## **VETERANS** PIN BADGE OF ORDER ON JOFFRE

Hero Made Life Member of Over-the-Top Post.

### CEREMONY IS IMPRESSIVE

Marshal Flashes Heart-Warming Smile as Medal Is Added to Great Collection.

Marshal Joffre of France, miracle man of the Marne, became Comrade offre, life member and past commander of Over-the-Top post, Veterans of Foreign Wars, last night. His initiation into the Portland branch of the great American brothermood of war veterans was a memor-able feature of an impressive recep-tion tendered the beloved idol of the antente ailies by 5000 enthusiastic Americans at the armory.

After the marshal had been wel-comed by Governor Oloott, Mayor Baker and other speakers, Colonet James J. Crossley, commander of Portland Post No. 1, American Legion, presented the marshal with a golden plaque, engraved as a memento of his visit here. Then Captain George E. Sandy, commander of the local chapter of the Veterans of Foreign Wars, announced in a brief address that Marshal Joffre had been elected to life membership in the veterans' order with the rank of a past commander.

Decoration Pinned on Cont. Captain Sandy stepped in front of the Marshal and pinned on the famous visitor's coat, beneath the French Medaille Militaire, Croix de Guerre-with palm, and Distinguished Service medal, the decoration of the Veterans

of Foreign Wars.

The marshal flashed his heart-warming smile as another medal was added to his collection, which includes all the highest degorations of a score of nations. He shook hands with Captain Sandy, while the spectators jumped to their feet, applauded, cheered and whistled their approval of the simple but inspiring ceremony. The snowy-maned lion of world war history received a thunderous ovation when he rose to respond to the wel-come of Oregon. His kindly face, lined by a lifetime of exacting cam-paigns, beamed with the spring-time light in his somewhat tired eyes as he spoke in French which was translated for the crowd by Major U. S. Grant, American attache of the Joffre party. "During the great war the American army came to our aid against the aggressor who desired to seize our country," said the marshal through his interpreter.

Friends Still Needed.

### Dandruffy Heads Become Hairless

If you want plenty of thick, beautiful, glossy, silky hair, do by all means get rid of dandruff, for it will starve your hair and ruin it if you

It doesn't do much good to try to brush or wash it out. The only sure way to get rid of dandruff is to dissolve it, then you destroy it entirely. To do this, get about four ounces of ordinary liquid arven; apply it at night when retiring; use enough to moisten the scalp and rub it in gently

with the finger tips.

By morning most, if not all, of your dandruff will be sone, and three or

four more applications will completely dissolve and entirely destroy every single sign and trace of it.

You will find too, that all itching and digging of the scalp will stop, and your hair will look and feel a hun-dred times better. You can get liquid arvon at any drug store. It is inex-pensive and four ounces is all you will need, no matter how much dan-druff you have. This simple remedy never fails.—Adv.

She is a charming young French girl, red lipped, with wide apart grey eyes that smile and a lot of hair, the color of ripened wheat, which she tucked neatly into a close-fitting motoring hat. She is tall and generously proportioned, while Madame has what must have been a perfect French hour-glass figure some 20 years ago. With the passing of years the hour-glass lines have become comfortable curves, but the spirit of youth shines undimmed in her expressive eyes and her low, deep, throaty laugh has the quality of a

The truth is that if a smart effect is achieved by Paris designers it may be appropriated here designers it may be appropriated here or elsewhere, not because it is Parisian, but because it is smart. American women are not like sheep, to follow blindly after a certain style or fashion. Of their own initiative I notice they take tucks or let out tucks to suit their own individual style and that is what I admire. Designers and modistes contribute to the sartorial ensemble of any community, because they are continually experimenting, and naturally some of their creations prove of merit and are acceptable. That is all there is to it. The real dictators of fashion are fashionable women themselves. From what I know of my own countrywomen and from what I have seen of American women it will be a long time before they consider any returnto the unsanitary clothing of a half century ago. Marshal Joffre's aides were colorful indeed, in bright horizon blue uniforms and plenty of decorations. Unfortunately they did not speak English, nor understand it very well.
