

GERMANY'S PROFFER IS SENT TO ALLIES

Nations to Act or Put Matter Up to Reparations Body.

COMMENT IS RESERVED

Letter to Governments Call Attention to Cannes Agreement on Cash Payments.

PARIS, Jan. 30.—(By the Associated Press.)—The allied reparations commission decided today to transmit Germany's latest reparations proposals to the allied governments and await their decisions as to whether they will treat the question with Germany themselves or refer it back to the commission to handle.

In a letter transmitted to the German note to the allied governments, the commission asks them to decide as soon as possible whether they will treat the question with Germany themselves or refer it back to the commission to handle. The letter, which will be made public tomorrow, makes no recommendations, it is understood, but merely recalls the agreement recently reached at Cannes providing for the payment of \$1,000,000,000 gold marks by Germany every ten days, pending a decision by the allies on the whole reparations issue.

Members of the commission refused to comment as to whether they were in favor of the proposal or not. The only comment in reparations circles was an expression of regret that the Germans did not state the exact length of time during which they desire freedom from cash payments and the actual amount of money they would be able to pay this year.

A copy of the note was given unofficially to Roland W. Boyden, American official representative to the commission, for transmission to the United States, as the commission is anxious to keep abreast of the situation with the current reparations situation.

MAKING OF RATES BY WHOLESALESAERS CHARGED.

Attack on American Valuation Plan Made at Meeting Called to Urge Action on Bill.

WASHINGTON, D. C., Jan. 30.—The American valuation clause of the Fordney tariff bill "is in reality nothing more than a domestic price clause," which empowers the making of tariff rates to American wholesalers, backed by selfish manufacturers, H. E. Miles of Racine, Wis., chairman of the Fair Tariff League and ex-president and director of the National Association of Manufacturers, declared today before the tariff convention of the latter organization.

The meeting was called to urge immediate action on the tariff bill embodying the American valuation plan. Mr. Miles' attack on the clause followed addresses supporting its principle by J. E. Edgerton, president of the association; ex-representative William E. Humphries of Washington and ex-lobbyist James N. Gillette of California.

A resolution was adopted urging that the provision in the pending Fordney tariff bill be retained that provide for American valuation by American appraisers in America.

MISSING YOUNG MAN IN CITY FOR TIME

O. S. Edington of Corvallis Here Recently.

STRANGE CONDUCT NOTED

Friends Believe Government Aid Man Who Was Hurt in Mishap Is Suffering Mentally.

CORVALLIS, Or., Jan. 30.—(Special.)—Oliver S. Edington, a young man residing on Brook Lane who had been missing from his home the past two weeks, has been heard of in Portland, where he spent some time in St. Vincent's hospital recently. No particulars of Edington's condition came with the information.

Edington is a government aid man and in recent weeks had been employed on one of the poultry farms of Oregon Agricultural college. He had sent to Forest Grove for his wife and baby, who were with Mrs. Edington's parents there, and when Mrs. Edington arrived at the Corvallis home she found it vacant. On the table was a letter written to Edington from Portland saying: "Kindly communicate with me at once," and signed "A. J. Rahmer."

Mrs. Edington made inquiry and informed the Corvallis police at once. A search was made for the young man but without result until Portland authorities located Edington in Good Samaritan hospital. Edington had left his work at the college twice before without obtaining permission from those in authority and had returned recently, together with the fact that he had been injured in an automobile accident some time ago and had complained of headaches, gave rise to the theory that he was suffering mentally.

Mrs. Edington and the baby are with her parents at Forest Grove, the father, E. E. Rice, coming to Corvallis for his daughter when informed of Edington's sudden disappearance.

HOSPITAL STAY BRIEF ONE

Young Man Treated for Scalp Injuries, Say Nurses.

Oliver S. Edington was received at St. Vincent's hospital January 27 for treatment for minor injuries and was discharged January 29, according to nurses at the hospital. He had been brought in by ambulance from downtown, where, it was said, he had received scalp injuries from a fall when he stumbled on the curb. Relatives from Forest Grove came to visit him January 28 and it is understood that when he was discharged from the hospital he left for that place.

Police records show that Edington was reported missing January 16, inpector Craddock, to whom the case was assigned, said he had found no trace of Edington. It is probable that notification to Corvallis authorities was sent from Forest Grove instead of Portland.

Principal speakers of the evening were Mayor Baker and Gus C. Moser. The mayor urged support of the project which will give Portland an Elks temple. He pointed out the value of such an institution as a civic asset, and appealed to Elks and their friends to buy the \$80,000 worth of bonds for the temple still unsold.

At 11 o'clock, the 2300th member of Elksdom, tribute was paid to the absent brothers by Charles Ringler, past exalted ruler of the lodge, while the lights of the auditorium were dimmed to a purple glow.

5-POWER TREATY FINALLY COMPLETED

Result to Be Announced to World Tomorrow.

PLENARY SESSION SLATED

Agreement Reached at Last on Fortifications in Pacific on Status Quo Basis.

WASHINGTON, D. C., Jan. 30.—(By the Associated Press.)—Text of the five-power naval treaty, to carry into effect the capitol ship settlement, limitations on auxiliary warcraft and the "status quo" agreement regarding Pacific fortifications, was put into final form today and will be placed before the world at a plenary session of the arms conference Wednesday.

Final agreement on the fortifications article, for weeks the only provision remaining incomplete, came after Japan had suggested and the other powers had agreed that the American-Alaskan islands, a part of Alaska, should be included in the area in which no further fortifications or naval bases are to be erected.

As a compromise the provision pledges the powers to maintain in their present status fortifications of the Philippines, Guam, the Aleutian islands and various smaller Pacific possessions of the United States; and that British, Singapore and the Hawaiian do not fall under the prohibition.

Although at first regarded by the American delegation as a part of the American mainland, the Aleutian group was said in American naval circles to have little strategic value in any naval plans of the general board. The Japanese, on the other hand, are understood to have taken the position that the archipelago might become a potential factor in the far eastern situation if it became the site of an American naval base.

HONOR CONVICTS CAUGHT

DESPERATE ATTEMPT MADE TO ESCAPE—2 WOUNDED.

THRILLING PURSUIT HAS STARTLING CLIMAX IN RETURN OF PRISONERS THROUGH SNOW STORM.

ETREKKA, Cal., Jan. 29.—(Special.)—Indifferent to their future, "Blackie" Cameron, Louis Dixon and Abraham Berry, recaptured "honor" convicts, sent to the county jail here after having made a desperate attempt to escape from the road camp at Big Bar, Trinity county.

They were returned to jail early this morning by Guard A. Avila, who had made their capture possible by tracing them until he overtook them on Trinity river.

During the pursuit shots were exchanged and Dixon and Berry received wounds. Both convicts escaped death under peculiar circumstances. In each instance the bullets which struck them followed around the ribs and emerged without inflicting serious wounds. Almost as thrilling as the pursuit of the convicts was the journey from the scene of their capture to this city.

It was begun immediately following a terrific snow storm, and when the Bald mountain district was reached it became necessary for guard and convicts to take to the hills. The convicts were traveling and assisted in forcing a way through heavy snow drifts.
