## COFFEE MARKET IN

a further increase weekly for some time, and this should have a tendency to cause somewhat lower price isvels.

The warm weather in egg producing sections in the past few days has caused a better demand for more eggs from northerly sections and less inquiry for the eggs from the southern status. It is estimated the reserve stocks in storage at present time are somewhat heavier than a year ago, and with the general quality now showing the effects of warmer weather, the tendency of the market may be lower. It is important that producers gather eggs daily, keep them in a cool place and market them frequently.

Prints Will Be Quoted One Cent Higher-

Market Is Strong. The butter market is strengthening at a time of year when a decline might nor-mally be expected. The make is steadily increasing but offerings are not equal to the demand. In addition to the inquiry from outside points, there is local storing. Prints will be advanced I cent a pound this morning to the 3S-cent basis and there will be a greater rise in butter fat. des were strong yesterday at 31@34c, and cleaned up easily.

The feeling in the egg market was in-elined to be easier and buying prices were reduced I cent by some of the larger op-

hand. Light hens were lower at 20 cents.
Brollers had a wide range, ordinary offerings selling at 20@25 cents and large,
colored brollers at 30 cents.
The bot weather had a very depressing

NEW YORK, May 16.-Raw sugar, cen trifugal, Porto Ricos, \$3.92; Cubas, \$4.04; refined, fine granulated, \$5.30@5.50. SAN FRANCISCO, May 16 .- California-

Hawalian raw sugar \$4.04. Lemon Advance Is Under Way. Lemon prices have started upward. Since Friday, California quotations have been advanced \$1.50 a box and this will soon

mand from the east is stimulating the southern market.

Florin strawberries sold lower at \$3.50@

\$.75. There was a moderate supply on the market, enough at these prices.

Local asparagus was plentiful and cheaper at \$1.50@1.75 a dozen.

Bank Clearings. 

India—The outturn of wheat in the Puniaub is excellent, much better than expected.

FLUSH EGG PRODUCTION IS OVER

Lower Tendency of Eastern Markets is Expected.

Every day is "awat the rooster" day on the farm now, causing a free marketing of old roosters. This will probably continue for a periad of from two to four weeks, says the produce review of Swift & Ca. of Chicago. The marketing of old mens also is increasing, due to the fact that in most sections the filtsh egg production is over. There is a good demand for all dressed poultry, which should keep the market on a firm basis for some time. Production of butterfat is new increasing rapidly and as a result there has been a free movement of creamery butter to the large market, causing prices to react to a lower basis. The production should show a further increase weekly for some time, and this should have a tendency to cause one what lower price isveis.

## Revising Your Holdings

DIFFERENCE WHERE YOU BUY YOUR BONDS

No bond, not even the bonds of the soundest government on earth, should be locked away and forgotten! Not that their safety may become imperiled; but conditions beyond anticipation may make the bonds you hold less suited to your needs than others which can be obtained by exchange.

The successful investor doesn't permit his investments to "sleep." He constantly revises his holdings. He takes a profit here; he increases his income there. He lengthens or shortens his maturities as conditions dictate. He exchanges unsuitable bonds for suitable bonds. With every move he strengthens his investment position.

Yet, his investments may require but little personal attention. It is the business of the bond house to take the initiative in recommending transactions to strengthen, the investment position of its clients.

The specialized services of a good bond house, based upon thorough knowledge and experienced judgment, may mean dollars in your pocket-in guiding your decisions into proper
