

### MOTOR INTERESTS WANT LAW CHANGE

#### Committee Appointed to Plan New Legislation.

#### STATE MEETING IS HELD

#### Programme Designed to Correct Ills of Present Statutes to Be Outlined.

Motor vehicle interests of Oregon, including bodies representative of automobile drivers and owners, automobile merchants and automotive trades, are to unite in the study of motor vehicle legislative problems and the preparation of a programme of legislation designed to correct some of the ills charged against the present law. This was decided yesterday at a joint meeting of the legislative committee of the Oregon State Motor association, the Automobile Dealers' association of Portland, and the Automotive Trades' association. The session was called by the State Motor association and was held at the Multnomah hotel. During the meeting the three committees were organized into one joint committee and authorized by their separate organizations to prepare a tentative programme of motor vehicle legislation designed to replace the present law.

#### Many Attend Session.

Present at the session, which was held at the Multnomah hotel, were the following: Representing the Motor association, John Hall, George A. Brandenburg, Roy, Charles Hindman, Phil Metchan and A. E. Sharer; representing the Automobile Dealers' association, H. W. Roberts, H. M. Covey, F. W. Vogler and Ralph Stasahl; representing the Portland Automotive Trades' association, Don G. Bates, W. A. Gill, T. R. Conway, Fred Dundee and James Cassell. Mr. Hall, chairman of the Motor association committee, was elected chairman of the joint committee, which will hold frequent meetings during the next month to study the problem of motor vehicle legislation thoroughly. The next meeting will be held next week, at a time to be announced later.

While the present law was held excellent in nearly all details, it was declared at the meeting yesterday that several changes should be made, particularly to relieve second-hand cars of heavy license fees and to allow cities some proportion of road money for street maintenance. It was emphasized, however, that any action taken toward changing the law for roads should not be toward lowering the total sum to be received. Loss which might result from relief of second-hand car should be made up by additional gasoline or other taxes, it was declared.

#### County Gets Money.

In regard to cities receiving some proportion of state road money it was pointed out that at present Multnomah county, along with other counties of the state, receives its share of the state road money. None of this money comes to the city of Portland, however, in spite of the fact that perhaps 75 per cent of the travel in Multnomah county, which is the basis for the money paid by Multnomah county motorists into the state road fund, is within the city boundaries. The city of Portland should receive a substantial share of the road money now coming to the county for maintenance of city streets, it was argued.

A resolution was adopted asking the commercial car interests to study motor vehicle legislation from their point of view and to draw up a tentative programme, with the idea that later the passenger car interests represented by the session yesterday and the commercial car interests could get together and work out a joint programme. After such a programme has been prepared it may either be presented to the people directly as an initiated measure or presented to the legislature in the form of a recommendation, it was stated.

### CHICKEN SELLER HUNTED

#### DEPUTIES GET WARRANT FOR CLARENCE GRAHAM.

#### Disposal of Spoiled Meat in Public Market Charged on Complaint of Buyers.

Clarence Graham was sought yesterday by deputy sheriffs on a charge of selling spoiled chickens in the public market. It was believed his arrest might throw some light on the disappearance of 48 hens and five roosters from the hen roost of Mrs. M. E. Herrin, near Gilbert station, on February 22, because of unusual circumstances in connection with the sale of birds on the market.

Graham rented a stall last Saturday and shortly after Marketmaster Eastman received complaints that spoiled birds were being sold and a warrant was issued. Graham was not to be found, but Tuesday Eastman and Deputy Sheriff Calkins saw him at the market in an auto. Before they could intercept him he drove away and his machine was traced to First and Alder streets. After watching it until midnight Deputy Sheriff Wilson took the car to a garage. There had been chicken-skin sacks in the rear of the machine.
