The Graceful Woman

to necessity of the fallen arches and he weak feet that so deform many xomen of the present time," says youls Chalif, exponent of the classical

"In the last few years, since young and also since women have taken to walking, golfing, tennis and other sports the improvement has been marked. The result is that a woman may wear her sport shoe, her walking shoe and her evening shoe all with equal comfort and that is because sho has developed a strong foot.

has developed a strong foot.

"The woman who sits the greater part of the day does not develop the muscles of the feet and so she has, not the fallen arch, but the weak feet. The woman who is simper constantly on her feet has not developed sufficient strength to support the weight of her body; so she has a fallen arch, Immediately she resorts to artificiat supports. Ill-fitting shees contribute to the weight of the weight and a supports. to the muscular mal-conditions of the feet, for the nerves of the foot are cramped and the free circulation of

blood interfered with.
"We need and we need badly, pleas-ing methods of exercising the feet.
The best exercise that can be had for the feet is the classic dancing, be-cause I have seen hundreds of poor, weak feet rejuvenated through this

The foot strength and comfort which are essential to the graceful woman—and to every woman's hap-piness!—are obtained by wearing Cantilever Shoes, whose flexible arches (not stiff as in ordinary shoes) permit the muscles to exercise freely while walking. Shaped like the foot, there is no pressure on the nerves no restriction of the circulation. The flexible arch supports a weak foot while natural exercise is strengthen-

You walk gracefully in Cantilever Shoes. You feel well and you look well. The style is correct for semilress and daytime wear. Cantiley Shoe Store, 353 Alder street .- Adv.
