BONUS BILL CARRIES FIVE-WAY FEATURE

Variety of Benefits for Veterans Outlined.

TRAINING ONE OF PLANS

Ex-Service Man Who Elects to Take Adjusted Pay Would Get \$1.25

of the veteran increased by 40 per cont with interest thereon for 20 years at the rate of 4% per cent a year, compounded annually, pilling up a total obligation at maturity equal to approximately 2.38 times the adto approximately 2.38 times the adjusted service pay. The veteran would name a beneficiary of the certificate with power to change it from time to time. The face value of the certificate would be payable to the veteran at the end of 29 years, or upon his death before that time to the beneficiary.

the veteran would receive \$1.75 for a cach day of attendance on a course of vecational training; with certain deductions for absence, but the total amount paid out by the government would not exceed 140 per cent of what the veteran would have received had the chosen the cash plan of adjusted parameter has

ed service pay to enable him to make improvements on a city or suburban home. Before making the payment the government agency administering this part of the act would have authority to call on the federal farm can bank appraisers to pass on the rability of the investment.

Veteran May Select Lands.

The veteran is given the opportunity under the land settlement pro vision to select a farm unit within a soldiers' settlement project rehaimed by irrigation or drainage, such projects to be selected with a diew of having one or more in each of he states. The voteran's adjusted;

\$250,000,000 CASH ESTIMATE

Sources for Raising Bonus Revenue Will Be Studied Today.

WASHINGTON, D. C., Feb. 8.-A tentative estimate of \$350,000,000 yearly as the amount of special taxes that must be laid to finance the cash feature of the proposed soldier bonus legislation was made today at an executive session of majority members of the house ways and eans committee. The exact amount that is to be determined upon and the sources from which it must come will be taken up tomorrow by a subimittee, headed by Chairman Ford-

Committeemen said it was not the intention to rely on any part either of the interest or principal of the British or other foreign debts in connection with the benus. They said that something around \$259,000,000 a year would take care of the cash payments to be made over the two and one-half years' period beginning January 1, 1923, and that the finding of definite and certain sources from which to obtain this amount was their immediate concern.

The \$350,000,000 estimate, it was explained, was made on the basis of figures presented at public hearings by fiscal officers of the army, navy and marine corps. The figures con-

by riscal officers of the army, havy and marine corps. The figures contemplated 50 per cent of the men who served with the army and 75 per cent of those who served with the navy and marine corps electing to take cash. This figure may be revised as the sub-committee studies the matter.

the matter.

The first question before the tax sub-committee will be that of deciding whether the fax revenue is to come from a limited group of sources or whether the taxes will be spread over a wide field. It was said that there are two schools of thought in the committee. Some members emphasized that it would be the purpose to so arrange the tax programme as to interfore as little as possible with the recovery of business.

There was said to be a drift of sentiment for a tax of possibly one sent a gallon on saseline and also a levy on the transfer of stocks and

Another sub-committee under Representative Green of Iowa will begin tomorrow a study of the original Fordney bill with a view to deciding what modifications, if any, are to be made in it. It was said to be practically certain that the "five-way" programme would be retained, but that some changes in individual plans might be made.

that seme changes in individual plans might be made.

There is little sentiment in the committee now, it was stated, in favor of the suggested decrease in the total amount of cash that might be received by the ex-service men under option No. 1 with a corresponding increase in the value of each of the other four options.

Captain Charles R. Moffatt of the detective bureau said, however, that the Sands description was not a "satisfactory one," having been made up of statements of a dozen or more persons, some of their recollections of the man being quite vague.

Prior to turning the Taylor residence back to the landlord today, the police took another careful survey of the surroundings, making particular note of the arrangement of the rooms and nearby buildings.

The Taylor apartments constitute a unit of a group of eight 2-story white staceo buildings grouped about a tiled court in which palms, flower beds and fountains are artistically arranged. Taylor's place occupies a corner of the court at the furthest extremity from South Alvarado street, upon which the court faced, the general location being about a block from West Lake park, pear the heart of one of the most exclusive residential sections of the city.
