AN IMMIGRATION HOLIDAY.

The views of Municipal Judge Rossman, who has observed the operation of the so-called melting pot court bench, coincide with those of have been able to operate." sioner to Europe, Mrs. Alexander P. been able to make paying voyages at Moore, better known as Lillian Russell, who has just returned from line. Mrs. Moore finds from her ob-"the immigration of recent years has been from the class of people which of the same size. arrests rather than aids the develop-ment of any nation." Judge Rossman says: "Our melting pot is not melting. . . . Police records, carefully checked by myself, show that nearly one-third of all the per-

ference are plain. It is better, says President Hardenvoy, to put out the fires under the melting pot, which has boiled too quickly and is running over, and allow its contents to solldify before adding more raw material. Nearly all the moonshiners, narcotic peddlers, and others of their 11k, observes the Portland jurist, are persons born across the water. Again correspondence of findings which is in all probability more than a too, that neither commentator deto understand the laws of this country-there is agreement upon this point-it is thought that the incidence of crime can be reduced. It is confession of weakness for which there is need to be ashamed; only a plain statement that the capacity of the melting pot has been

Never in the history of the world has an institution been so heavily taxed. There is no counterpart in all the ages for the movement which has brought to America from foreign ands a total of 34,435,332 allens in a century, a number equal to practically a third of the entire present population. There seems to be sound reason for the statement that "if we not put up the bars and make them higher and stronger, there will no longer be an America for Americans." So Miss Russell believes, after having inspected the immigrant of the present at his port of

Miss Russell urges an immigration holiday of about five years. Yet she realizes that this may work hardship in individual instances. It would prevent the reuniting of families in cases where some members have al ready come to the United States and it would in some particulars check the flow of desirable immigration The alternative of more drastic supervision in the countries of origin seems reasonable, if practical details can be worked out. Undoubtedly it would be well if consuls might b authorized to refuse to vise all unfit persons, though this would involve strengthening the consular service and furnishing it with the personnel physical condition of the alien ought of course, to be ascertained, but it is still more essential that his moral health should be up to our standard. In a peculiar sense the immigrant of 1922 is on the defensive. and Italy are cited by the former actress as illustrious examples of countries where every able-bodied patriot is at work, and it is easy to believe that "most of those now coming here have little of the inabroad." Those regarded as useless in the reconstruction of their own lands are the ones most likely now

The percentage system by which admission of aliens is now regulated is good only so far as it goes. I: needs to be supplemented by some method by which quality as well as quantity can be controlled. This is a matter of administrative detail, bu It is requisite that we shall take at least as much pains to determine the minate in "tong murder" lies far back they should undertake to form a nature of our future citizens as we in the remote recesses of oriental now take in regulating the impor- character, beyond reach of the de- tinct programme without repudiat- other night in being able to flee "in tation of plants and livestock, which ductive methods of the most ad- lng and attacking much that their night attire." Those Who Come and Go.

Tales of Folks at the Hotels.

Some day not so many years hence, the cottages will be clear over ghost-infested house the hill, built solid to Ecola, where might be due in part of the Inland Empire have found Seaside fascinating and are buying in that city. Eight years ago Mr. Cole arrived at Seaside from New York and decided to remain. In his youth he was a printer, in the days when type was set by hand and when youth he was a printer, in the days when type was set by hand and when tramp printers ambled into print tree tops is likely nothing more than shops, worked a few days and ambled off to the next town.

"Sugar is the most important staple in the grocery business," declared F. O. Burns of Salem, district manager for a chain of grocery stores, while in the Benson yesterday. "Sugar takes recedence of everything else and eople judge a store by what the store harges for sugar. Grocers rarely under Little Wound through the bad harges for sugar. make money on sugar, for this article lands of South Dakota in the winter is always used for a fight. I don't of 1890 and 1891 as a member of know why sugar has been selected company H, 2d United States infantry, instead of half a dozen other stapies. My discharge says I was on a caminstead of half a dozen other staples, but the fact remains that sugar is where the battle rages and where it always has." Mr. Burns says that retailing groceries is the most precarious business in the world, for statistics show that about 90 per cent of the men who start retail groceries go broke. The cause is attributed to charge accounts and deliveries, and the way for a grocer to get ahead of the same is to sell for cash and have under this law. I am of the opinion

Parrot Makes a Remark.

A man who believed he knew all about parrots undertook to teach what he thought to be a young mute bird to say "Hello" in one lesson. Going up to its cage he repeated that word in a clear voice for several min-utes, the parrot paying not the slight-est attention. At the final "Hello" the bird opened one eye, gazed at the man and enapped out: "Line's busy!" Newport, Oc.
