

RAILWAY OF KIAO-CHOW RAILWAY DISCUSSED

Japan to Withdraw China Postoffices January 1.

MUCH PROGRESS MADE

Pekin Delegates Make Cash Offer for Shantung Line in Course of Far East Sessions.

WASHINGTON, D. C., Dec. 12.—(By the Associated Press.)—Determination of the value of the Kiao Chow railway in Shantung with a view to compensating Japan in case she agrees to restore to China complete control of the road was taken up today by the delegates of the two nations today at the resumption of their conversations on the plenipotentiaries.

The Chinese were said to regard as highly significant Japan's willingness to discuss the financial basis on which the Kiao Chow railway might be restored.

The Japanese delegates have agreed to furnish data on improvements and the financial condition of the road, and one of the main points discussed was declared to be whether earnings would be deducted from what China would pay if her offer were accepted.

NAVAL DECISIONS SOON

(Continued From First Page.) A course sharply to world attention by way of the conference is to be made. If hopes of the British group for action on an expression of policy favoring abolition of submarines are not fulfilled the "committee of 15" will be able to thrust out technical questions as to tonnage allotments in submarines and possible size restrictions.

For Italy, spokesmen declared she had come to the conference in full sympathy with the purpose to reduce naval forces and planned no request for increase in her naval strength. France was said by the Italians to have 182,000 tons in dreadnaughts and 74,000 tons in pre-dreadnaughts as against Italy's 132,000 tons in dreadnaughts and 81,000 tons in pre-dreadnaughts.

The French group have not indicated in any formal way what naval strength they would ask, and recent action of the French chamber in voting heavy naval appropriations has been explained as only to carry on work previous to the conference.

The whole question as to the Franco-Italian ratios is purely speculative as yet. Until the desires of both powers have been stated by the committee on 15, that discussion cannot be taken up. Italian spokesmen made it plain, however, that Italy's attitude depended on what France sought.

This suggested the possibility that initiative in the European naval treaty settlement might lie finally with the United States, as a wholly disinterested party. It may be that Secretary Hughes will find expedient, in the end, to suggest ratios for France and Italy to bring the matter into focus.

4 KILLED IN TRAIN WRECK

"Everything happened so suddenly that I caught but a glimpse of the engine and the rest of the people before it rolled over. But I saw the boiler sliding backward, making the firebox open up. Mrs. Willis was holding the baby, little Geraldine, in her arms and the two of them tumbled together. Hussy went at the same time.

Willis, I saw clearly, could have escaped, but I saw her throw away his chance and grabbed for his wife and baby.

Race Begun for Help.

"Then, of course, it was all black and I was lying in the mud of the hillside half stunned. I was badly shaken, but I knew that somewhere in the darkness people were dead and dying. I knew where the construction camp was and headed for it as fast as I could."

"I got the boys out and we ran all the way back about a mile, I should say. Then the second slide

Doctor Makes Hard Trip.

Another name was on the tongue of the Melbourne people this morning, that of Dr. H. W. Coulter, of Montezano. Dr. Coulter, called by telephone at 3 o'clock this morning, crossed the Chehalis river on the railroad bridge and by using a boat and wading over the long approaches flooded by high water reached the scene of the accident.

Gerald Willis, the engineer, was taking back with him to their home a camp his wife and baby, who made the trip to Melbourne with him Saturday night and who had remained there Sunday.

Willis is survived by his parents, Mr. and Mrs. S. M. Willis of Melbourne. The senior Willis is boom foreman of the Clemons operations. Mrs. Willis, nee Pearl Black, is survived by her parents, who reside in Portland.

Montezano Olsen's Home.

Ernest Olson, who was killed in the second slide, made his home in Montezano. He has no known relatives. James Lind, the most seriously injured of the survivors, was unconscious at the Aberdeen general hospital, suffering from internal injuries, a fractured leg and burns. Nothing is known of his relatives. Al W. Hussy, crushed beneath the free box of the engine, was seriously injured and was considered a danger earlier this afternoon. He has a wife and two children in Bellingsham. His father, John Hussy, was said to reside on the harbor. Mrs. I. M. Elliott, wife of the brakeman, and two children left yesterday to pass the Christmas holidays with relatives at Cape Horn.

What Congress Did as Its Day's Work.

Senator Borah spoke at length in opposition to the proposed four-power treaty for preservation of peace in the Pacific. Resolution was offered by Senator Borah and adopted calling for report submitted by General William Mitchell on results of bombing experiments off Hampton Roads last August.

Senator Moses spoke in defense of Senator Newberry, claiming the use of money was not illegal. Resolution was presented by Senator Borah providing for an investigation by the foreign relations committee of the Chinese consortium.

Foreign debt refunding bill was reported, notice being given that it will be taken up for consideration tomorrow.

Senator Hitchcock introduced a bill revising his pension measure, establishing a bank of money.

WHEAT MERGER PLANNED

Co-operative Agencies Are to Hold Conference at Spokane.

SPOKANE, Wash., Dec. 12.—With the purpose of attempting an amalgamation of all co-operative wheat marketing agencies of the United States, a conference will be held in Chicago in March. It was announced here today by George Jewett, general manager of the Northwestern Wheat Growers' association, at a meeting of the members of that organization.

Mr. Jewett announced that the northwest association would handle during the present season 12,000,000 bushels of wheat, at an average price of \$1.15 per bushel. He said the best possible price had not been secured for all wheat marketed, because it had not been delivered until after the price had dropped.

Export business, he said, had been profitable, and would be extended.

IRISH REFERENDUM ON TREATY LOOMS

Attitude of Dail Eireann Continues as Doubtful.

ULSTERITES ARE SILENT

Sir James Craig Charges Premier Lloyd George With Violating Pledge to Northerners.

LONDON, Dec. 12.—(By the Associated Press.)—Conjecture continues to swirl regarding the decision the Dail Eireann will make Wednesday on the Irish treaty. Conferees continued today, but little leaked out to indicate the trend of the discussions.

A statement issued by Eamonn de Valera at Dublin tonight, in which he declared any agreement was subject to ratification by the Dail Eireann, is considered in some quarters to lend support to those who think that the Dail will refer the issue to the electorate.

Ratification Gains Ground. Mr. de Valera's statement apparently was occasioned by the persistent newspaper argument that the treaty must be ratified because the Irish signatories were plenipotentiaries.

Conservative and moderate elements throughout the south are pressing for ratification and a powerful impetus will be given this movement if, as expected, the hierarchy, which meets tomorrow, makes a plea for acceptance of the treaty.

At Belfast the Ulster party met to hear Sir James Craig's report of his visit to London.

After a discussion, described as stormy, it failed to decide whether Ulster would join with southern Ireland or stay out of the all-Ireland parliament.

Sir James Craig Tells Leaders Situation Again Is Grave.

BELFAST, Dec. 12.—(By the Associated Press.)—Sir James Craig, the Ulster premier, presided over a meeting of the Ulster party here today, informing his supporters of his recent conversation with Premier Lloyd George in London. It is unofficially reported the proceedings grew stormy when Sir James informed the members that Mr. Lloyd George had maintained an unyielding attitude toward Ulster.

It was intimated that except for a few trifling changes the British premier had declined to make any concessions, his attitude being "there is the treaty and it stands."

In a statement on the general outlook, Sir James described the situation as grave, but recommended an attitude of courage and optimism. He said Ulster was determined not to swerve one inch from the path she had worked out and not to alter her ideals.

Some Sinn Fein leaders who think that the treaty is a good one agree with Eamonn de Valera in believing that it embodies such a departure from the policy previously submitted to the South Ireland electors that it cannot be accepted without a fresh mandate from the constituency.

"I have been asked," said the De Valera statement, "whether the honor of Ireland is not involved in the ratification of the agreement. The honor of Ireland is not involved. The plenipotentiaries were sent on the understanding that any agreement was subject to ratification by the Dail Eireann and by the country."

"The United States refused to ratify a treaty signed even by plenipotentiaries, unless and until the treaty is ratified."

Newspapers here generally urge that, since the Irish delegates were plenipotentiaries, Ireland is bound to stand by their action, but some journals hold the view that their powers were limited by the understanding that any treaty they might negotiate should come before the Dail for ratification.

Throughout today's discussions it was evident that the personal relations of the leaders who oppose each other continue to be most friendly.

One of the strongest supporters of the treaty among the clergy is Bishop Fogarty of Killaloe, in Mr. de Valera's constituency.

Dublin is like a convention city tonight. Its hotels are crowded with politicians. Sinn Feiners are in the majority but there is a fair sprinkling of other parties.

Lodge, the primate and the bishops of every diocese are here for their meeting tomorrow, when it is expected they will vote, possibly unanimously, for acceptance of the Anglo-Irish agreement. The executive committee of the Gaelic League is also meeting.

Nationalists from counties such as Limerick, Clare and Westford feel convinced that the members of the Dail Eireann from their region will vote for the agreement.

On the other hand, there are those who believe Eamonn de Valera is gaining strength in his opposition. Trinity college today put itself on record in favor of ratification of the peace treaty. The board of directors of the college passed a resolution instructing the registrar to write to the members who sit for the university in the British parliament and to its four members in the southern Irish parliament, who were the only unionists to pledge support to the treaty.

3 MORE TREATIES DUE FROM PARLEY

China, Naval Ratio, Pacific Bases Are Subjects.

SENATE APPROVAL LIKELY

At Same Time, It Is Apparent Irreconcilables Would Like to Defer Judgment.

WASHINGTON, D. C., Dec. 12.—(Special.)—Your correspondent is familiar with the views of the more important of the so-called irreconcilable senators. It is not likely that there will be a formidable opposition in the senate to the four-power treaty adopted yesterday at the arms conference. At the same time it is apparent that the irreconcilables would like to defer judgment and would prefer not to go on record until after the other treaties come out of the conference. They regard the conference as a unit, and would prefer, if circumstances permitted, to pass judgment and take action on its results as a whole.

It is probable now that as many as three additional treaties will come out of the conference in rapid succession. One will deal with the naval ratio and the other with China. A third subject is naval bases in the Pacific. Obviously a naval ratio which is satisfactory as long as naval bases remain where they are now would not be satisfactory. If new naval bases were created, for example, by the United States close to Japan, this subject may be treated in a separate treaty, or it may be attached to the naval ratio treaty. There are other minor subjects which may form the basis of treaties.

Alliance Disposed Of. It is apparent that there were two reasons for bringing out the Pacific islands treaty first. One was that it got rid of the Anglo-Japanese alliance. This was the real purpose of the agreement. Under the terms of the old compact between Japan and Great Britain, neither country could terminate the alliance except upon a year's notice. The present treaty terminates it without the loss of that time and upon a basis agreeable to both countries. It was necessary to get the Anglo-Japanese alliance out of the way before final action could be taken either on the naval ratio or on China. A 5-5-3 ratio would not really be a 5-5-3 ratio as long as the alliance between Japan and Great Britain continued. It would be a 5-5 ratio.

The other reason for introducing the treaty in harmony makes an essential part of the tactics which have dominated the whole conference.

Field Handled One. It was an excellent getting the nations to march in step. This was the easiest field in which agreement could be reached, and one successful experiment in harmony makes the next one easier. Moreover, there are certain principles involved in the Pacific island treaty which would have been more difficult to introduce in the later treaties.

The agreement upon these principles has worked out and not to be broken by the present treaty would be easier to press them in future treaties.
