

**GOLDEN WEST HOTEL**  
**TO GET NEW CHANGE**  
 License Revocation Tabled by City Council.  
 CHANGES ARE ORDERED  
 Proprietor Declares Work of Separating Club From Hotelery Is Already Started.

The Golden West hotel, negro center on North Broadway, was saved from a license revocation by the city council yesterday on condition that the hotel be completely divorced from the Golden West Athletic club, conducted in the basement, through construction of a separate entrance to the club. In spite of police failure to obtain a conviction on gambling charges following a raid on the clubrooms early in December, the council sentiment for revocation was strong. All members of the council declared that in spite of that decision, Mayor Baker and George P. Moore, proprietors of the hotel, were convinced that gambling had been in progress in the club. Commissioners Elgelow and Barbur moved to revoke the hotel license, but by a vote of Mayor Baker and the Commissioners Mann and Pier, the matter was laid on the table for ten days on condition that immediate steps be taken to block the entrance from the hotel lobby to the basement and that an outside entrance to the club be provided.

**Change Declared Stalled.**  
 John H. Stevenson, attorney of the hotel men, assured the council that such steps were already under way. He and George Moore, one of the proprietors, had advanced the solution.

Mayor Baker and Commissioner Mann contended that to close the hotel and clubrooms would be merely scattering the negro patrons throughout the city to cause trouble elsewhere. Moore assumed a somewhat belligerent attitude when testifying. He said that whenever anything happened in the vicinity of the hotel that he got the blame for it. In a letter submitted to Chief of Police Jenkins relative to the hearing, he had suggested that if the police would take as much pains to search for the first-class hotels of the city they would have more law violation evidence in their hands than the Golden West ever yielded.

**Signal Device Admitted.**  
 Moore admitted the existence of a "dimmer" signalling device by which lights in the club might be turned off by a push button from above, but declared that it was a signal to call the proprietor which had been installed when telephone rates got too high. He explained the showing of money on the table at the time of the police raid as a search for 1885 pennies for which someone was paying a premium of 10 cents. Moore said he would not vouch for the truth of the statement but was merely repeating the story as related to him by one of the negroes at the table.

The club is not connected with the hotel organization but is an incorporated institution under the state laws which rents quarters in the hotel, according to Moore. Moore and others connected with the hotel are included in the list of club officers.

**BID SYSTEM IS REVISED**  
 Contractors Must Make Tenders on Alternate Contract.

All bidders on large improvement contracts heretofore will be required to submit alternative bids on the basis of monthly progress payments and payment at completion of work, according to amendment yesterday of Commissioner Barbur. The decision was reached after City Attorney Grant had ruled that it might legally be required.

The step is taken to force contractors to give the property owners the benefit of the progress payment system in a reduction of bids if they feel that it is sufficiently to their advantage to work under it. Under the present system the contractor may be paid 80 per cent monthly on the work actually completed in warrants drawing 5 per cent. Mr. Barbur holds that the system is advantageous in financing the contractor with little capital. If alternative bids indicate that contractors are willing to work more cheaply under the progress payment plan the bids will be let on that basis; otherwise it will be discontinued and payment in lump sum at completion, with a saving of the interest on the warrants.

**WAYSON HEARING ENDED**

Testimony Taken at Private Probe Will Go to Washington.

The preliminary private hearing of Dr. N. E. Wayson of the public health service, on charges brought by Ralph Hore of Seattle, vice-commander of disabled veterans of the world war, came to a close yesterday. Dr. Hore de Valin and Dr. Duncan McCallum of the public health service department at Washington, D. C., have been listening to the testimony for two weeks.

A transcript of the testimony is to be forwarded to the surgeon-general at Washington, where the investigation will be continued. Dr. de Valin said before he left Portland that the testimony was not made public because Dr. Wayson was not on trial, but merely his questioned conduct was under investigation.

Dr. Wayson was charged by Mr. Hore with incompetence and cruelty in handling disabled soldiers under his charge.
