R. H. BURNSIDE HEADS PORTLAND Y. M. C. A.

Lumberman Elected at Directors' Annual Meeting.

DEVELOPMENT IS NOTED

W. M. Ladd Retires After 27 Years Service and Is Chosen President Emeritus: Leaders Developed.

Ralph H. Burnside, president of the Willapa Lumber company and prominent in Y. M. C. A. work for many years, resterday was elected president of the Portland association at the annual meeting of the board of directors. He succeeds W. M. Ladd, president for more than 27 years, who requested that he be not re-elected. Mr. Ladd was chosen president emeritus in honor of his long service.

The other officers—E. B. Mac-Naughton, vice-president; S. A. Brown, treasurer, and A. L. Veasie, recording secretary—were re-elected.

Mr. Burnside for many years served as president of the Y. M. C. A. at Oskaloosa, Iowa, where he still has lumbering interests. Under his leadership a new building was constructed for the association there. He is an elder in the Westminster President of the portland Chamber of Commerce.

Mr. Burnside's Work Lauded. Ralph H. Burnside, president of the Default Decrees Given and Seven

Mr. Burnside's Work Lauded. Mr. Burnside's Work Lauded.

"Both Mr. Burnside and I came from Iowa and I knew of his relationship with the Y. M. C. A. at Oskaloosa and the valuable work he did there," said H. W. Stone, general secretary of the Portland association, commenting upon the election, "Oskaloosa, though a comparatively small city, turned out some of the strongest association men in the United States. They were trained for large service in other fields."

more than 15 years. Leaders were developed through appointments on committees first and then on the board, giving this directing body several new members each year.

The board of directors in session consists of A. J. Bale, F. C. Knapp. A. M. Smith, B. C. Darnall, D. A. Pattullo, E. C. Bronaugh, S. W. Lawrence, E. L. Thompson, W. A. Goss, C. H. Parrington, Fred Lockley, F. R. Kerr, J. E. Wheeler, E. S. Collins, B. S. Huntington and O. W. Davidson.

FOR COUNTY FAIR USES.

Schedules and Premium Lists to Be Distributed by Oregon Ag-

products and the other for livestock and poultry, will follow as soon as they can be prepared.

The score card was written by Mrs. Jessis D. McComb. in charge of home economics extension for the extensions service. It is published for women who are interested or may become interested in exhibiting cooking, sewing and other household products at fairs in a manner to get the educational as well as the prise-winning points before the general nublic.

A premium list to be put into the hands of the county fair secretaries already has been prepared by Mrs. McComb. decisioned to eliminate numerous entries that have little or no educational vatue. It is further suggested that to get the greatest good from these displays, judges should explain the points on while the wards are made, as is done in placing livestock and farm crops.

Another factor of successful display brought out in the score card is right classification. Each class should be displayed as a group.

CONGESTION IS RELIEVED

Phone Toll Wires Strung Between Portland and Hood River.

Through the stringing of three nev

Portland and Hood River at a total cost of \$25,000, the Pacific Telephone and Telegraph company, announced yesterday that it had afforded relief to the congested condition which has existed by wire in the Columbia river gorge since war days. Another improvement has been made through the construction of a new pole line from the Base Line road to Fairview and the tapping of six new copper circuits from Gresham to Portland on the Sandy road main lead line at a cost of

\$10,590.

For more than four years Hood River's use of toll lines between Hood River and Portland has had the effect of delaying through calls from eastof delaying through calls from east-ern and central Oregon to Portland. This condition has been improved through the addition of the new cir-cuits, according to the company. The company also has replaced several short stretches of Iron wire with cop-per wire. Gresham wires were for-merly all iron and were brought to Portland along the Base Line road pole system, which has been abanole system, which has been aban-
