

# EAST IS RECOVERING, SAYS ERIC HAUSER

## Cities Are Shaking Off Their Chains of Depression.

### PROSPERITY SIGNS NOTED

#### President, Invited to Portland Rose Festival, Manifests Keen Interest in Coming Event.

Cities in the east are slowly but surely shaking off the chains of depression and regaining prosperity, according to Eric V. Hauser, president of the Portland Rose Festival association, who returned to Portland yesterday from Washington, D. C.

Mr. Hauser carried to Washington the board invitations bidding President and Mrs. Harding attend the Portland Rose Festival. After presenting the invitations Mr. Hauser went to New York, Philadelphia, Chicago and St. Paul, stopping in each of these cities for a few days.

"The east has been hit by more severe depression than we suffered in the west," Mr. Hauser said. "Breadlines have been common things throughout the east. Industrial plants have been closed for months and those that continued operation did so with reduced forces and naturally reduced output."

#### Better Conditions Noted.

"But signs of returning prosperity can be seen on all sides. It is not the prosperity that existed during the war, but a healthy, normal condition."

"Factories in the east are reopening, public work is being ordered for contract and the railroads are beginning to plan for rehabilitation of their properties as well as extensions."

"The return of a new era of prosperity will be slow, according to men who have had a long experience of the situation, but it is returning."

Mr. Hauser said that while President Harding could not avail himself of the opportunity to visit Portland during the Rose Festival, he was so pleased by the invitation that he offered to name a representative to attend in his stead.

#### President Is Interested.

"The president gave the Portland delegation a hearty reception and manifested keen interest in the Rose Festival," said Mr. Hauser. "He indicated that he probably would visit Portland and the northwest some time this year."

"Secretary Denby assured our delegation of battleships for the festival, and he, too, had heard a great deal about Portland's Rose Festival."

"In fact, we heard in the east, we found that Portland has benefited by the festival. People know of our city through the festival and the Columbia River highway."

"The 1925 fair has had much advertising, and the people in the east are awaiting news on how this project is to be handled."

### Good Stories Started From Northwest Exchanges.

#### Pony Express Race Big Feature of Canyon City Celebration.

TWO Canyon City strings and two from Wasco county have been entered to date in the pony express race between the Dalles and Canyon City which will be started June 8, as a feature of the Canyon City gold discovery celebration, says The Dalles Chronicle.

The Wasco county entrants will be A. H. Moe of Dufur and J. B. Maddron of Wapinitia, while Claude Crosby of Canyon City and Bert Rice of Grant county are listed from the other end of the circuit.

Moe will ride his own string and Maddron, or his son, will ride his horse. The race will start in front of the Chronicle office at 1 o'clock in the afternoon of June 8, the entries departing at 15-minute intervals. Three more strings are expected. This will mean 49 horses, as there are six relay points after the start is made.

The Standard Oil company has had representatives canvassing eastern Oregon and Washington to get a line on the number of machines to be expected at Canyon City and supplies are being assembled to care for at least 800.

Juanita Miller, daughter of the late Juanita Miller, poet of the Sierras, who was an early-day newspaper proprietor at the gold camps, will attend the celebration which begins June 8 and extends through the evening of June 10.

The Wells-Fargo Express company will send three of its veteran mailmen that was a part of the equipment of the days of the Pioneer rushes into the mining sections will be used to handle the money in the "bank" and other antique paraphernalia that was a part of the equipment of the days of the Pioneer rushes into the mining sections will be used.

The winners of the pony express race will be paid in gold dust, \$1000 worth of it. The precious metal will be weighed by the Wells-Fargo agents and packed in buckskin pouches for presentation.

#### Salmon Shipment Successful.

J. A. Fauley of Caneman is one of

### FISHING SEASON LURES TO MOUNTAIN STREAMS

"Well, well, Tom! How's the fisherman? I hear you took advantage of the opening of the season and went out on a fishing trip last week. Good luck, I hope."

"Yes, great luck. Oh, boy, it's wonderful this time of year up in the Mount Hood country. While I could have stayed six weeks instead of one short one."

"Say, you're darn lucky to be able to leave for that length of time. Would like to get away myself and take a chance with my new rod, but guess I'll have to wait until later in the summer."

"I'm not so sure when I'll be able to take another trip myself. It does cost a lot more than a man plans on. And now the wife is howling about my clothes. Says I need a suit, and a whole outfit. I guess I do, but that will take a lot of perfectly good money I had planned to use on a fishing trip now and then."

"Oh, don't let a little thing like money bother you. Take shorter fishing trips. Don't go so far, and get your clothes, too. Say, did you know a man can get a dandy suit at 24 Morrison street on credit? Cherry's 'great place. Strictly convenient terms, too. Take elevator."—Adv.

the big boosters for the chinook salmon of Oregon, and has this season forwarded some extra large fish to eastern points that have reached their destination in excellent condition, says the Oregon City Enterprise. One of the chinooks was sent to Chicago, packed in ice to Mr. Fauley's brother-in-law, David Stevens. He spent an entire day exhibiting the 40-pound salmon. Mr. Stevens celebrated by having a number of his friends at a big meal at the Hotel Westmont. The salmon was displayed while the dinner was being served. Another salmon was sent to Seattle, where R. L. when a friend, P. L. Murray, was the lucky man, and while a third was sent to Mr. Fauley's son, Gordon Fauley, student at the University of Chicago. This was a 25-pound salmon caught by Mr. Fauley. Students of the university feasted.

#### Grays Harbor to Get Airplane.

Captain Walter Smith of the Grays Harbor Aero Transit company expects the big plane the company has purchased to arrive about the end of the month. The plane is being built in Seattle and will carry ten passengers besides the pilot and mechanic, and have the latest design for convenience. It also will have space for considerable baggage with a lifting power of 1000 pounds. Captain Smith says it will be the best and finest equipment possessed by any company on the Pacific coast.

#### Wool Crop Nearly All Sold.

The 1922 wool crop of the Umatilla region, with the exception of three or four clips, has been sold, the date of sale being earlier this year than for many years in the past, says the Pendleton correspondent of the La Grande Observer. The general price paid was from 23 to 29 cents for coarse wool and 35 cents for fine. In the past it has been the custom of growers to wait until the wool sales in the latter part of May, but this year the tendency to sell has been general.

#### Tunnel to Tap Sunken Lake.

Thirty citizens of The Dalles were guests the other day of the Goldenrod chamber of commerce and were taken on a tour of the rich farming country adjoining Goldendale, and on a visit to the irrigation project fostering by Goldendale business men, in which a tunnel is being driven through the side of a mountain to tap a sunken lake. In the evening a banquet was given to the visitors. The Dalles Chronicle says everybody who made the trip is singing the praises of Goldendale and the hospitality of its people.

#### Newport Urges Road to Siletts Bay.

A delegation of Newport citizens is urging the immediate construction of a road from the county seat to Siletts Bay, bonds for which were voted in June, 1921. The delegation was composed of Al Kirkland, L. C. Smith, J. Van Wassenhove, Dr. R. Hendry, Dr. Belt, L. W. Williams, H. H. Anderson, F. Jones, May Charles Doper, Tom Horning of Otter Rock and F. W. Gertulla, canneryman of Knappton.

#### Road Building Work Started.

Road construction in Umatilla county for 1922 is well under way, according to a statement by County Judge Schannep to the Pendleton East Oregonian. The Butter creek road, from the Morrow county line to the Maywood Madison place, is finished. The contractor who secured the job on the Pilot Rock to Butter creek road is moving in equipment. Some preliminary work on a stretch of market road already is under way, and another stretch of road will be under construction within a short time. The general contractor is the company of Spokane who do the work.

#### Grant County Law-Abiding.

The present term of court in Grant county was a short one. There were no criminal cases and all the civil cases were settled out of court. During all the experience of Judge Biggs on the bench this never has happened before in Grant. Harney or Malheur counties, says the Blue Mountain Eagle. This shows the people of Grant county are peace-loving and law-abiding, and is a record of which they have a right to be proud.

#### Divers Going After Treasure.

On a recent trip to Del Norte county Superintendent of the Southern Curry Telephone company made a visit to Crescent City to see the diving bell which will be used in an attempt to salvage the wreck of the Brother Jonathan, which lies at a comparatively shallow depth off Point St. George. Mr. Dennis tells the Gold Beach Reporter the apparatus is ingenious and that the promoters are confident of success. Heavy seas due to the prevailing northerly wind have delayed the expedition.

#### Abandoned Mill to Be Sold.

The Raymond Land & Improvement company has given an option on the abandoned mill and site of some seven or eight acres of the State Lumber & Box company, late since 1918, to the Columbia Wood Products company, the Willapa Harbor Pilot reports. Claude House, manager of the Raymond Land & Improvement company, negotiated the sale.

#### Tree Planting Delayed.

Trail building and forest service work in eastern Lewis county is progressing nicely, says the Morton (Wash.) Mirror, with the exception of tree planting on the Clapsa. The latter is being delayed to some extent by the lack of men, and it may be possible, officials say, that some of the crew of 35 men working on the Vance road may have to be used for a time in the planting operations, thus delaying to some extent the completion of that road.

#### Canyon City to Light Up.

Canyon City is going to vote on a \$5000 bond issue for a municipal lighting plant. That city owes \$12,000 of which \$6000 falls due in January, 1923, with a sinking fund of only \$2200 to meet it. The other \$6000 indebtedness is in outstanding warrants. Canyon City is now paying \$800 a year interest charges.

#### Huge Black Bear Kills Calf.

A huge black bear was killed by George Baker near Willapa bay Tuesday, but not until the brute had killed a calf and mutilated a cow so that she had to be killed.—Willapa Harbor Pilot.

#### Club Members But Make Start at Camp Grounds.

#### Kiwanis Still Has Work to Do, but Some Rubbish Is Collected.

BY ADDISON BENNETT.

CONSIDERING that Saturday was a sort of holiday and that members of the Kiwanis club do not believe in overly exerting themselves on either holy days or holidays, the members of the Portland lodge of that order did not complete the leveling, grading, sandpapering and polishing of the Kiwanis club grounds. They made a good start on the east end of the street, near Johnson's store, as evidenced by two piles of junk now ready for the flames. The members will be out again in a day or so. Any-

\$1.69, \$1.90, \$2.85, \$3.35 and \$9.50 a yard.

how, they have made a start, which is more than any of our other lodges has done.

R. K. Winzard, his wife and five children, Lawrence, 12; Herbert, 10; Eugene, 8; Evan, 7, and George, 6, with a Ford car and Washington license, No. 1814, and a trailer loaded with almost 1000 pounds, are from Tacoma, where Mr. Winzard was in the dairy and grocery business. Now the family is headed for Los Angeles, but may find a location before reaching that place.

A Buick car, Washington license, No. 4402, is from Seattle, carrying Mr. and Mrs. F. E. Fralick. They are headed for Boise, Idaho, but may find a location before reaching there.

Mr. and Mrs. C. N. Smith and their little son, Robert, age 6, left Chicago last July, where Mr. Smith was engaged in the garage business. The

family wintered in southern California, meaning Los Angeles, "which city," Mr. Smith remarked, "is the biggest overestimated city in the world." Asked where they were going Mr. Smith said: "Away from Los Angeles, but just where we do not know."

W. E. Christrom, from Culbertson, Mont., is on his lonely way to Eugene, Or. He is a druggist by profession but has lately been farming. He has a friend in Eugene with whom he has been corresponding, and seems to think he will like that section. I sure think he will and did my best to make the word Eugene sound good to him.

H. K. Oliver with Mrs. Oliver and son, Harry, age 6, are from New York city, where Mr. Oliver was a member of the police force. He resigned last July, bought himself an outfit and started out to see the world. He spent the winter in California and is

now bound for New York, where he will dispose of his property and come out to the west to finish his days.

Mr. and Mrs. H. E. Dahlberg have an Oregon license on their car and are, in fact, citizens of Portland; but they now are headed for Astoria, where they most likely will locate.

Frank Rowley and Mrs. Rowley are from San Francisco, but they do not seem to have a definite idea of just where they are going, when they are

holiday—just out for a continuous holiday.
