Gorilla, Even, Is Chummy Fellow, Says Dr. Akeley.

SAVAGES ARE FRIENDLY

Land Declared Much Milder-tempered and People Are Not Treacherous as Many Have Supposed.

Entirely different from the popular conception were the attractive pictures given by Dr. Carl Akeley, noted explorer, naturalist and scientist, of the "dark continent" in his lecture on Africa at the municipal auditorium last night.

Gorilla Declared Chummy.

The gorilla, for instance, the doctor explained, is a much more friendly animal than is generally supposed. Instead of being blood-thirsty, ferocious beast persistently described, he is really somewhat of a very nice chap, inclined to be chummy most of the time.

Savage Protects Women.

Later he interestingly illustrated another view of the native—that if a man who penetrates their territory is accompanied by his wife he will never be harmed. "The fact that he has a wife along is a guarantee of his good faith, according to the native."

Whether or not that was intended for a humorous rally matters not, but it went big with the audience, which was informed by the doctor that on his last trip he was accompanied by three women and a girl five years old.

“WASH” — Don't Scour Teeth!

You Wouldn't Scour the Piano Keys

YOU would not use a grit cleaner on your ivory piano keys. You know what it would do to them, you also know how readily they give up their dirt to gentle washing treatment. Ivory and teeth are first cousins — made of the same basic substance.

Every time you *scratch* your teeth, you remove part of the surface. You can use Colgate's Ribbon Dental Cream during a long lifetime without the slightest injury to the delicate enamel of your teeth.

COLGATE'S CLEANS TEETH THE RIGHT WAY

"Washes" and Polishes — Doesn't Scratch or Scour

1. Loosens Clinging Particles
2. "Washes" Away

The most effective and trustworthy tooth cleaner for habitual use is one that offers the combined action of fine, non-gritty precipitated chalk and pure soap. Thus, in Colgate's you get what modern science finds best.

More dentists prescribe Colgate's than any other dentifrice. They rely solely on the merit of that article guaranteed by a reputation of 115 years for "Truth in Advertising — Honesty in Manufacture."

Colgate's cleans teeth thoroughly — no dentifrice does more. A LARGE tube costs 25c — why pay more?
