THE MAN pictured above is JOSEPH P. DAY, L the nationally known real estate expert. He has sold more real estate at auction than any man in the world. He knows that a house heated with American Radiators sells or rents for much more than a house heated by a hotair furnace or stoves.

## Read his letter:

"One of the first things the buyer of a house asks about is the heating. An ARCOLA hot-water heating outfit can easily add from three to five times its cost to the selling value of the house."
