LODGEMEN GET SITE FOR GREAT TEMPLE

Masons Now Own St. Helens Hall Property.

FORMAL TRANSFER MADE

Deal That Had Long Been Hanging Fire Closed; Episcopal Diocese of Oregon Seller.

property.

The property consists of a full block 200 by 200 feet. Until a few years ago, when a fire occurred, it was the home of St. Helen's hall. The

It is planned by the Scottish Rite bodies of the state to erect a hig tem-ple on the newly acquired property. Plans already have been drawn, but there is no definite information re-garding the time when building will start. Mr. Wright said the proposed temple would cost between \$800,000 and \$1,000,000 and would be one of the finest of its kind in the country. The Scottish Rite bodies of the state have grown so rapidly that the old temple now in use on Morrison and Lownsdale streets is entirely too small. When a new attracture is

Coos County People Plan New Scenic Coast Range Loop.

mote a scenic Coast range loop, which cannot be excelled anywhere in the world for natural beauties, according to Charles Anderson, secretary of the North Bend chamber of commerce, who was in the city attending the hotel keepers' convention Saturday.

Four highways would figure in the loops as mapped out by Mr. Anderson and that it is a possibility is very reasonable because two of the roads have been constructed, the third is being built and the fourth is to Coos bay by the new Douglas county highway, being completed from Roseburg to Myrtle Point, Camas valley and Coquille. From Coquille to Marahfield and North Bend the road is paved. Across Coos bay the new Rosevelt fiery is to be taken and the Rosevelt fiery is to be taken and the Rosevelt fiery is to be taken and the Rosevelt highway followed up the coast to Florence, and thence the Eugene-Florence road to this city.

Smoke Overcomes Surgeon

Polk County Itemizer.

While an operation was being performed on a little daughter of Mr. and Mrs. C. C. Campbell, who reside a short distance cast of Dallas, at the hospital Sunday night by Drs. L. A. Bollman and V. C. Staats smoke was noticed coming from the instrument room adjoining the surgery. Dr. Staats investigated one found the sterilizer, heated by a kerosene stove, in flames, He closed the door to keep the smoke from entering the surgery room and attacked the flames with a fire extinguisher. The smoke from the burning oil was so dense that he was overcome.

Grays Harbor this year than in any previous season, according to G. P. Halferty of the Sea Beach company. Adverse weather last year out the pack to a low figure during March and April. The May pack equalled that of the other two months. The same experience is predicted this year by Mr. Halferty.

FOUNTAIN PEN.

from the burning oil was so dense that he was overcome.

Not hearing anything from Dr. Staits for several minutes, Miss Mynoti, the matron, investigated and found him on the floor in a semi-conscious condition. She dragged him out into the fresh air and administered restoratives and in a short time he recovered sufficiently to assist Dr. Boliman in completing the operation.

operation.
The fire, which was confined to the burning oil of the sterilizer, was ex-tinguished before it had spread.

Sugar Beets to He Grown.

Sugar Beets to Be Grown.

East-Oregonian.

The raising of sugar beets to supply the Utah-Idaho Sugar company is an experiment which will be tried at Stanfield in the hope that the beets, which thrive best in rather heavy irrigated soil and which resist alkali, can be grown successfully. Manager Rosenfeld, manager of the Walla Walla district of the sugar company, and Fred Bennion left today for Stanfield with enough seed to plant several small tracts. The first growths will be used for extending the crop. The beets are shipped to the company's plant in Toppenish and Takima, Washington, there being no factory in Oregon. The raising of beets in the Walla Walla valley will be extensive this year because of the reduced cost of labor.

Creamery Installs Pumping Plant.

Independence Enterprise.

An eight-inch drilled well with a capacity of 500 gallons per minute has been completed for the Independence grawing sol. It is equipped with a 200-gallon contribugal pump, but is said by H. H. Buckner, who did the work, to have 500-gallon capacity.

Bogus Dollars Circulating,

Mediord Mail-Tribune.

James Beddingfleid was swindled to the extent of 51 when a man made several purchases, handed him a bright new dollar and walked out. A number of bright coins are in circu-

lation in the city, as the high school students are in the habit of coating them with mercury. The man had been gone for some time when Mr. Beddingfield became suspicious of the coin and weighed it. It weighed just a little more than half as much as a regular deliar.

Tacks Strewn on Highway.

Corvaills Gazette-Times.

Some unhung scoundrel with no
ove for the automobilist sprinkled a
ox of large-headed tacks on the Albox of large-headed tacks on the Al-bany road just north of the city Sun-day night, and to make sure that they would puncture the larger number of tires he set the tacks on their heads. Byron Taylor happened to stop his machine in the road near the little fill just outside the city limits this morning and noted one or two of these inch-long tacks. The fact that they stood up and were in the wheel rut caused him to look further, with the result that he picked up more than a handful of the tacks all stand-ing up.

Auto Overturas, Girl Hurt,

The Scottish Rite Masonic bodies of Oregon now own the old St. Helton's hall property on Vista avenue, between Park avenue and Main street. The deal which transferred the property from the Episcopal dioesse of Oregon to the new owners was made Tuesday for a consideration of approximately \$125,000 in cash and property.

Auto Overturns, Girl Huri.
Albany Demoorat.
Miss Velma Gearhart of Crabtree sustained painful and possibly serious injuries, it is reported, when an automobile which she was driving was overturned on the road to Albany. Charence Rucker, who was also in the machine, escaped without in jury. The accident is said to have been due to a front wheel which colleged and precipitated the machine, upside down, into the ditch at the roadside. Miss Gearhart was pinned beneath the wrecked automobile.

Eugene Elks Coming Here.

years ago, when a fire occurred, it was the home of St. Helen's hall. The Scottish Rite owned ten lots on Cedar hill, just above the St. Helen's hall property, and these, with \$65,000 in cash, were transferred by the Massons for the new site.

A. M. Wright, who, with Joseph Simon and B. H. Nicoll, represented the Scottish Rite in the transaction, said yesterday that the houses would be moved from the St. Helen's hall property to the church secently acquired lots on Cedar hill.

For a long time the deal for the property had been hanging fire, due to the fact that there was a question whether the original deed of the property to the church would permit the ground being used for other than school purposes. This legal question was at length adjusted by attorneys for the church would permit the ground heing used for other than school purposes. Bridge Material Arrives.

Aberdeen (Wash.) World.
Material for construction of the
South bay bridge has arrived from
Chicago and part of the "jack-knife" and Lownsdale streets is entirely too small. When a new structure is erected on the St. Helen's hall site it will be of sufficient size to accommodate the lodges for a long period.

Span will be assembled here by S. A. Chalmers, expert bridge builder of the Scherzer Bridge company, and floated to piers at South bay. The bridge will cost \$15,000. The contract between the company and the country to be the second contract between the company and the country to be the second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the company and the country to be second contract between the contract between the company and the country to be second contract between the company and the country to be second contract between the contract between the company and the contract between the company and the contract between the contract betw between the company and the county calls for completion of the bridge by May 15, but county commissioners stated it will take at least a month to boit and install the span. The company will pay the county \$20 a day for every day after May 15 until the bridge is completed.

Corvallis Shriners to Visit.

Eugene Guard.

With the completion of the highway between Reseburg and
Coos bay this week and the starting
of the Roosevelt ferry today across
the bay, the people of North Bend
and Marshfield have begun to promote a scenic Coust range loop, which

Pullet Egg Has "Walst Line."

Bend Bulletin.
A freak double-yolked egg, the largest as far as is known ever laid by a ten-months-old pullet in central Oregon, was exhibited in Bend by W. W. Sturges, postmaster at Alfalfa.

ABERDEEN, Wash., May 16.—(Special.)—More clams will be packed on Grays Harbor this year than in any previous season, according to G. P. Haiferty of the Sea Beach company.
