MAGIC BOOK PRAISED
VALUE IN TEACHING ART TO CHILDREN IS CITED.
Assistant City School Superintendent Lauds Feature Arranged by The Oregonian.
"The Invisible Color Book should have the same value for children as the teaching of art in the schools," said C. A. Rice, assistant city school superintendent, yesterday in discussing the new magic color book, which will be a Sunday feature in The Oregonian for boys and girls.
"The pictures are unusually artistic and in applying the water with a brush to bring out the colors, the children will receive the benefits of unconsciously absorbing some knowledge of color and line. Since the pictures show so many different colors, after being brushed with water, the children will learn color combinations also."
Mrs. Frank J. Kane, president of the Irvington Parent-Teacher association, who is interested in all matters pertaining to the proper education of children, comments particularly the high standard of the pictures, when she saw some advance copies. Mrs. Kane was particularly interested in speaking of the constructive character of the pictures and the entire absence of objectionable features of any sort.
"The pictures are beautifully done."

The Danger Point
in trying to save on painting
Repairs Cost More Than Paint
WHEN the paint on your property begins to check and crack, it is time to paint again. Unless your house is protected by a smooth, elastic film of durable paint, decay will set in and rapidly depreciate it.
Decay is expensive and wasteful. Price lumber alone, to get an idea of what it will cost to repair or rebuild. Paint saves this cost.
The best paint is the most economical in the long run. It spreads easily—saves labor cost. It covers a larger area per gallon than "cheap" paint.
But most important, the best paint serves five or more years longer than "cheap" paint.
We have been making the best paints for 73 years. They are scientific in formula and preparation. They meet the weather conditions in the West.
They contain the finest materials—PIONEER WHITE LEAD, pure linseed oil, pure zinc and pure colors—combined scientifically in exact proportions. They are the best paints we know.

Keeping A Rosy Complexion
And A Clear Smooth Skin
What Millions Of Women Do.
Medical science says that each one of the billions of red blood corpuscles in your blood stream must have iron or your blood becomes pale, thin and watery. Your lips and cheeks also lose their color, then your stomach, kidneys, liver and heart become weakened, your intestines do not act properly, poisons may be absorbed into your system and your skin thereby becomes rough and muddy looking; dark circles may appear under your eyes, your cheek and facial muscles and tissues shrink, hollows may appear, and you may even look several years older than you actually are. To say the least, the freshness of your youthful beauty is gone.
It is estimated that at least one woman out of every three who meets lacks 100% iron in her blood and is more or less affected thereby. A many cases in addition to the loss of their beauty, they become weak, nervous, unstrung and may be afflicted with melancholia or the blues, or suffer the terrible torments of nerve force exhaustion.
Nuxated Iron is guaranteed in every case to furnish your body with true red blood food which your blood must have for you to be strong, healthy and vigorous. It is the iron in your blood that puts the color in your cheeks, helps clear up your skin and gives the healthy glow of health to your complexion. It has been used by millions of women. Get a bottle today, take it for two weeks, and if you have not joined the ranks of the thousands who have obtained most surprising health, strength and energy from the use of Nuxated Iron, the manufacturers will promptly refund your money.
IRON IS A SECRET OF BEAUTY AND HEALTH OF MILLIONS OF WONDERFUL WOMEN.
