

20 PER CENT RAISE IN WINE PAY ASKED

Scale Is Adopted by Tri-State Convention.

INCREASE IS \$1. DAY

Delegates Also Approve Demand That Proposed New Agreement Not Exceed 2 Years.

SHAMOKIN, Pa., Jan. 20.—The tri-state convention of the anthracite mine workers today adopted the recommendation of the scale committee demanding a 20 per cent increase in wages for contract miners and \$1 a day increase for all day men.

At tonight's session the convention adopted a demand providing for a standard check-off system and also accepted all other demands of the scale committee.

The convention instructed the scale committee to perfect arrangements providing for a suspension of mining on April 1 in the event that no satisfactory agreement had been reached on a new contract to take the place of the present one, which expires March 21.

Uniform Scale Favored. The delegates also adopted a demand that the proposed new agreement shall not exceed a period of two years and prohibited the making of individual agreements and contracts in the mining of coal.

Other demands provided for a uniform wage scale so that various occupations of like character shall command the same wages; that the eight-hour clause in the present agreement shall be applied to all persons working in and about the mines coming under the jurisdiction of the mine workers' union; time and one-half for all overtime work and double time for Sunday and holiday work; a standard check-off system; dead end work to be paid for on a uniform consideration basis; that where coal is paid for by the car it shall be charged and payment made on the legal ton basis and decharge eliminated; that carpenters and other tradesmen be paid the recognized standard rates existing in the region, which should not be less than 90 cents an hour; that in rehiring men laid off the seniority rule shall apply; that employees of stripping contractors be brought under the agreement; that powder be delivered to the miners at their working places; and that men have been working only six or seven-hour days in collieries where eight hours prevail that they have their wages adjusted based on normal conditions.

Motion Is Adopted. The convention adopted a motion that the demands be considered serially. The first motion, which increased wages of 20 per cent took up much time of the convention. One delegate wanted to make the increase 14 per cent and pledge the union not to deviate from it. It was not favored.

The recommendation that the scale committee be instructed to "perfect arrangements" for a suspension of mining on April 1 in the event that no agreement not being reached by that time, came as a surprise to some of the delegates. It was expected by some that this would be left to the international policies committee, which would not want its hands tied in negotiating with the operators. It was the custom in previous negotiations to keep the men at work while negotiations were progressing favorably and make the agreement entered into retroactive to the date of the action taken by the convention will be referred to the international convention, which meets at Indianapolis February 23. The convention adjourned sine die after adopting a resolution welcoming Ireland to the family of nations.

COAL USED AS BALLAST Reports on British Exports to America Cause Interest.

WASHINGTON, D. C., Jan. 20.—Reports of coal exports from Great Britain to New York and other ports have aroused considerable interest in coal circles, according to a cable to the commerce department from the Trade Commissioner Dye at London. According to the report, he said these shipments were made by using coal instead of iron ore as ballast on ships going out to the United States to load return cargo. Such shipments, he added, took place occasionally in pre-war days whenever coal was approximately the same price on both sides of the Atlantic, as it was more convenient to load coal than iron ore in New York even at a small loss than to load sand as ballast.

MARINE EXPERTS BUSY Harding Expects to Have Plans Submitted Next Week.

WASHINGTON, D. C., Jan. 20.—President Harding expects to receive early next week plans for a new marine question. A number of suggestions have been prepared and the president, his callers said today, will consider them carefully. The present arrangement is regarded by the executive as one of the most difficult, because of opposition to any policy favoring a ship subsidy. That the government should get out of the ship business was said at the White House to be broadly, Mr. Harding's personal conviction.

FARMERS HELD FARMED (Continued From First Page.)

credit problem of the farmer can best be met by adapting existing banking agencies to his credit requirements. In meeting these requirements there is no reason why all banking agencies cannot be used by adapting them to the farmers' requirements. These requirements are for credit of sufficient maturity to make payment possible out of the proceeds of the farm. This means a credit running from six months to three years.

The commission proposes to meet the requirements by authorizing any federal land bank through a separate department created in it under restrictions, limitations, conditions and exceptions adopted by the farm loan board to re-discount paper on which money has been advanced or used by the farmer for agricultural purposes, having a maturity of not less than six months nor more than three years at rates of discount to be fixed by the farm loan board for any national bank, state bank, trust company, saving institution or livestock loan company.

In addition the commission deems it desirable to permit the federal land banks to make loans direct to co-operative associations of farmers

Executive Committee Appropriates \$25,000—Convention Dates Are October 16 to 20.

INDIANAPOLIS, Ind., Jan. 20.—Construction of a memorial in Cincinnati to the late F. W. Galbraith Jr., ex-national commander, was authorized today by the American Legion's executive committee. An appropriation of \$25,000 was authorized October 16 to 20 as the dates for the fourth annual convention at New Orleans.

The first day of the conference was devoted to the discussion of the plight of disabled veterans and plans for their relief. The U. S. veterans' bureau was criticized by several speakers.

J. F. Lynch of Norfolk, Va., declared the trouble was not so much with the bureau, but that the bureau was left too much in the hands of Brigadier-General Sawyer, President Harding's physician. General Sawyer was characterized by not speaking as a man who had not done the army uniform until two years after the armistice was signed.

A resolution was adopted calling on the federal government to extend all its facilities in behalf of disabled veterans and demanding an immediate settlement of long-pending claims. Other resolutions authorized Commander Hanson Macdonald to appoint an athletic commission to arrange a national system of competition between legion athletic teams; to request the navy department to investigate charges of discrimination against navy-yard men in employment at navy-yards and asking the department to designate an American cemetery at Bony, France.

BARLOW IS TO DECIDE Mass Meeting Called to Discuss Proposed Union School.

CANBY, Or., Jan. 20.—(Special)—The first district action to be taken on the proposed establishment of a union high school here is scheduled for next Monday, at Barlow. A meeting of the taxpayers here has called and at a meeting with the school board they will determine whether or not to place petitions in circulation for a special election in the district. The action at Barlow is awaited with considerable interest as it is taken as an index to probable other action in the various districts. Tentative lists include 16 grammar school divisions: George, Brown, Union Hill, Mundorf, Lone Elder, Macksburg, Neady, Ninety-one, Maridian, Marks Prairie, Barlow, Union Hill, Elliot, Oak Lawn and a part of Whiskey Hill.

LOWER WIRE RATE ASKED California Press Association Wants Reduced Telegraph Tolls.

SACRAMENTO, Cal., Jan. 20.—The California Press Association will ask the railroad commission to decrease telegraph rates instead of increasing them, it was announced today by the association's president, who is president of the organization. Mr. Richardson has filed a protest with the commission against the application of the Western Union Telegraph company for an increase, and said he would appear tomorrow before the commission, with George E. Squires, attorney for the press association, to make another protest.

\$2 FOR WHEAT URGED Tri-State Growers' Convention Adopts Resolutions.

FARGO, N. D., Jan. 20.—Resolutions asking congress to fix the price of wheat at \$2 a bushel and advocating co-ordination of wheat farm movements and co-operation between farmers' organizations were adopted at the closing session of the Tri-State Grain Growers' convention today. Berry Report Published. SOUTH BEND, Wash., Jan. 20.—(Special)—County Agriculture Agent Beck has just made public the results of experiments he has conducted relative to the effects of spraying upon the keeping quality of cranberries. He has obtained some very satisfactory results in spraying with some species of berries. Pacific county is one of the greatest cranberry regions in the United States. The local berries are much sweeter than eastern berries, but are less favored for their keeping quality. A big effort will be made to raise berries that will last for some time and thus capture the nearby markets for the west coast product.

Lebanon Lodges Install. LEBANON, Or., Jan. 20.—(Special)—A joint installation of the newly elected officers of the Oddfellows and Rebekah lodges of Lebanon was held in their hall in this city this week.

Mrs. Jennie B. Southard and Sheridan Long were the installing officers. The officers installed were as follows: Rebekah—Mrs. Harriet Hunt, noble grand; Mrs. Beatrice Tate, vice-grand; Mrs. Emma R. Newport, corresponding secretary; U. W. Cruson, financial secretary; Alton Elliott, treasurer. Oddfellows—Fred Sweet, noble grand; Oliver Gunderson, vice-grand; Luther Keith, corresponding secretary; Roy Gardner, financial secretary; F. W. Musgrave, treasurer.

FILIPINOS RESENT REPORT WOOD-FORBES FINDINGS HELD TO BE UNWARRANTED.

Resident Commissioner in House Says With Pacific Treaty Islands Are Secure.

WASHINGTON, D. C., Jan. 20.—The report of the Wood-Forbes mission, which advised against granting the Philippines their independence, was criticized in the House today by Insular Commissioner in the Islands, Mr. Gabaldon, one of the resident commissioners from the islands, who declared his people could neither agree to nor accept the recommendations of the investigators.

Contending that the report had only served to increase the insistence of Filipinos for independence, Mr. Gabaldon said: "We can find no other conclusion than that the object of the investigators was to find excuses for delaying independence."

In deciding the fitness of the islands for independence he declared that the mission had set arbitrary qualifications that no nation can now or ever will be able to meet. "The report is a clever, but unworthy, attempt to change the issue from that of stable government to a multitude of other conditions not required by congress," he asserted.

As two additional developments in the Pacific situation which make granting of independence without protection. Mr. Gabaldon mentioned the four-power Pacific treaty and the fact that the Nationalist party, which he declared was in the overwhelming majority in the Philippines, recently adopted a platform in favor of independence without protection. "I pray you not to do us the injustice of misunderstanding our motive in petitioning you for complete independence," he declared. "We do not challenge the benevolence of your intentions, but are merely yearning for the freedom which is inherent to every self-respecting people."

ROAD WORKERS' PAY CUT Scale of Common Labor Is Reduced 25 Cents a Day.

WALLA WALLA, Wash., Jan. 20.—(Special)—County commissioners today adopted a new wage scale for road workers, reducing common labor 25 cents a day, but also cutting out of board 25 cents. Graders and truck drivers draw the same scale as last year. The schedule follows: Common labor, \$3.25; gradersmen, \$5.00; truck drivers, \$2.50; teamsters, \$2.50; board for teams, \$1.50; board for men, \$1.25.

Air Transit Line Planned. HOQUIAM, Wash., Jan. 19.—(Special)—Formation of the Grays Harbor Aero-Transit company and incorporation as such under the law of the state, as soon as papers sent to Olympia are approved, was announced here by Captain Walter L. Smith, formerly army pilot. The incorporators were Joe Fulman, Stanley Phillips and Captain Smith. According to the men, financial pledges sufficient to buy one seaplane from the government, under the privilege of a cut price given to ex-army flyers, have been assured. Captain Smith is a member of the Aero Club of America and holds a license issued by the Illinois Aero club.

TEA EXPERTS TO MEET Recommendations on Standards to Be Made to U. S. Department.

WASHINGTON, D. C., Jan. 20.—The United States board of tea experts, appointed today by Secretary Wallace, will meet in New York, January 23, to select the tea standards for recommendation to the agricultural department. The standards, which are effective May 1, measure the purity, quality and fitness of all teas entering the country. The members of the board announced by Secretary Wallace include E. F. Rogers, Taosoma, Wash., and George W. Caswell, San Francisco.

DEEP REGRET EXPRESSED Word of Pope's Illness Is Received in Washington.

WASHINGTON, D. C., Jan. 20.—(By the Associated Press)—Word of the serious illness of Pope Benedict was received today with the deepest expressions of regret. Both official and unofficial Washington eagerly sought the latest information conveyed press dispatches from Rome, while at the apostolic delegation the deepest concern was manifested. Cardinal O'Connell of Boston has been notified of the gravity of the illness, but it was said tonight that he should expect Benedict's health to reach Rome in time for the opening of the conclave which takes place in 11 days after the death of the pope. If this should occur, it would be a repetition of what happened in the case of Pope Leo XIII., when both Cardinal O'Connell and the late Cardinal Gibbons arrived after the election of the present pope.

Cardinal Gasparri Named. LONDON, Jan. 20.—Rome newspapers, according to a dispatch to the Central News here, expressed the opinion that the next pope would be Cardinal Gasparri, papal secretary of state. His election, it was added, would have the support of the Italian government.

The dispatch said the pope's sister, Countess Julia Persico, also was ill.
