Answers to Previous Questions. 1. Has the deadly cobra snake any atural enemy?

Yes, one of the Ichneumons, or "trackers," Herpestes griseus, commonly called mongoose, fights and frequently kills this snake, in spite of the latter's fatal bite. The mongoose is very quick at dodging and has thick fur which stands out stiffly when the creature is enraged. This

2. What part of a cotton plant is the cotton fiber? The fluff is an inside wrapping in the pods, intended to help the seeds to which it clings, float away from dandelion and milkweed, to get their

seeds sown. Fortunately for man, the wrapping of the cotton seeds is very abundant, especially under cultivation, and stands manipulation. 3. What is the name of a brown a riot. bird, yellow on its breast, with long (Cop) tail resembling a mocking-bird, that
