COAL STRIKE DENIED

Mr. Lewis' Statement Starts Wide Discussion.

WAGE SCALE DISCUSSED

Committee Not to Ask General Increase, But to Stand for Present Schedules.

INDIANAPOLIS, Feb. 12 .-- No gen eraf increase of wages for soft coal niners, but the direction of all efforts toward retaining present wage scales, was the policy adopted today by the cale committee of the United Mine Workers of America for submission to the unjon's special convention that begins tomorrow, according to semi-official information received by con-vention delegates.

The committee's report on wage demands to be sought as the basis of new agreements with operators, ef-fective April 1, was adopted finally Arthur (). Peterson at a long afternoon session.

espite the announcement of the rist presidents of the union, their re-ort was understood to include no reposal of a strike, and likewise usds no demand for adoption of the gin-hour day, five-day, week as pro-posed by the demands of 1919.

Fermal Statement Issued.

tion has finished its work, the public will realize this fact."

The committee's decision on the wage policy as interpreted by delegates was that a stand by the union North, Saturday night. On this occato preserve hasic rates of pay announcing primarily the central com-petitive field, would not preclude de-mands for some increase within vari-ous fields. Removal of numerous dif-garage had Peterson's name on it.

ferentials in pay, said by miners' officials to be inequitable, were included
in the committee report.
While the demands, as framed by
the committee and as adopted by the onwertion, will apply specifically to the central competitive field, compris-ing Illinois, Indiana, Ohlo and west-arn Pennsylvania, they will affect the entire soft coal industry in union fields, for wages of the outlying dis-tricts are based on the central field

Present Wages \$1.08 Ton The present basic wages are \$1.08 a ton pick mining in Indiana and Illinois, and \$1.11 in the Ohjo Hocking Valley and the western Pennsylvania bituminous district. Machine mining wage rates are from 7 to 17 cents a from tess than the pick mining wages. Forty per cent of these wage rates was said by union officials to represent increases gained for the miners since 1917, the total amount of increases for pick mining being 44 cents

Aside from the delegates' interest in the wage proposals, considerable discussion was provoked by Mr. Lewis' statement disavowing any desire to provoke a strike. In this connection delegates said that a proposal to back up the demands with a declaration in favor of a strike would be submitted to the convention for adoption.

Delay in the presentation of the committee report on the demands is expected by the attitude of the anti-administration element within the

dent, who refused to order strikers back to work as directed by the union convention last September.

Dallas Friday. This announcement was made by the state highway department here today.

The complaint charges that the Polk county court had no right to appropriate market road funds for the improvement of the state highway, and that the obligation resulting from the construction of the road would exceed that allowed by law. The state contends that the highway to be improved was designated as a state road prior to the time the appropriation was made, and as a result the proceedings were legal. Judge Fipes of Portland has been retained to represent the plaintiffs.

inst night. The charge of explosive bulged one of the safe doors and cracked a plate-glass window nearby. Passersby attracted by the noise of the explosion frightened the yeggs away.

Herbert Burke, 748 Milwaukie street, told detectives who answered the call that he walked past the office and noticed several men near the safe. He thought nothing of it and walked on. He had proceeded about half a block when he heard the explosion and retraced his steps to investigate. He said that he saw three men flee toward Burnside street.

The safe was near the Third-street window, so that Burke must have passed within a few feet of the yeggs as they worked. The yeggs were in plain view from the street at all times. They knocked off a combination knob to make a place to insert the explosive.
