumber company has shipped 17,755,074 feet of lumber from its Seattle plant in vessels of various nationalities and kinds to ports from the Atlantic coast to New Zealand. Japan and California were the two heaviest buyers, although hundreds of thousands of feet of this company's manufactured products have been shipped to the west coast of South America, the Philippine Islands, Hawaii, Australia, China and the Atlantic seaboard.

The cargo shipments of 17,755,074 feet represent approximately half of the Nettleton Lumber company's cut since January 1. During the ten months a trifle more than 35,000,000 feet of lumber has been manufactured. The major portion of this cut has been disposed of either through cargo or rail shipments already made or through orders on file.

SAN FRANCISCO, Cal., Nov. 20.—(Special.)—Figures presented to Chairman Lasker by Seth Mann, traffic manager of the chamber of commerce, showed that the Pacific Mail Steamship company has made a record showing with the three liners of the 535 type. From April to October this year 97 per cent of the first cabin accommodations and 100 per cent of the steerage facilities of the three vessels have been filled on the outbound trips.

W. A. Young Jr., general passenger agent of the Pacific Mail company, said that these figures show that no other company operating vessels of the board on the Pacific coast had made as good a showing.

More than 500 people inspected the Los Angeles Steamship company's liner Harvard today at pier 7, under direction of Captain Randall Rogers and other officers, the visitors were enabled to inspec the palatial liner from stem to stern.

The vessel was thrown open to the public by the company for the purpose of affording an opportunity of viewing a modern ocean liner. Once a month the company plans to permit the inspection of the Harvard at this port.

Bringing only five passengers and 1100 tons of freight, the liner Buckeye State arrived this morning from Honolulu. In her cargo was a consignment of canned pineapples for delivery to New York. The passenger list of the Buckeye State was the lightest ever coming here on a 535 type liner. The craft will leave out for the east coast at noon Wednesday.

Making a quick turn-around, the Pacific Mail liner Ecuador, Captain R. R. Drummond, will leave at 1 o'clock for Baltimore and way ports. She arrived here Saturday morning.

In ballast, the Holland-America line freighter Nebraska, flying the British flag, arrived here today from London.

LUMBER SHIPMENTS BIG

DEMAND FROM ORIENT CONTINUES STRONG.

Between 15,000,000 and 20,000,000 Feet Sent From Grays Harbor in Two Months.

ABERDEEN, Wash., Nov. 20.—(Special.)—Between 15,000,000 and 20,000,000 feet of lumber have been shipped from Grays Harbor mills and camps to Japan since the demand from the orient took a sudden upward swerve two months ago, according to conservative estimates of harbor millmen and shippers. The principal demand is for cedar, which is said to be admirably adapted for building in that country, although some fir and other kinds of lumber are being exported.

Of the total, it is estimated that between 5,000,000 and 10,000,000 feet have been sent by rail, principally to Puget sound, where it is taken aboard vessels. The remainder of the orders have been taken directly from this port.

Opinion among the millmen is that the demand will continue for some time, although the idea has been advanced that the Japanese are becoming well supplied and will soon have enough to last them for a considerable time, and that consequently shipments may slump.

The demand has resulted in many mills and camps reopening, among the most recent being reopening of a mill at Copalis Crossing by A. L. Davenport, manager of the Pacific Lumber agency, and T. W. Tebb, general sales manager of the same concern. They have obtained a hemlock mill and have installed new machinery for cutting cedar "squares" and shingles for the Japanese and domestic markets. They expect to keep the mill running for some time.
