## Household Problems

**Following** are some typical suggestions for poultry or other meats (such as breast of veal, boned shoulder of lamb or pork rolled flank steak, etc.) given in reply to a number of requests:

**Plain Bread Dressing**—Use fresh-made day-old bread crumbs or equal parts soaked and squeezed bread with dry sifted crumbs. The use of too much water will make the dressing soggy texture that we wish to avoid in dressings. freshly made crumbs or dry loaf mixture add four to eight tablespoons shortening such as bacon fat, butter, suet or drippings very finely shredded clarified suet or butter should be used according to personal taste and convenience. Add one to two tablespoons each finely chopped onion, parsley, celery or celery root, green pepper (may be omitted), one teaspoon each grated lemon rind, dried and powdered herbs (sage for goose, duck or pork), "poultry spices" or similar spices such as lemon, thyme and marjoram (for turkey, chicken or veal), with salt, pepper and mace or nutmeg to taste. A little lemon is usually a good addition.

**Oyster Stuffing**—To every pint oysters use three to four cups fresh-made bread crumbs, one-half cup melted butter, a few drops lemon juice and onion juice (may be omitted), with salt and pepper to taste. Mix thoroughly.

**Swedish Dressing**—Two cups bread crumbs (or equal parts dry crumbs and hot rice), two-thirds cup melted butter, one-half cup seeded and chopped raisins, one-half cup broken walnut meats, salt, pepper, mace and sage or poultry spices to taste.

**Chestnut Dressing**—To every pint cooked and mashed chestnuts add one-half cup butter, one cup dry crumbs, one-fourth cup milk cream (used in mashing the chestnuts), one cup butter and sliced chestnuts (in addition to those mashed), with salt, pepper and a few grains sugar and one teaspoon lemon juice to suit personal taste.

**Sweet Potato Dressing**—Make exactly like chestnut dressing or if desired use a few roasted and chopped peanuts in place of the sliced chestnuts.

**Potato Dressing**—For goose, duck or pork, two cups mashed potato (sweet or white), one cup dry sifted crumbs, one-third cup bacon fat or butter, two to four tablespoons finely chopped onion, one well-beaten egg, one-fourth cup chopped apple, sage, pepper and salt to taste.

**Sausage Stuffing**—For turkey, chicken or veal, mix equal parts pork sausage and bread crumbs or soaked bread, wrung very dry in a cloth. Add onion juice and salt to taste, with or without a little chopped parsley, grated lemon rind and sage.

**Sage and Onion Dressing**—For goose, duck or pork—Mix equal parts chopped cooked onions and dry sifted crumbs with one-third to one-half cup shortening to each pint, with salt, pepper and sage to taste. Or use for foundation equal parts chopped cooked onions, chopped raw apples and dry crumbs or bread crumbs, with sage and salt to taste.

**Celery Dressing**—Make as above, using finely chopped cooked celery in place of all or part of the onion.

## Problems of Dressmaking

Madame Richet's answers are appearing in the Oregonian daily and Sunday. Address letters to her in care of the Oregonian.

**PORTLAND, Or., Nov. 21.**—Dear Madame Richet: Have been reading your help to others, so hope you will give me some advice.

I have a brown crepe mackintosh, over-skirt of four panels lined with brown gossamer, overblouse with large armholes, kimono sleeves. There is no sash, as blouse hangs loose. It seems to need trimming to make a good-looking dress. Have thought of beading or embroidery around or on panels and waist. What would you suggest? Would like to finish it for Thanksgiving, so will be anxiously waiting for your answer. Thanking you kindly, I remain,

MRS. B. R. C.: Your dress seems to be in perfectly good style and the only suggestion which I would make would be that you would head your panels and waist in all-over design of steel beads. Finish your

Anderson against the Wallowa National bank and the Enterprise Mercantile & Milling company found for the defendants in the circuit court today. Mr. Anderson sued for \$9500 alleged to be due as damages because of the failure of the bank and company to sell a farm for which he had a contract agent. His alleged purchaser was W. J. ## Portland Street Names

While not one of the early settlers of Portland or one of the men instrumental in giving the city its first impetus, James Boyce Montgomery, for whom Montgomery street and Montgomery drive are named, was a vital factor when Portland was just beginning her larger growth. Born in Pennsylvania December 6, 1832, he went to school until the age of 16 and then took up the topographical art. This pursuit was short lived, however, and he became a builder of railroads and bridges, constructing several important routes in the east and also as far west as Denver.

In 1870 he came to the Pacific coast and in 1871 to Oregon. Upon his arrival he offered to build the first portion of the Pacific division of the Northern Pacific railroad and secured the contract. He built over 100 miles of this road and also erected the drawbridge over the Willamette river at Harrisburg for the Oregon & California railroad. Another of his projects was the building of 2 1/2 miles of railroad in the Willamette valley, and he constructed for himself on the water front in Albina large docks and warehouses.

From his earliest days J. B. Montgomery had been actively interested in politics, although he never held any office until elected to the Oregon state legislature in 1890. He was married twice, his first wife being Miss Rachel Anthony and his second Miss Mary Phelps, only daughter of Governor John S. Phelps of Missouri.

## Pimples and boils are signs of lowered vitality

*A familiar food now used to correct them*

**PIMPLES** and blackheads (acne) and boils are often the signals of a falling off in health. "A bad acne may indicate profound debility," writes a physician connected with a number of leading New York hospitals, and "the repeated occurrence of boils should always be looked upon as an indication of lowered vitality."

It has been found from actual clinical tests that remarkable results are obtained in treating these complaints with Fleischmann's Yeast.

Today Fleischmann's Yeast is everywhere recognized as a valuable "conditioner." It is a fresh food which supplies in rich quantities the newly discovered vitamins known to be lacking from many of our foods. It thus corrects lowered vitality which is so often the underlying cause of these minor ailments.

To protect themselves against these complaints many are making Fleischmann's Yeast a part of their regular diet. It is a highly digestible food assimilated like any other fresh food. You will like its fresh, distinctive flavor and the clean, wholesome taste it leaves in your mouth.

Eat Fleischmann's Yeast before or between meals—from two to three cakes a day. Only one precaution: if troubled with gas dissolve yeast first in very hot water. This does not affect the efficacy of the yeast. You will like Fleischmann's Yeast spread on toast or crackers, dissolved in milk or fruit-juices, or just plain. Place a standing order with your grocer for Fleischmann's Yeast and get it fresh daily.

Send 4 cents in stamps for the interesting booklet, "The New Importance of Yeast in Diet." So many inquiries are coming in daily for this booklet that it is necessary to make this nominal charge to cover cost of handling and mailing. Address THE FLEISCHMANN COMPANY, 314 Bell street, Seattle, Wash.

**The need for scientifically tested yeast**

Fresh yeast has been proved by recent scientific tests to be a valuable food for correcting run-down condition, constipation, indigestion and certain skin disorders. These original tests were all made with Fleischmann's Yeast. Beware of untested yeast-vitamins preparations that contain drugs or other mixtures. Fleischmann's Yeast (fresh) is a pure food, rich in vitamins, in which it measures up to the high standards set by laboratories and hospitals. The familiar tin-foil package with the yellow label is the only form in which Fleischmann's Yeast for Health is sold.

## Street Numbers Garbled

**Commissioner Barbur Says System at Present is Impossible.**

Renumbering of all houses in Portland is necessary, according to City Commissioner Barbur, who yesterday

asked the city council that the system now in vogue is so garbled as to be of little use to anyone. No provision has been made in the 1922 budget for a change in the system, so it is probable that nothing but a preliminary survey can be made next year.
